(Updated 02/17/2017)

Note:

ⓘ “Unknown Asbestos” status – There is no record of this building having ever been inspected.

- We recommend inspection at your earliest opportunity.

Ⓢ “No ACM” status – Either no asbestos containing material (ACM) was discovered during the original 1988 inspection or the ACM discovered in 1988 has been subsequently removed.

- Any new suspect materials installed in a building after the 1988 inspection must be treated as “asbestos containing” until such time testing can be conducted.
- We recommend testing at your first opportunity.
