What is it about the Offshore Program on North Haven that most interests you?
You will be living and learning away from family and friends for an entire school year on an island only accessible by ferry. What do you think your greatest challenges will be under these circumstances?
We require all Offshore students to participate in at least one extracurricular activity per semester. Our school is a great place to what you love or try something new. What activities would interest you and why? (e.g., cross-country, basketball, theater, rowing, esports, debate, track and field, student council, Gender-Sexuality-Inclusivity-Alliance, etc.)

Finally, describe your personal strengths and weaknesses. How do you see yourself growing throughout this experience?
