September 2, 2025

To Parent, Teacher & Employee Organizations

The Asbestos Hazard Emergency Response Act (AHERA) of 1986 (AHERA) required that all educational facilities be inspected for asbestos – containing materials and develop a remedial plan of action on or before May 9, 1989. In addition, each educational facility shall reassess all identified asbestos – containing materials or materials assumed to be asbestos, at least once every six months (Periodic Surveillance) and re-inspect those facilities every three years (Tri-annual Re-inspection).

The Norwood Board of Education is in compliance with these requirements. The most recent Tri-annual re-inspection was performed in November of 2022. “Periodic Surveillance” inspections are conducted every May and November unless a Tri-annual re-inspection is due. The most recent “Periodic Surveillance” was performed in May 2025. The next inspection scheduled is a Tri-Annual Re-inspection and will be performed in November 2025.

Following each inspection, appropriate remedial actions are recommended to the Board of Education by an accredited Asbestos Management Planner. The remedial plan of action and recommended schedule for implementation (Asbestos Management Plan) is available for review at the Norwood Board of Education Administrative Office, as well as in the school office.

We will continue to keep you informed of our AHERA compliance.

Respectfully Yours,

Cathy DiNardo
