

NOVEMBER ENTRY PLAN UPDATE

It has been another great month to be a Warrior! The district has transitioned from Fall to Winter Activities and there has been a lot to celebrate! This month I was able to finish up building visits and will be scheduling another one in the months of February and March. It has been great to be part of the community and learn more about how to get involved.

Based on feedback from staff, several asked if it would be possible for staff from the central office to come and spend the day in each of the buildings. During October and November we were able to engage with the staff in each of our buildings. While in each of our buildings, staff were able to come during a time that worked for their schedule and we engaged in a conversation. The conversation was purposefully staff driven and based on topics the staff wanted to discuss. The one item shared from the central office was the updated Board and Superintendent Goals.

Over the last month we have also been engaging our principals in conversations about the academic growth of our students. It has been reassuring to see the way our staff track student achievement and ensure each student's needs are being met. They work collaboratively to support each other and have engaging conversations with our leaders to identify what they need. While the Department of Elementary and Secondary Education (DESE) have not released the results from last year, seeing how our staff collaborates instills confidence in how our students perform.

We continue to make progress on the projects from the April Bond. There will soon be dirt removed from the Transportation Facility site and progress is being made in the High School gym and the Middle School field. This work was driven from the 10 year building plan that was developed in 2020 and some things were tweaked during the 2023 Bond Campaign. As we move forward we are going to be gathering more community engagement to relook at our 10 year building plan and make revisions as we continue to plan for future district needs.

November is always a great time to give thanks and I would like to thank our staff for their commitment and focus on supporting all of our learners. I believe we are entrusted with the most precious thing a family can provide, their children, and I am thankful for the care our staff shows for our students each and every day. As always, it is a great day to be a Warrior!
