MOGADORE HIGH SCHOOL

BEHIND the mask

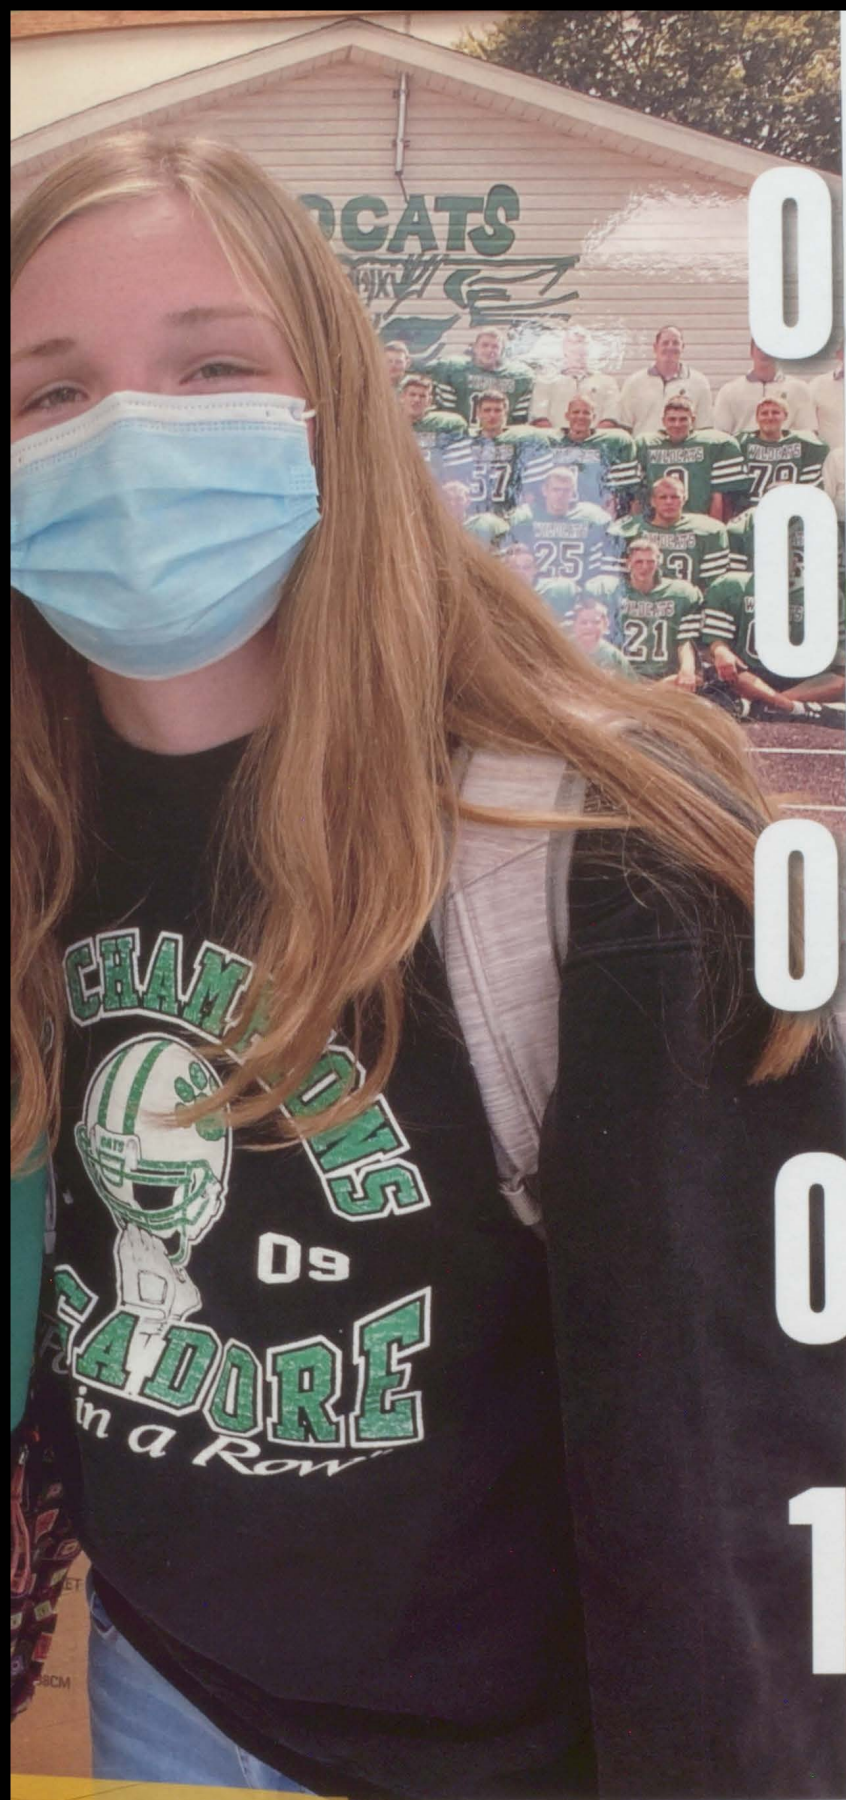

The 2020/2021 school year was full of unexpected twists and turns that left students wondering if a normal high school experience would even be possible. With the school year starting in the midst of a global pandemic, many COVID safety protocols were set in place, like masks, dividers, and social distancing. With faces hidden and limited physical interactions, students found new ways "see" each other behind the mask.

BREAKOUT CEREMONY

Breaking Tradition with Fresh Air

HEAD OF THE CLASS. After the graduation ceremony, valedictorian Sophia King and salutatorian Jarrett Rockenfelder pose with their plaques. Admitting that her speech would be forgotten in 10-minutes, King emphasized the value of friends and family. She encouraged her classmates to celebrate their friends and families because "their support truly means the world." Acknowledging that the "real world still awaits [them]," Davis reminded his classmates how they showed that they can "overcome any challenge" and that "anything is possible" if they work hard.

BANDING TOGETHER. After returning from maternity leave, band director Mrs. Bonitz leads the band as they accompany the ceremony. Weeks leading up to graduation, students met in small groups in the hallways to rehearse for the event. Senior Maddie Carden pulled double duty as she transitioned from a graduate to a band member. They led the processional with *Pomp and Circumstance* and the recessional with Strauss's arrangement of the *Radetzky March*.

Dillon Pendergast

Cory Gasaway

W

