

GRADE _____

OKALOOSA COUNTY SCHOOL DISTRICT STUDENT INTERVENTION SERVICES

Dispersion of Medication Form

School Board Policy for Administering Medication to Students by School Personnel

- Any medication, either prescription or nonprescription, to be administered to a student on school premises or at school functions (including field trips) must be brought to the school by the parent/guardian/authorized adult representative for retention and administering. No student will be allowed to have medication, prescription or nonprescription with the exception of a Pancreatic enzyme supplement, Epipen, insulin pen, an asthma inhaler or an FDA approved medication to relieve headaches, in his/her possession, on school premises, on a school bus, or at a school function. Pancreatic enzyme supplements, Epipens, insulin pens, or asthma inhalers will be permitted to be carried with parental permission and physician's authorization.
- Medication brought to school must be in the original prescription container, properly labeled with the child's name, doctor, name of medication, route, dosage, time to be administered, directions, and expiration date. A **"Dispersion of Medication Form"** must be completed for each medication and a method of disposal of any unused or expired medication designated. The medication must be counted jointly by the parent/guardian and a school clinic staff member. The parent/guardian and school clinic staff member must both sign the **"Registry of Medication Form"** for the initial medication drop off and each time additional medication is brought to the school. Any medication that is unused must be picked up within one week of the ending date noted or at the end of the school day on the last day of school. All unused medications left after these dates will be discarded by the school clinic staff.
- Parents are encouraged to request prescriptions for medications which limit administration during school hours. First morning doses should be given at home with only mid-day doses administered by a school staff member.
- Medication(s) will not be provided by the school.
- The student will be accountable for appropriate use of medications/equipment in his/her possession. In the event of misuse of supplies or equipment, the students may be subject to disciplinary action.

****By my signature on this form, I authorize designated Okaloosa County School District personnel, and any other contracted healthcare agencies to provide emergency care for my child and/or to exchange medical information as necessary to support the continuity of care of my child.**

This is to verify that, _____ a student at _____
