SCS NEWSLETTER

A message from Jen McIvor~

Music classes have been investigating various methods of composition, including making decisions by chance (aleatoric music) and building from lyric choices (after first writing a Mad Lib).

Here are their group scores including a recording of the 4-6 piece with accompaniment!

Cheese & Pickles

SCS 4-6

Cheese Gei - co snack geck - o cheese ketch - up and must - ard

Eiff - el Tow - er with pick - les cheese knees pick - les cheese

The Souper Bowl returns to Southport! On Saturday February 10th from 11:30-1:30 PM, an age-old tradition is kicking off for the first time in years - a community soup potluck to warm your bellies and your hearts. Bring a soup to share, or just bring an appetite! Join your neighbors and friends at the Town Hall for a wholesome lunch and great company - all are welcome at this free community event. Toss a tupperware or two in your backseat, because at the end of the event you just may get the chance to pack up a bonus serving of your favorite soup for a donation of any size.

MS. TIBBETTS' K/1 CLASSROOM

During Forest School last week, Ms. Tracey took us for a nature walk to the back field where we looked for signs of animals in the snow. We saw squirrel tracks as well where the squirrels have been eating!

MS. CLARKE'S GRADE 2 CLASSROOM

Lily and Cairine are shown learning about mass and weights in grams and kilograms. They had fun estimating the weights of different objects and using the balance scale to find matches. It was harder than they thought.

MRS. BROWNE'S GRADE 4/5/6 CLASSROOM

The Digestive System!

Mrs. Browne's class has been learning about the digestive system in science class. On Monday, they got to experience the digestive system process through an experiment. Students simulated crackers going through each step of the digestive process. It was a messy and fun learning experience!

POSITIVE MINDSET was the focus on this week's all school activity, taught by Mrs. Browne.

We watched a short video called "The Reflection in Me" that focuses on the power of positive self-talk. The students then were asked to write some positive reflections about themselves and others. Students did a great job helping and encouraging one another.

Community Literacy Event

Saturday, February 10, 10:30–11:30 a.m.

Read Aloud & Make Art!

Join us February 10 to Celebrate the Year of the Dragon! We'll learn the history and traditions of this holiday as we read *Happy, Happy Chinese New Year* by Demi. Make your own dragon as we feast on special treats.

Celebrate your creativity!
Share joy!

Be part of a community where stories come to life, leaving you with more than just memories — but a renewed sense of hope.