with a team full of talent and experience, the 2020 wildcat golfers had a season full of success. One of their most notable achievements was going to the state tournament for the first time since 2008. In the past, students and teachers have celebrated state qualifiers through lining the halls and cheering the athletes on or attending pep rallies in the gym. Due to COVID-19, the golf team was not be able to have a traditional pep rally but instead had the opportunity to host the first ever outdoor pep rally.

"This was an unbelievable season. We made it to state and finished 5th. We also finished the season undefeated at 13-0 and won our 3rd straight PTC championship. These seniors have now won 31 straight matches. This team will go down as one of the best in school's history. In my 15 years as golf coach, this was the most fun I've ever had."

"It made my first season a little complicated because I was thrown into a tornado of confusion and drama. Overall, I had a great first experience for football."

zoe gaetjens

As most people know Mogadore is a football town, so finding out that the community would be unable to attend Friday night games was a huge hit to players and fans. However, despite hardships that the team had to overcome due to COVID, this team represented Mogadore in the best way possible, winning game after game. "The best part about beating the opponent is the vibes in the locker room after winning," senior Kody Jaber said.

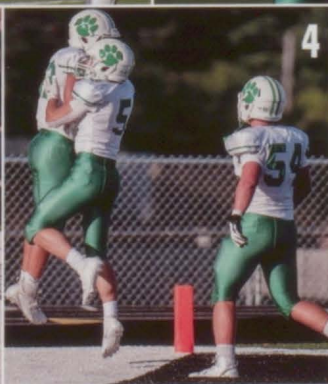

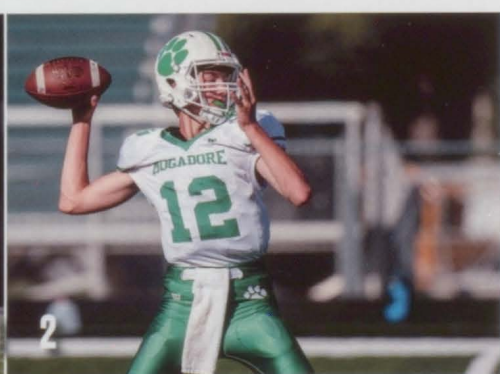

"COVID messed up some of our traditions, but we still had a fun season."

