# Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To the Management and School Board Mitchell Technical College

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Mitchell Technical College, a Department of the Mitchell School District No. 17-2, South Dakota (Department), as of June 30, 2023, and for the year then ended, and the related notes to the financial statements, which collectively comprise the Department's basic financial statements and have issued our report thereon dated February 14, 2024.

#### **Report on Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Department's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Department's internal control. Accordingly, we do not express an opinion on the effectiveness of the Department's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

#### **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Department's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Department's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. As required by South Dakota Codified Law 4-11-11, this report is a matter of public record and its distribution is not limited.

Mitchell, South Dakota February 14, 2024

ELO Pof LAC

#### **Independent Auditor's Report**

To the Management and School Board Mitchell Technical College

#### **Report on the Audit of the Financial Statements**

#### **Opinions**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Mitchell Technical College, a Department of the Mitchell School District No. 17-2, South Dakota (Department), as of June 30, 2023, and for the year then ended, and the related notes to the financial statements, which collectively comprise the Department's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Mitchell Technical College as of June 30, 2023, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Mitchell School District No. 17-2 and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Emphasis of Matter**

As discussed in Note 1, the financial statements of Mitchell Technical College are intended to present the financial position, the changes in financial positions and, where applicable, cash flows, of only that portion of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the School District that is attributable to the transactions of Mitchell Technical College. They do not purport to, and do not, present fairly the financial position of the Mitchell School District No. 17-2 as of June 30, 2023, the changes in its financial position, or, where applicable, its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

#### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that
  are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
  effectiveness of the Department's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control—related matters that we identified during the audit.

#### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the Budgetary Comparison Schedule, the Schedule of the Employer Contributions, and the Schedule of the Proportionate Share of the Net Pension Liability (Asset) be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The Department has omitted the Management's Discussion and Analysis (MD&A), that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

#### **Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Department's basic financial statements. The Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 14, 2024 on our consideration of the Mitchell Technical College's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Mitchell Technical College's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Department's internal control over financial reporting and compliance.

Mitchell, South Dakota

The accompanying Notes to Financial Statements are an integral part of this statement.

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances – Governmental Funds to the Statement of Activities For the Year Ended June 30, 2023

Net Change in Fund Balances - Total Governmental Funds	\$ 515,560
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay expense exceeded depreciation expense in the current period.	556,699
In the statement of activities gains of \$61,054 on disposal of capital are reported, whereas, in the governmental funds, the proceeds of \$103,876 from the disposal of capital assets is reflected, regardless of whether a gain or loss is realized. (+gains, -losses, -proceeds=amount)	(42,822)
The receipt of donated capital assets is not reported on the fund statements, but is reported as program revenue on the government wide statements.	62,826
Repayment of long-term debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets.	260,000
Governmental funds do not reflect the change in accrued leave and early retirement payments, but the statement of activities reflects the change in accrued leave and early retirement payments through expenditures.	(32,413)
Changes in the pension related deferred outflows/inflows are direct components of pension liability (asset) and are not reflected in the governmental funds	 148,719
Change in Net Position of Governmental Activities	\$ 1,468,569

Notes to Financial Statements June 30, 2023

#### 1. Summary of Significant Accounting Policies:

The accounting policies of Mitchell Technical College, a Department of the Mitchell School District No. 17-2 conform to generally accepted accounting principles as applicable to government entities in the United States of America.

#### a. Financial Reporting Entity:

Mitchell Technical College is a Department of the Mitchell School District No. 17-2 (Department). Mitchell Technical College consists of all of the funds, organizations, institutions, agencies, departments, and offices that make up Mitchell Technical College, plus those funds for which Mitchell Technical College has a fiduciary responsibility, even though those fiduciary funds may represent organizations that do not meet the criteria for inclusion in the financial reporting entity; those organizations for which Mitchell Technical College is financially accountable; and other organizations for which the nature and significance of their relationship with the Mitchell Technical College are such that their exclusion would cause Mitchell Technical College's financial statements to be misleading or incomplete.

The accompanying financial statements include only the accounts of Mitchell Technical College and do not include various other activities and organizations over which the Mitchell School District No. 17-2 exercises oversight responsibilities.

#### b. Basis of Presentation:

#### **Government-Wide Financial Statements**

The Statement of Net Position and Statement of Activities display information about the reporting entity as a whole. They include all funds of the reporting entity, except for fiduciary funds. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

The Statement of Net Position reports all financial and capital resources, in a net position form (assets minus liabilities equal net position). Net position is displayed in three components, as applicable, net investment in capital assets, restricted (distinguishing between major categories of restrictions), and unrestricted.

The Statement of Activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the Department and for each function of the Department's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) charges paid by recipients of goods and services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, are presented as general revenues.

Notes to Financial Statements June 30, 2023

#### 1. Summary of Significant Accounting Policies: (Continued)

#### **Fund Financial Statements:**

Fund financial statements of the reporting entity are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues, and expenditures/expenses. Funds are organized into three major categories: governmental, proprietary, and fiduciary. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the Department or it meets the following criteria:

- Total assets, liabilities, revenues, or expenditures/expenses of the individual governmental or enterprise fund are at least 10% of the corresponding total for all funds of that category or type, and
- 2) Total assets, liabilities, revenues, or expenditures/expenses of the individual governmental or enterprise fund are at least 5% of the corresponding total for all governmental and enterprise funds combined, or
- 3) Management has elected to classify one or more governmental or enterprise funds as major for consistency in reporting from year to year, or because of public interest in the fund's operations.

The funds of the Department's financial reporting entity are described below within their respective fund types:

#### **Governmental Funds:**

Post-Secondary Vocational-Technical Fund (also referred to as Post-High Fund) — A fund established by SDCL 13-39-39.1 to account for funds incidental to the operation of the post-secondary vocational-technical program. This is a major fund. This is considered the general fund for the reporting entity of Mitchell Technical College.

