

Child Find Preschool Developmental Screening

The Brillion Public School District offers Child Find developmental screening to all Brillion district children age 2 years 9 months - 5 years old. The purpose of this screening is to check on a child's overall development and determine whether further testing or special services are needed. All families will receive valuable feedback on strategies and resources to further develop their child's skills.

We use the Ages and Stages screening which is a simple check of how your child is growing and developing in the areas of:

- Thinking, Language and Communication Skills
- Social and Emotional Development
- Development of Large and Small Muscles
- Vision and Hearing Screening

What happens for an online screening?

You will complete a questionnaire online answering questions about your child's overall development. This should take about 10-15 minutes. Upon completing the questionnaire, someone from the Brillion Early Childhood department will follow up with you to address strengths, concerns or any questions you may have. You will also have the option of receiving additional resources through Help Me Grow Fox Valley.

How do I register for a screening?

To complete an online screening click on

[Ages & Stages - English](#)

[Ages & Stages - Spanish](#)

To schedule an in-person screening, call Brillion Elementary School - (920) 756-2166 and ask for student services.

What happens at an in-person Child Development Screening?

Your child will be screened in a child friendly setting - you will accompany your child at all times. When the screening process is complete, an education professional will share the results with parents and address any concerns or questions. The entire screening process is completed within approximately 1 hour.

All preschool age district children are encouraged to be screened - tell your neighbors, family and friends!