Q What's your least favorite thing about COVID learning?

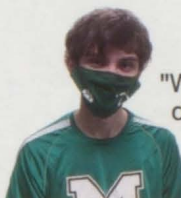

Going into the 2021 basketball season, players and fans were filled with uncertainty. After graduating all five starters from the year prior and going into their season during a global pandemic, the Wildcats were unsure of what to expect. But through all of the challenges they faced they were able to bring home another PTC title. "This season was a lot of fun, and I enjoyed winning the PTC even though we were the underdogs," junior Aidin Hiney said.

"My least favorite part is not being able to see my friends."

Kendall Barcus

"Worrying about dying due to a pandemic has been pretty not great for the most part."

Michael Uher

"I dislike not being able to go to classes in-person and felt it negatively impacted my ability to learn."

Sophia King

"My least favorite thing about COVID learning is the disconnect between the school and the online students."

Nikko Baird

"Not seeing your friends is one of them, and it just makes things harder to learn."

Alexa Grossholtz

"We did not know what to expect this season for a few reasons: 1) we graduated 7 seniors from last year's 18-5 team, 2) we only had 1 returning letterman, and 3) we were in the middle of a pandemic, which caused us to have two pauses during pre-season. We did not know how many games we would even play this season. Despite all of this we were a team that improved throughout the season because our players accepted their roles and believed in our system." - Coach Swartz

1. WE ARE THE CHAMPIONS. After a victorious win, Coach Swartz makes the final cut on the net. **2. Gavin Schrock.** **3. MUSICAL MOMENT.** After playing a harmonica pulled from his sock, senior Kody Jaber makes one of the first cuts on the net. **4. Dillon Pendergast.**

Aiden Roman

"*Avengers : Endgame* because all my favorite characters are together and I like the script."

SENIOR

Maddie Carden

Maddie has been apart of band since her sophomore year. Maddie stated, "Band has been my favorite way to end my day. I'll definitely miss it".

"My favorite type of mask to wear is the cloth masks provided by the athletic boosters to athletes. It's comfortable, breathable, and shows school spirit!"

"I like wearing the cloth masks the most because I think they're comfortable on my face. I also usually wear a one color plain mask to match my outfits."

Payton Coughlin

"I like the black disposable masks because they fit better and black matches everything."

Adam Harouff

Breanna Cline

Jon also plays bass guitar on Sundays at Mogadore's local church, Community Life Church. Both this year and last year has been different for the band due to the virus. This includes limited seats at the concerts, being quarantined, the mask mandate, online schooling, and social distancing. This obviously didn't stop the band from putting on amazing shows!

Q What was the highlight of your year?

Besides the typical issues that most have experienced this year with COVID-19, the choir has done an amazing job with working through the obstacles of singing with muffling masks in class. "I would say we have been doing a great job working together as a team and we always help one another figure things out," Whetstone said. The choir had been extremely successful despite some issues with quarantines before concerts but luckily they were able to still have all of their planned concerts for the school year.

"Playing sports with my friends because I find that doing things as a team builds bigger bonds."

Brooklyn Beckford

"The highlight of my year was the golf championship, it was an experience of a lifetime. Coach Mossa is funnier outside of school than inside of school."

John Dasco

"Getting to see most of my friends at school especially after how bad the end of last year was."

Paul Keren

Although a live performance in the fall was not able to happen due to quarantines, stage crew and drama were able to make an amazing comeback with live performances in the spring with Frozen. he way Academic Challenge/Quizbowl works is that "we compete in groups of 4 on 4 with teams from other PTC schools and they ask us questions about school subjects, pop-culture, sports, etc.," said advisor Mrs. Miller-Rett. "When you buzz in with the right answer, you get points and the right to answer. If you buzz and you're wrong, you lose points. Usually, we go to the other schools, but with COVID, we held everything virtually which was a crazy experience. Our captain this year was Landon Wicks and other members were Rachel Whetstone, Connor Byers, Aiden Roman, Nate Archibald and Bryson Cooper."

In yearbook class, students have to take pictures, create captions, get quotes, and edit the yearbook pages. This year was a little different than most, so it was harder to get coverage of all the students. Another struggle was having to work with students who were online. It was a bit harder to communicate, but all the students in the class were able to work together to get the yearbook completed.