Special Revenue Funds – Special revenue funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

Pell Grant Fund, Perkins Loan Fund, SEOG Fund and CWSP Fund – These funds were established to account for the activity of Student Financial Aid Programs. These funds are not major funds.

Debt Service Fund – Debt service funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

Series 2010A Certificate Redemption Fund – A fund established in accordance with the terms of the Series 2010A Capital Outlay Certificate Bonds restricted to use for the payment of the certificates upon maturity. The Series 2010A Certificate Redemption Fund is a major fund.

Notes to Financial Statements June 30, 2023

#### 1. Summary of Significant Accounting Policies: (Continued)

Capital Projects Fund – Capital Project funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds and trust funds)

The Ag Building Capital Project Fund is to construct a new ag building. This is a major fund.

#### **Proprietary Funds:**

Enterprise Funds — Enterprise funds may be used to report any activity for which a fee is charged to external users for goods or services. Activities are required to be reported as enterprise funds if any one of the following criteria is met:

- The activity is financed with debt that is secured solely by a pledge of the net revenues from fees and charges of the activity. Debt that is secured by a pledge of net revenues from fees and charges and the full faith and credit of a related primary government or component unit even if that government is not expected to make any payments is not payable solely from fees and charges of the activity. (Some debt may be secured, in part, by a portion of its own proceeds but should be considered as payable "solely" from the revenues of the activity.)
- Laws or regulations require that the activity's costs of providing services, including capital costs (such as depreciation or debt service), be recovered with fees and charges, rather than with taxes or similar revenues.
- The pricing policies of the activity establish fees and charges designed to recover its costs, including capital costs (such as depreciation or debt service).

The MTC Campus Store Fund – enterprise fund used to record financial transactions related to the operation of the MTC Bookstore. This is a major fund.

#### **Fiduciary Funds:**

Fiduciary Funds consist of the following sub-category and are never considered to be major funds:

Custodial Funds — custodial funds are used to report fiduciary activities that are not required to be reported in pension (and other employee benefit) trust funds, investment trust funds, or private-purpose trust funds. MTC maintains custodial funds to hold assets as an agent in a trustee capacity for various classes, clubs, and so on.

#### c. Measurement Focus and Basis of Accounting:

Measurement focus is a term used to describe "how" transactions are recorded within the various financial statements. Basis of accounting refers to "when" revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements, regardless of the measurement focus.

Notes to Financial Statements June 30, 2023

#### 1. Summary of Significant Accounting Policies: (Continued)

#### **Measurement Focus:**

Government-wide Financial Statements:

In the government-wide Statement of Net Position and Statement of Activities, both governmental and business-type activities are presented using the economic resources measurement focus, applied on the accrual basis of accounting.

#### **Fund Financial Statements:**

In the fund financial statements, the "current financial resources" measurement focus and the modified accrual basis of accounting are applied to governmental funds, while the "economic resources" measurement focus and the accrual basis of accounting are applied to the proprietary and fiduciary fund types.

#### **Basis of Accounting:**

Government-wide Financial Statements:

In the government-wide Statement of Net Position and Statement of Activities, governmental and business-type activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues and related assets generally are recorded when earned (usually when the right to receive cash vests); and expenses and related liabilities are recorded when an obligation is incurred (usually when the obligation to pay cash in the future vests).

#### **Fund Financial Statements:**

All governmental fund types are accounted for using the modified accrual basis of accounting. Their revenues generally are recognized when they become measurable and available. "Available" means resources are collected or to be collected soon enough after the end of the fiscal year that they can be used to pay the bills of the current period. The accrual period for the Department is 60 days. The revenues which are accrued at June 30, 2023, are grant reimbursements and tuition and fees.

Under the modified accrual basis of accounting, receivables may be measurable but not available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period.

Expenditures generally are recognized when the related fund liability is incurred. Exceptions to this general rule include principal and interest on general long-term debt which are recognized when due.

All proprietary and fiduciary fund types are accounted for using the accrual basis of accounting. Their revenues are recognized when they are earned, and their expenses are recognized when they are incurred.

Notes to Financial Statements June 30, 2023

#### 1. Summary of Significant Accounting Policies: (Continued)

#### d. <u>Capital Assets</u>:

Capital assets include land, buildings, machinery and equipment, and all other tangible or intangible assets that are used in operations and that have initial useful lives extending beyond a single reporting period.

The accounting treatment over capital assets depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

#### **Government-Wide Financial Statements:**

All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated capital assets are valued at their acquisition value on the date donated. Reported cost values include ancillary charges necessary to place the asset into its intended location and condition for use. Subsequent to initial capitalization, improvements or betterments that are significant, and which extend the useful life of a capital asset are also capitalized.

For governmental activities capital assets, construction period interest is not capitalized, in accordance with USGAAP. For capital assets used in business-type activities/proprietary fund's operations, construction period interest is not capitalized in accordance with USGAAAP.

The total June 30, 2023, balance of capital assets for governmental activities includes approximately 5% for which costs were determined by estimates of the original costs. These estimated original costs were established by review of prior-year minutes and original contracts.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the government-wide Statement of Activities, with net capital assets reflected in the Statement of Net Position. Accumulated depreciation is reported on the government-wide Statement of Net Position.

Capitalization thresholds (the dollar values above which asset acquisitions are added to the capital asset accounts), depreciation methods, and estimated useful lives of capital assets reported in the government-wide statements and proprietary funds are as follows:

	•	italization reshold	Depreciation Method	Estimated Useful Life		
Land*	\$	5,000				
Land improvements	\$	5,000	Straight-line	20 yrs		
Buildings	\$	50,000	Straight-line	50 yrs		
Machinery and equipment	\$	5,000	Straight-line	5-20 yrs		

Land is an inexhaustible capital asset and is not depreciated. \*

Notes to Financial Statements June 30, 2023

#### 1. Summary of Significant Accounting Policies: (Continued)

#### **Fund Financial Statements:**

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital expenditures of the appropriate governmental fund upon acquisition. Capital assets used in proprietary fund operations are accounted for on the accrual basis, the same as in the government-wide statements.

