

Hello from Chartwells K12!

As the new school year gets underway, we want to help you get to know us better and offer some insights into the meals and programs we'll be serving up this year. Every day, our goal is to make sure that students leave the cafeteria happier and healthier than when they came in – here are just a few of the ways we make it happen!

Value of School Lunch

The value of school lunch is top of mind as families continue to experience inflation and growing food costs at home. In addition to giving kids the chance to try new foods and cut back on food waste, school lunch provides students with healthy, balanced, and safe meals at an affordable price, while saving families time and stress.
