

Dr. Dennis D. Cantu ECHS Lottery Procedures

Dr. Dennis D. Cantu Early College High School is an open enrollment program that provides equal opportunity for acceptance regardless of background, socioeconomic status, and academic performance. Enrollment decisions shall not be based on state assessment scores, discipline history, teacher recommendation, interviews, parent or student essays, GPA, or other criteria that create barriers for the enrollment process. If CECHS has more applicants than available admission spaces, an open-access lottery system shall be used to select incoming students for our program.