#### e. Long-term Liabilities:

The accounting treatment of long-term liabilities depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

All long-term liabilities to be repaid from governmental and business-type resources are reported as liabilities in the government-wide statements. The long-term liabilities primarily consist of compensated absences, early retirement benefits payable, notes payable, pledges payable, and capital outlay certificates payable.

In the fund financial statements, debt proceeds are reported as revenues (other financing sources) while payments of principal and interest are reported as expenditures.

#### f. Program Revenues:

In the Government-wide Statement of Activities, reported program revenues derive directly from the program itself or from parties other than the Department's taxpayers or citizenry, as a whole. Program revenues are classified into three categories, as follows:

- Charges for services These arise from charges to customers, applicants, or others who purchase, use, or directly benefit from the goods, services, or privileges provided, or are otherwise directly affected by the services.
- Program-specific operating grants and contributions These arise from mandatory and voluntary non-exchange transactions with other governments, organizations, or individuals that are restricted for use in a particular program.
- Program-specific capital grants and contributions These arise from mandatory and voluntary non-exchange transactions with other governments, organizations, or individuals that are restricted for the acquisition of capital assets for use in a particular program.

#### g. <u>Deferred Inflows and Deferred Outflows of Resources</u>:

In addition to assets, the statement of financial position reports a separate section for deferred outflows of resources. Deferred outflows of resources represent consumption of net position that applies to a future period or periods. These items will not be recognized as an outflow of resources until the applicable future period.

Notes to Financial Statements June 30, 2023

#### 1. Summary of Significant Accounting Policies: (Continued)

In addition to liabilities, the statement of financial position reports a separate section for deferred inflows of resources. Deferred inflows of resources represent acquisitions of net position that applies to a future period or periods. These items will not be recognized as an inflow of resources until the applicable future period.

#### h. Proprietary Funds Revenue and Expense Classifications:

In the proprietary fund's Statement of Activities, revenues and expenses are classified in a manner consistent with how they are classified in the Statement of Cash Flows. That is, transactions for which related cash flows are reported as capital and related financing activities, noncapital financing activities, or investing activities are not reported as components of operating revenues or expenses.

#### i. Cash and Cash Equivalents:

The Department pools its cash resources for depositing and investing purposes. Accordingly, the enterprise fund has access to its cash resources on demand. Accordingly, all reported enterprise deposit balances are considered to be cash equivalents for the purpose of the Statement of Cash Flows.

#### j. Equity Classifications:

#### **Government-Wide Statements:**

Equity is classified as net position and is displayed in three components:

- 1. Net Investment in Capital Assets consists of capital assets, including restricted capital assets, net of accumulated depreciation (if applicable) and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- 2. Restricted net position consists of net position with constraints placed on their use either by (a) external groups such as creditors, grantors, contributors, or laws and regulations of other governments; or (b) law through constitutional provisions or enabling legislation.
- 3. Unrestricted net position all other net position that do not meet the definition of "restricted" or "net investment in capital assets."

#### **Fund Financial Statements:**

Governmental fund equity is classified as fund balance, and is distinguished between Nonspendable, Restricted, Committed, Assigned, or Unassigned components. Proprietary fund equity is classified the same as in the government-wide financial statements. Fiduciary fund equity is reported as restricted net position.

Notes to Financial Statements June 30, 2023

#### 1. Summary of Significant Accounting Policies: (Continued)

#### k. Application of Net Position:

It is the Department's policy to first use restricted net position, prior to the use of unrestricted net position, when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

#### I. Fund Balance Classification Policies and Procedures:

In accordance with Government Accounting Standards Board (GASB) No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, the Department classifies governmental fund balances as follows:

- Nonspendable includes fund balance amounts that cannot be spent either because it is not in spendable form or because of legal or contractual constraints.
- Restricted includes fund balance amounts that are constrained for specific purposes which are
  externally imposed by providers, such as creditors or amounts constrained due to constitutional
  provisions or enabling legislation.
- Committed includes fund balance amounts that are constrained for specific purposes that are
  internally imposed by the government through formal action of the highest level of decision-making
  authority and does not lapse at year-end.
- Assigned includes fund balance amounts that are intended to be used for specific purposes that
  are neither considered restricted nor committed. Fund balances may be assigned by the school
  board.
- Unassigned includes positive fund balance within the General Fund which has not been classified within the above-mentioned categories and negative fund balances in other governmental funds.

The nonspendable fund balance is comprised of amounts reported in non-spendable form such as inventory and amounts not in cash form such as long-term portion of loans receivable.

The Department uses restricted/committed amounts first when both restricted and unrestricted fund balance is available unless there are legal documents/ contracts that prohibit doing this, such as a grant agreement requiring dollar for dollar spending. Additionally, the Department would first use committed, then assigned, and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

The Department does not have a formal minimum fund balance policy.

Notes to Financial Statements June 30, 2023

#### 1. Summary of Significant Accounting Policies: (Continued)

#### m. Pensions:

For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense (revenue), information about the fiduciary net position of the South Dakota Retirement System (SDRS) and additions to/deletions from SDRS's fiduciary net position have been determined on the same basis as they are reported by SDRS. Department contributions and net pension liability (asset) are recognized on an accrual basis of accounting.

#### n. <u>Leases</u>:

The Department does not have any leases to recognize. If the Department had any leases, it would recognize a lease liability and an intangible right-to-use lease asset (lease asset) in the government-wide financial statements. The Department recognizes lease liabilities with an initial, individual value of \$45,000 or more.

At the commencement of a lease, the Department initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of the lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the commencement date, plus certain initial direct costs. Subsequently, the lease is amortized on a straight-line basis over its useful life.

Key estimates and judgments related to leases include how the Department determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The Department uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the Department generally uses its incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease. Lease payments included in the
  measurement of the lease liability are composed of fixed payments and purchase option price
  that the Department is reasonably certain to exercise.

