You may be aware that Raptor Technologies recently found and disclosed a vulnerability involving certain cloud-hosted data repositories. On January 11, 2024, Ami Hunt, our Director of Instruction, Curriculum & Technology, received information about this issue.

Mrs. Hunt contacted Raptor Technologies to determine if our district was impacted. The response she received from Raptor Technologies is below.

"We have reviewed your Raptor system and have confirmed that you do not use the Raptor Link service or any of the document upload functionality impacted by this vulnerability. We can confirm at this time that your district's data was not impacted by this vulnerability."

Keshequa Central School District takes data privacy and security very seriously and we continually monitor our internal practices and those of our vendors. As always if you have any questions regarding this manner, please do not hesitate to contact us.

Sincerely,

Lesley Powers
Superintendent
