Happy Practicing!
Ms. McIvor

As we look ahead to next week, we will be experiencing a rare event, the solar eclipse on Monday, April 8! We will be providing all students and staff with eclipse glasses for safety and protection.

This is a great learning experience and staff may take this opportunity to do a lesson.

The eclipse event is set to begin at 2:18 and will end around 4:40 that afternoon. As some students will be riding the bus during this time, we will make students aware of the safety concerns. Please talk with your student about eye safety at home as well.

We ask that if you choose to pick up your student early please let us know and arrive at 2:00 pm.