The Department monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Lease assets are reported with other capital assets and lease liabilities are reported with long-term debt on the statement of net position.

Notes to Financial Statements June 30, 2023

#### 1. Summary of Significant Accounting Policies: (Continued)

#### o. Subscription Based Information Technology Arrangements:

The Department does not have any subscription based information technology arrangements to recognize. If the Department had any, it would recognize a subscription liability and an intangible right-to-use subscription asset (subscription asset) in the government-wide financial statements. The Department recognizes subscription liabilities with an initial, individual value of \$45,000 or more.

At the commencement of a subscription, the Department initially measures the subscription liability at the present value of payments expected to be made during the subscription term. Subsequently, the subscription liability is reduced by the principal portion of subscription payments made. The subscription asset is initially measured as the initial amount of the subscription liability, adjusted for subscription payments made at or before the subscription commencement date, plus certain initial implementation costs. Subsequently, the subscription asset is amortized on a straight-line basis over its useful life.

Key estimates and judgments related to subscription include how the Department determines (1) the discount rate it uses to discount the expected subscription payments to present value, (2) subscription term, and (3) subscription payments.

- The Department uses the interest rate charged by the vendor as the discount rate. When the interest rate charged by the vendor is not provided, the Department generally uses its estimated incremental borrowing rate as the discount rate for subscriptions.
- The subscription term includes the noncancellable period of the subscription. Subscription payments included in the measurement of the subscription liability are composed of fixed payments and purchase option price that the Department is reasonably certain to exercise.

The Department monitors changes in circumstances that would require a remeasurement of its subscription and will remeasure the subscription asset and liability if certain changes occur that are expected to significantly affect the amount of the subscription liability.

Subscription assets are reported with other capital assets and subscription liabilities are reported with long-term debt on the statement of net position.

#### p. Implementation of Accounting Standard:

In 2023, the Department implemented the provisions of Governmental Accounting Standards Board (GASB) Statement No. 96, Subscription Based Information Technology Arrangements. The implementation of this standard had no effect on beginning net position.

Notes to Financial Statements June 30, 2023

#### 2. Deposits and Investments, Credit Risk, Concentrations of Credit Risk, and Interest Rate Risk:

The Department follows the practice of aggregating the cash assets of various funds to maximize cash management efficiency and returns. Various restrictions on deposits and investments are imposed by statutes. These restrictions are summarized below:

Deposits – The Department's deposits are made in qualified public depositories as defined by SDCL 4-6A-1, 13-16-15, 13-16-15.1 and 13-16-18.1. Qualified depositories are required by SDCL 4-6A-3 to maintain at all times, segregated from their other assets, eligible collateral having a value equal to or at least 100% of the public deposit accounts which exceed deposit insurance such as the FDIC and NCUA. In lieu of pledging eligible securities, a qualified public depository may furnish irrevocable standby letters of credit issued by federal home loan banks accompanied by written evidence of that bank's public debt rating which may not be less than "AA" or a qualified public depository may furnish a corporate surety bond of a corporation authorized to do business in South Dakota.

Investments – In general, SDCL 4-5-6 permits Department funds to be invested only in (a) securities of the United States and securities guaranteed by the United States Government either directly or indirectly; or (b) repurchase agreements fully collateralized by securities described in (a) above; or in shares of an open-end, no-load fund administered by an investment company whose investments are in securities described in (a) above and repurchase agreements described in (b) above. Also, SDCL 4-5-9 requires investments to be in the physical custody of the political subdivision or may be deposited in a safekeeping account with any bank or trust company designated by the political subdivision as its fiscal agent.

Credit Risk – State law limits eligible investments for the Department, as discussed above. The Department has no investment policy that would further limit its investment choices.

Concentration of Credit Risk – The Department places no limit on the amount that may be invested in any one issuer.

Interest Rate Risk – The Department does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Assignment of Investment Income – State law allows income from deposits and investments to be credited to either the General Fund or the fund making the investment. The Department's policy is to credit all income from investments to the fund making the investment.

#### 3. Receivables and Payables:

Receivables and payables are not aggregated in these financial statements. The Department expects all receivables to be collected within one year.

Notes to Financial Statements June 30, 2023

#### 4. Inventory:

Inventory held for consumption is stated at cost.

Inventories held for resale are recorded at the lower of cost or market, on a first-in, first-out cost flow assumption.

In the government-wide financial statements and in the enterprise fund financial statements, inventory items are initially recorded as assets and charged to expense in the various functions of government as they are consumed.

In the governmental fund financial statements, inventories consist of land and residential homes constructed as part of the educational program and held for sale. Reported inventories are equally offset by nonspendable fund balance which indicates that they do not constitute "available spendable resources" even though they are a component of net current assets.

Notes to Financial Statements
June 30, 2023

## 5. Changes in Capital Assets:

A summary of changes in capital assets for the year ended June 30, 2023, is as follows:

	Balance			Balance	
	7/1/2022	Increases	Decreases	6/30/2023	
Governmental Activities:					
Capital assets, not being depreciated:					
Land	\$ 773,740	\$	\$	\$ 773,740	
Construction in progress	566,257	1,292,126	(566,257)	1,292,126	
Total, not being depreciated	1,339,997	1,292,126	(566,257)	2,065,866	
Capital assets, being depreciated:					
Buildings	8,904,194	917,541		9,821,735	
Machinery and equipment	20,134,209	838,806	(588,626)	20,384,389	
Total, being depreciated	29,038,403	1,756,347	(588,626)	30,206,124	
Less accumulated depreciation for:					
Buildings	2,271,163	318,795		2,589,958	
Machinery and equipment	12,604,857	1,543,896	(545,804)	13,602,949	
Total accumulated depreciation	14,876,020	1,862,691	(545,804)	16,192,907	
Total capital assets, being					
depreciated, net	\$ 14,162,383	\$ (106,344)	\$ (42,822)	\$ 14,013,217	

Depreciation expense was charged to functions as follows:

Instruction	\$ 1,750,930
Support services	74,508
Co-curricular activities	 37,253
	\$ 1,862,691

Construction in Progress at June 30, 2023 is composed of the following:

	Expended					ı	Required		
	Pr	oject	Т	hrough				Future	
Project Name	Autho	Authorization		06/30/2023		Committed		Financing	
Drainage Project - Phase 1	\$ 1,	169,650	\$	443,600	\$	1,169,650	\$		
NTRC Diesel Lab Addition	\$ 9,	500,000	\$	694,192	\$	5,000,000	\$	3,805,808	
Rad Tech Lab Remodel	\$	409,652	\$	154,334	\$	409,652	\$		

Notes to Financial Statements June 30, 2023

#### 6. Long-Term Liabilities:

A summary of changes in long-term liabilities for the year ended June 30, 2023, is as follows:

	Beginning Balance	Additions		Deletions		Ending Balance	Due Within One Year	
<b>Governmental Activities:</b>								
Bonds Payable:								
Capital Outlay Certificates	\$ 1,725,000	\$		\$		\$ 1,725,000	\$	
Total Debt	1,725,000					1,725,000		
Early Retirement Payable -								
Governmental Funds	13,089				(7,732)	5,357		5,357
Accrued Compensated Absences -								
Governmental Funds	251,923		140,914		(100,769)	292,068		116,827
Note Payable -								
Governmental Funds	450,000				(60,000)	390,000		60,000
Pledge Payable -								
Governmental Funds	200,000				(200,000)			
Total Governmental Activities	\$ 2,640,012	\$	140,914	\$	(368,501)	\$ 2,412,425	\$	182,184

Compensated absences for governmental activities typically have been liquidated from the Post-High Fund. Early retirement benefits for governmental activities typically have been liquidated from the Post-High Fund.

Liabilities payable at June 30, 2023, are comprised of the following:

#### **Capital Outlay Certificates:**

	Terms	
Mitchell School District No. 17-2	5.50%; Certificate matures and final \$ 1	L,725,000
Limited Tax General Obligation	principal payment due December 1, 2029.	
Taxable Certificates, Series	Payable from Series 2010 Certificate	
2010A Qualified Energy	Redemption Fund. Semi-annual deposits	
Conservation Bonds - Direct	of \$45,395 are required to be made to the	
Pay-Secured by pledge of	fund on June 1 and December 1, with final	
capital outlay tax levy	deposit to be made on December 1, 2029.	

## Notes to Financial Statements June 30, 2023

## 6. Long-Term Liabilities: (Continued)

#### **Notes Payable:**

Rural Electric Economic Development – Unsecured	Terms 0.00%; due in annual installments of \$30,000 (principal only, no interest) on April 25. Final payment due April 25, 2029.	\$ 180,000
Central Electric Cooperative, Inc. Rural Electric Economic Development - Unsecured	0.00%; due in annual installments of \$30,000 (principal only, no interest) on June 15. Final payment due June 15, 2024. Loan may be extended upon mutual consent of the lender and borrower for up to three (3) consecutive two-year terms for a total term on ten years through June 15, 2030.	\$ 210,000

## Other long-term liabilities:

Compensated Absences –		
Payable from the fund to which payroll expenditures are charged	\$	292,068
Early Retirement Benefits – Payable from the Post-High Fund	<del></del>	5,357

The annual debt service requirements to maturity, except for compensated absences, for all debt outstanding as of June 30, 2023, are as follows:

									l	Early

Notes to Financial Statements June 30, 2023

#### 7. Interfund Transfers:

Interfund transfers for the year ended June 30, 2023, were as follows:

Transfers from:	Trar	nsfers to:	
	<b>Debt Service Funds</b>		Purpose
Capital Outlay Fund	\$	25,000	Deposits for debt retirement
Post-High Fund	\$	94,875	Deposits for debt retirement

#### 8. Restricted Net Position:

The following table shows the net position restricted for other purposes as shown on the Statement of Net Position:

Purpose	Restricted By	Amount
Post-Secondary Education	Law	\$ 5,761,013
Agriculture program	Donor	190,000
Student Financial Aid	Law	82,022
Debt Service	<b>Bond Agreement</b>	1,413,939
Mitchell Technical College	Donor	5,000,000
SDRS pension purposes	Law	1,158,513
<b>Total Restricted Net Position</b>		\$ 13,605,487

#### 9. Restricted Cash and Investments:

Assets restricted to use for a specific purpose through segregation of balances in separate accounts are as follows:

Amount	Purpose
\$ 1,413,939	For debt service, by debt covenants
	(sinking funds required to be in a separate account)

Notes to Financial Statements June 30, 2023

#### 10. Pension Plan:

#### a. Plan Information:

All employees working more than 20 hours per week during the school year participate in the South Dakota Retirement System (SDRS), a cost-sharing, multiple-employer hybrid defined-benefit pension plan administered by SDRS to provide retirement benefits for employees of the State of South Dakota and its political subdivisions. The SDRS provides retirement, disability, and survivor benefits. The right to receive retirement benefits vests after three years of credited service. Authority for establishing, administering, and amending plan provisions is found in SDCL 3-12. The SDRS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained at <a href="http://sdrs.sd.gov/publications.aspx">http://sdrs.sd.gov/publications.aspx</a> or by writing to the SDRS, PO Box 1098, Pierre, SD 57501-1098, or by calling 605-773-3731.

#### b. Benefits Provided:

SDRS has four classes of members: Class A general members, Class B public safety and judicial members, Class C Cement Plant Retirement Fund members, and Class D Department of Labor and Regulation members.

Members that were hired before July 1, 2017, are Foundation members. Class A Foundation members and Class B Foundation members who retire after age 65 with three years of contributory service are entitled to an unreduced annual retirement benefit. An unreduced annual retirement benefit is also available after age 55 for Class A Foundation members where the sum of age and credited service is equal to or greater than 85 or after age 55 for Class B Foundation judicial members where the sum of age and credited service is equal to or greater than 80. Class B Foundation public safety members can retire with an unreduced annual retirement benefit after age 55 with three years of contributory service. An unreduced annual retirement benefit is also available after age 45 for Class B Foundation public safety members where the sum of age and credited service is equal to or greater than 75. All Foundation retirements that do not meet the above criteria may be payable at a reduced level.

