

AUGUST ENTRY PLAN UPDATE

I am excited to share an update on my Entry Plan, a comprehensive strategy aimed at fostering positive change and continuous improvement within our School District. It was great to welcome students and families back into our buildings after the summer break. Being able to connect with so many community and family members that support and impact our students was a great way to start the new school year.

The first two weeks of school are about building relationships with each student and helping them adjust to their new grade level. Our teachers do a tremendous job of ensuring our students have a great place to learn and grow. The first weeks also give our teachers time to learn about each of their students academically to know how to support their learning throughout the year. Our teachers and building leaders have continued to work to bring relevant learning experiences for our students that tie to real-world experiences. We continue to refine our practices to bring real-world experiences to our students to broaden their exposure to the many opportunities they will have to engage in as they graduate high school.

As my family and I have transitioned into the community, we continue to become more immersed. It has been a great transition for us and everyone has been so welcoming. Being able to see the District as community members has allowed me to bring another perspective to our work as a District. Building a strong connection between our community and our school is essential to our success, and a key piece of our Strategic Plan. As a District we will continue to build and deepen our relationships and partnerships with the community.

I am truly excited about the journey ahead and the opportunity to work together to make our School District even better. The Board of Education continues to focus on having the best classroom experience for each and every one of our students. It has been wonderful to collaborate with them. Please know that your feedback and involvement are crucial to our success. Let's embark on this journey of collaboration and transformation, knowing that by working together, we can achieve greatness for our schools and our students. Thank you for your support and dedication to our School District.