Members that were hired on/after July 1, 2017, are Generational members. Class A Generational members and Class B Generational judicial members who retire after age 67 with three years of contributory service are entitled to an unreduced annual retirement benefit. Class B Generational public safety members can retire with an unreduced annual retirement benefit after age 57 with three years of contributory service. At retirement, married Generational members may elect a single-life benefit, a 60 percent joint and survivor benefit, or a 100 percent joint and survivor benefit. All Generational retirement benefits that do not meet the above criteria may be payable at a reduced level. Generational members will also have a variable retirement account (VRA) established, in which they will receive up to 1.5 percent of compensation funded by part of the employer contribution. VRAs will receive investment earnings based on investment returns.

Legislation enacted in 2017 established the current COLA process. At each valuation date:

 Baseline actuarial accrued liabilities will be calculated assuming the COLA is equal to longterm inflation assumption of 2.25%.

Notes to Financial Statements June 30, 2023

#### 10. Pension Plan: (Continued)

- If the fair value of assets is greater or equal to the baseline actuarial accrued liabilities, the COLA will be:
  - o The increase in the 3rd quarter CPI-W, no less than 0.5% and no greater than 3.5%.
- If the fair value of assets is less than the baseline actuarial accrued liabilities, the COLA will be:
  - The increase in the 3rd quarter CPI-W, no less than 0.5% and no greater than a restricted maximum such that, that if the restricted maximum is assumed for future COLAs, the fair value of assets will be greater or equal to the accrued liabilities.

Legislation enacted in 2021 reduced the minimum COLA from 0.5 percent to 0.0 percent.

All benefits except those depending on the Member's Accumulated Contributions are annually increased by the Cost-of-Living Adjustment.

#### c. Contributions:

Per SDCL 3-12, contribution requirements of the active employees and the participating employers are established and may be amended by the SDRS Board. Covered employees are required by state statute to contribute the following percentages of their salary to the plan; Class A Members, 6.0% of salary; Class B Judicial Members, 9.0% of salary; and Class B Public Safety Members, 8.0% of salary. State statute also requires the employer to contribute an amount equal to the employee's contribution. The Department's share of contributions to the SDRS for the years ended June 30, 2023, 2022, and 2021, equal to the required contributions each year, were as follows:

Year	P	Amount
2023	\$	458,149
2022		442,681
2021		412.199

d. <u>Pension Assets, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources</u> to Pensions:

At June 30, 2022, SDRS is 100.1% funded and accordingly has a net pension asset. The proportionate shares of the components of the net pension asset of the South Dakota Retirement System, for the Department as of the measurement period ending June 30, 2022 and reported by the Department as of June 30, 2023 are as follows:

Proportionate share of pension liability	\$4	2,335,185
Less proportionate share of net pension restricted for pension benefits	4	2,363,527
Proportionate share of net pension liability (asset)	\$	(28,342)

Notes to Financial Statements June 30, 2023

#### 10. Pension Plan: (Continued)

At June 30, 2023, the Department reported an asset of \$28,342 for its proportionate share of the net pension asset. The net pension asset was measured as of June 30, 2022 and the total pension liability used to calculate the net pension asset was based on a projection of the Department's share of contributions to the pension plan relative to the contributions of all participating entities. At June 30, 2022, the Department's proportion was .2998961%, which is a decrease of .0202954% from its proportion measured as of June 30, 2021.

For the year ended June 30, 2023, the Department recognized reduction of pension expense of \$148,719. At June 30, 2023, the Department reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	_	eferred tflows of		eferred lows of
	Re	esources	Re	sources
Difference between expected and actual experience	\$	539,513	\$	1,840
Changes in assumption		1,801,335	1	L,578,629
Net difference between projected and actual earnings on pension plan investments				67,921
Changes in proportion and difference between District contributions				
and proportionate share of contributions		20,715		41,151
District contributions subsequent to the measurement date		458,149		
	\$	2,819,712	\$ 1	1,689,541

\$458,149 reported as deferred outflow of resources related to pensions resulting from the Department's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense (revenue) as follows:

real Elided Julie 30,									
2024	\$	164,873							
2025		387,910							
2026		(444,132)							
2027		563,371							
Total	\$	672,022							

Vear Ended June 30

## Notes to Financial Statements June 30, 2023

#### 10. Pension Plan: (Continued)

#### e. Actuarial Assumptions:

The total pension asset in the June 30, 2022 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.25%

Salary Increases Graded by years of service, from 7.66% at entry to 3.15% after 25

years of service

Discount Rate 6.50% net of plan investment expense. This is composed of an

average inflation rate of 2.5% and real returns of 4%

Future COLAs 2.10%

#### Mortality Rates:

All mortality rates based on Pub-2010 amount-weighted mortality tables, projected generationally with improvement scale MP-2020

Active and Terminated Vested Members:

Teachers, Certified Regents, and Judicial: PubT-2010

Other Class A Members: PubG-2010 Public Safety Members: PubS-2010

#### **Retired Members:**

Teachers, Certified Regents, and Judicial Retirees: PubT-2010, 108% of rates above age 65 Other Class A Retirees: PubG-2010, 93% of rates through age 74, increasing by 2% per year

until 111% of rates at age 83 and above

Public Safety Retirees: PubS-2010, 102% of rates at all ages

#### Beneficiaries:

PubG-2010 contingent survivor mortality table

#### **Disabled Members:**

Public Safety: PubS-2010 disabled member mortality table Others: PubG-2010 disabled member mortality table

The actuarial assumptions used in the June 30, 2022 valuation were based on the results of an actuarial experience study for the period of July 1, 2011 to June 30, 2021.

Investment portfolio management is the statutory responsibility of the South Dakota Investment Council (SDIC), which may utilize the services of external money managers for management of a portion of the portfolio. SDIC is governed by the Prudent Man Rule (i.e., the council should use the same degree of care as a prudent man). Current SDIC investment policies dictate limits on the percentage of assets invested in various types of vehicles (equities, fixed income securities, real estate, cash, private equity, etc.).

Notes to Financial Statements June 30, 2023

#### 10. Pension Plan: (Continued)

The long-term expected rate of return on pension plan investments was determined using a method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2022 (see the discussion of the pension plan's investment policy) are summarized in the following table using geometric means:

		Long-Term
	Target	<b>Expected Real</b>
Asset Class	Allocation	Rate of Return
Global equity	58.0%	3.7%
Fixed income	30.0%	1.1%
Real estate	10.0%	2.6%
Cash	2.0%	0.4%
	100.0%	

#### f. Discount Rate:

The discount rate used to measure the total pension asset was 6.50%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that matching employer contributions from will be made at rates equal to the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension asset.

## g. Sensitivity of Asset to Changes in the Discount Rate:

The following presents the Department's proportionate share of net pension asset calculated using the discount rate of 6.50% as well as what the Department's proportionate share of the net pension asset would be if it were calculated using a discount rate that is 1-percentage point lower (5.50%) or 1-percentage point higher (7.50%) than the current rate:

	Current						
	_1%	6 Decrease	Disc	ount Rate	1	l% Increase	
Department's proportionate share							
of the net pension (asset)	\$	5,884,968	\$	(28,342)	\$	(4,861,079)	

#### h. Pension Plan Fiduciary Net Position:

Detailed information about the plan's fiduciary net position is available in the separately issued SDRS financial report.

Notes to Financial Statements June 30, 2023

#### 11. Risk Management:

The Department is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During the period ended June 30, 2023, the Department managed its risk as follows:

#### **Employee Health Insurance:**

Mitchell Technical College as a part of the Mitchell School District No. 17-2 joined the South Dakota School District Health Benefits Fund. This is a public entity risk pool currently operating as a common risk management and insurance program for South Dakota local government entities. The Department pays a monthly premium to the pool to provide health insurance coverage for its employees. The pool purchases reinsurance coverage with the premiums it receives from the members. The coverage also includes a \$2,000,000 lifetime maximum payment per person.

The Department does not carry additional health insurance coverage to pay claims in excess of this upper limit. Settled claims resulting from these risks have not exceeded the liability coverage during the past three years.

#### **Liability Insurance:**

Mitchell Technical College as a part of the Mitchell School District No. 17-2 purchases liability insurance for risks related to torts; theft or damage to property; and errors and omissions of public officials from a commercial insurance carrier. Settled claims resulting from these risks have not exceeded the liability coverage during the past three years.

#### Workers' Compensation:

Mitchell Technical College as a part of the Mitchell School District No. 17-2 participates, with several other educational units and related organizations in South Dakota, in the Associated School Boards of South Dakota Workers' Compensation Fund Pool which provided workers' compensation insurance coverage for participating members of the pool. The objective of the Fund is to formulate, develop, and administer, on behalf of the member organizations, a program of workers' compensation coverage, to obtain lower costs for that coverage and to develop a comprehensive loss control program. The Department's responsibility is to initiate and maintain a safety program to give its employees safe and sanitary working conditions and to promptly report to and cooperate with the Fund to resolve any workers' compensation claims. The Department pays an annual premium to provide workers' compensation coverage for its employees, under a retrospectively rated policy and the premiums are accrued based on the ultimate cost of the experience to date of the Fund members. The Department may also be responsible for additional assessments in the event the pool is determined by its board of trustees to have inadequate reserves to satisfy current obligations or judgments. Additional assessments, if any, are to be determined on a prorated basis based upon each participant's percentage of contribution in relation to the total contributions to the pool of all participants for the year in which the shortfall occurs. The pool provides loss coverage to all participants through pool retained risk retention and through insurance coverage purchased by the pool in excess of the retained risk. The pool pays the first \$500,000 of any claim per individual. The pool has reinsurance which covers up to an additional \$1,000,000 per individual per incident.

Notes to Financial Statements June 30, 2023

#### 11. Risk Management: (Continued)

The Department does not carry additional insurance to cover claims in excess of the upper limit. Settled claims resulting from these risks have not exceeded the liability coverage over the past three years.

**Unemployment Benefits:** 

Mitchell Technical College as a part of the Mitchell School District No. 17-2 has elected to be self-insured and retain all risk for liabilities resulting from claims for unemployment benefits.

During the year ended June 30, 2023, no claims for unemployment benefits were paid. At June 30, 2023, no claims had been filed for unemployment benefits and none are anticipated in the next fiscal year.

#### 12. Early Retirement Plan:

The Department has an agreement which provides for an early retirement cash benefit in an amount not to exceed the retiree's highest salary while employed by the Department to certificated teachers and administrative personnel hired before September 1, 2001, who retire after having met certain age and length-of-service requirements. To collect these benefits, notification must be given no later than March 15 of the year in which such retirement will occur. Currently, one retiree is receiving benefits under this provision. The benefit is paid in monthly installments. The early retirement benefits are funded from the applicable fund on a pay-as-you-go basis and are recorded as a liability in the government-wide financial statements at the time an employee elect's early retirement. Benefits paid for the year ended June 20, 2023, were \$5,357.

The accompanying Notes to Required Supplementary Information are an integral part of these financial statements.

Notes to Required Supplementary Information – Budgetary Comparison Schedule For the Year Ended June 30, 2023

#### 1. Budgets and Budgetary Accounting:

Mitchell Technical College followed these procedures in establishing the budgetary data reflected in the schedule:

- a) Prior to the first regular board meeting in May of each year the school board causes to be prepared a proposed budget for the next fiscal year according to the budgetary standards prescribed by the Auditor General.
- b) The proposed budget is considered by the school board at the first regular meeting held in the month of May of each year.
- c) The proposed budget is published for public review no later than July 15 each year.
- d) Public hearings are held to solicit taxpayer input prior to the approval of the budget.
- e) Before October 1 of each year, the school board must approve the budget for the ensuing fiscal year for each fund, except fiduciary funds.
- f) After adoption by the school board, the operating budget is legally binding and actual expenditures of each fund cannot exceed the amounts budgeted, except as indicated in item h.
- g) A line item for contingencies may be included in the annual budget. Such a line item may not exceed 5% of the total Department budget and may be transferred by resolution of the school board to any other budget category, except for capital outlay, that is deemed insufficient during the year. No amount of expenditures may be charged directly to the contingency line item in the budget.
- h) If it is determined during the year that sufficient amounts have not been budgeted, state statute allows adoption of supplemental budgets when monies are available to increase legal spending authority.
- i) Unexpended appropriations lapse at year-end unless encumbered by resolution of the School Board.
- j) Formal budgetary integration is employed as a management control device during the year for the Post-High Fund and special revenue funds.

#### 2. US GAAP/Budgetary Accounting Basis Differences:

The financial statements prepared in conformity with USGAAP present capital outlay expenditure information in a separate category of expenditures. Under the budgetary basis of accounting, capital outlay expenditures are reported within the function to which they relate. For example, the purchase of a new school bus would be reported as a capital outlay expenditure on the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances, however in the Budgetary RSI Schedule, the purchase of a school bus would be reported as an expenditure of the Support Services-Business/Pupil Transportation function of government, along with all other current Pupil Transportation related expenditures.

#### **Changes from Prior Valuation**

The June 30, 2022, Actuarial Valuation reflects numerous changes to the actuarial assumptions as a result of an experience analysis completed since the June 30, 2021, Actuarial Valuation. In addition, two changes in actuarial methods have been implemented since the prior valuation.

The details of the changes since the last valuation are as follows:

#### **Benefit Provision Changes**

During the 2022 Legislative Session no significant SDRS benefit changes were made and gaming enforcement agents became Class B Public Safety Members.

## **Actuarial Assumption Changes**

As a result of an experience analysis covering the period from July 1, 2016, to June 30, 2021, and presented to the SDRS Board of Trustees in April and June 2022, significant changes to the actuarial assumptions were recommended by the SDRS Senior Actuary and adopted by the Board of Trustees first effective for this June 30, 2022, actuarial valuation.

The changes to economic assumptions included increasing the price inflation to 2.50% and increasing the wage inflation to 3.15%. The current assumed investment return assumption of 6.50% was retained, lowering the assumed real investment return to 4.00%. The baseline COLA assumption of 2.25% was also retained. Salary increase assumptions were modified to reflect the increase in assumed wage inflation and recent experience. The assumed interest on accumulated contributions was decreased to 2.25%

The demographic assumptions were also reviewed and revised. The mortality assumption was changed to the Pub-2010 amount-weighted tables using separate tables for teachers, general, and public safety retirees, with assumptions for retirees adjusted based on credible experience. The mortality assumption for active and terminated vested members was changed to the unadjusted amount-weighted Pub-2010 tables, again by member classification and the assumption for beneficiaries was changed to the amount-weighted Pub-2010 general contingent survivor table. Adjustments based on experience were also made to the assumptions regarding retirement, termination, disability, age of spouses for married Foundation members, percentage of terminated vested members electing a refund, and benefit commencement age for terminated vested Public Safety members with 15 or more years of service.

The SDRS COLA equals the percentage increase in the most recent third calendar quarter CPI-W over the prior year, no less than 0% (0.5% prior to 2021) and no greater than 3.5%. However, if the FVFR assuming the long-term COLA is equal to the baseline COLA assumption (currently 2.25%) is less than 100%, the maximum COLA payable will be limited to the increase that if assumed on a long-term basis, results in a FVFR equal to or exceeding 100%.

Notes to Required Supplementary Information – Schedule of the Proportionate Share of the Net Pension Asset and Schedule of Pension Contributions South Dakota Retirement System (Continued)

As of June 30, 2022, the FVFR assuming future COLAs equal to the baseline COLA assumption of 2.25% is less than 100% and the July 2023 SDRS COLA is limited to a restricted maximum of 2.10%. The July 2023 SDRS COLA will equal inflation, between 0% and 2.10%. For this June 30, 2022, Actuarial Valuation, future COLAs were assumed to equal the restricted maximum COLA of 2.10%.

Actuarial assumptions are reviewed for reasonability annually and reviewed in depth periodically, with the next experience analysis anticipated before the June 30, 2027, Actuarial Valuation and any recommended 7 changes approved by the Board of Trustees are anticipated to be first implemented in the June 30, 2027, Actuarial Valuation.

## **Actuarial Method Changes**

Actuarial method changes with minor impact were implemented for this valuation after recommendation by Cavanaugh Macdonald Consulting as part of their reviews of prior valuations. As a result, liabilities and normal costs for refund benefits and the Generational Variable Retirement Account are now calculated using the entry age normal cost method with normal costs based on the expected value of these accounts rather than the actual balance.

Schedule of Expenditures of Federal Awards For the Year Ended June 30, 2023 (Continued)

#### Note 1: Basis of Presentation

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal award activity of the Mitchell Technical College a Department of the Mitchell School District No. 17-2 under programs of the federal government for the year ended June 30, 2023. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the schedule presents only a selected portion of the operations of Mitchell Technical College, it is not intended to and does not present the financial position, changes in net position, or cash flows of Mitchell Technical College.

#### Note 2: Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. The Department does not use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

#### Note 3: Federal Loan Guarantee Programs

Loans guaranteed under federal guarantee loan programs and issued to parents of eligible students or eligible students attending this vocational technical school had the following values:

Direct Student Loans \$ 1,153,847 Unsubsidized Direct Student Loans \$ 1,821,956 PLUS Program Loans \$ 187,558

A private nonprofit corporation acts as the guarantee agency in the State of South Dakota.
