

EXTRACURRICULAR ACTIVITIES AND STUDENT ORGANIZATIONS

Policy Code:

3620

The board recognizes the value of interscholastic athletics and extracurricular activities in promoting leadership and team skills, practicing democratic principles, and encouraging the lifelong learning process. Students are encouraged to participate in opportunities available at the school, including interscholastic athletics and student organizations. Participation in interscholastic athletics is limited to students in grades seven through twelve. All activities are open to all students attending that school unless a restriction is justified and has been approved by the principal. The principal shall ensure that students and parents are notified of the various opportunities for participation in extracurricular activities and shall establish rules, as necessary, to govern such activities.

A. EXTRACURRICULAR ACTIVITY REQUIREMENTS

1. General Requirements

Participation in extracurricular activities, including student organizations and interscholastic athletics, is a privilege, not a right, and may be reserved for students in good academic standing who meet behavior standards established by the board, the superintendent, or the school.

Participation in extracurricular activities may be restricted if a student (1) is not performing at grade level as provided in policy 3400, Evaluation of Student Progress; (2) has failed to meet any applicable attendance requirements stated in policy 4400, Attendance; (3) has violated the student conduct standards found in the 4300 series of policies; or (4) has violated school rules for conduct. School administrators choosing to exercise this authority to restrict participation shall provide this policy and any additional rules, including attendance requirements, developed by the superintendent or the principal to all parents, guardians, and students.

2. Additional Requirements for Extracurricular Participation

Interscholastic Athletics

In addition to meeting the general requirements listed above, to be eligible for interscholastic athletics participation, students must meet the attendance requirement established by policy 4400 and the attendance policies of governing bodies that the schools are members of, and must meet all applicable eligibility standards of the State Board of Education, North Carolina High School Athletic Association, North Carolina Department of Public Instruction, and any locally established requirements for interscholastic athletics participation.

Participation in interscholastic athletics is limited to students in grades seven

through twelve. Students in sixth grade are not eligible to participate in interscholastic athletics.

Students will participate in interscholastic athletics in accordance with federal and state law, and the North Carolina High School Athletic Association rules and regulations.

3. Student-Initiated, Noncurriculum-Related Student Groups at the Secondary Level

Student-initiated, noncurriculum-related, secondary school student groups will be permitted to conduct voluntary meetings on school grounds during noninstructional time, regardless of the size of the group or the religious, political, philosophical, or other content of the speech at the meetings, provided that the meetings do not materially and substantially interfere with the orderly conduct of the educational activities of the school. The principal shall establish viewpoint neutral rules governing such meetings, including restrictions on when and where meetings may occur.

School employees may not promote, lead, or participate in student-initiated meetings but may be present at meetings to maintain order and discipline, to protect the well-being of the students and faculty, and to assure that attendance of students at the meetings is voluntary. School employees may not influence the form or content of any prayer or other religious activity or require any person to participate in prayer or other religious activity. In addition, non-school persons may not direct, conduct, control, or regularly attend the activities of the groups.

No public funds will be expended on behalf of the student-initiated, noncurriculum-related student groups except for the incidental cost of providing space for the group meetings.

Student-initiated, noncurriculum-related groups will have the same access to communication channels for publicizing their meetings as is allowed to all other noncurriculum-related student groups. However, school officials may indicate in such communications that the meetings are not sponsored by the school.

For purposes of this section, a noncurriculum-related student group is one that is not directly related to the curriculum. A student group will be considered curriculum-related only if (1) the group's subject matter is taught in a regularly offered course or relates to the curriculum as a whole; (2) participation in the group is required as part of a course; or (3) participation in the group results in course credit.

B. SPECIAL CIRCUMSTANCES**1. Students with Disabilities**

Students with disabilities must be accorded the legal rights required by federal and state law.

a. Children of Military Families

School administrators shall facilitate the inclusion and participation of children of military families, as defined in policy 4050, Children of Military Families, transferring into the school, to the extent they are otherwise qualified, by:

- a. Providing information about extracurricular activities to incoming children of military families; and
- b. Waiving application deadlines.

2. Athletic Participation by Home School Students authorized under Policy 3105

Home school students who are dually enrolled in accordance with the school system's enrollment and assignment policies and procedures are eligible to participate in high school interscholastic athletics if they comply with all of the following:

- a. The student must present a home school card from the Division of Non-Public Education for the previous and current years, as well as a transcript, attendance record, and record immunizations.
- b. The student must submit proof that the student has been enrolled in a registered home school for 365 days prior to participation in athletics.
- c. Prior to the first date of practice, the student must provide the results of a nationally standardized achievement test, taken within the last year, that indicates the student was on grade level at the time the test was taken.
- d. The student must participate in a class schedule that is at least one half of the assigned school's instructional day. At least one class must be taken on campus each semester.
- e. The student must pass all classes in which the student is enrolled at the assigned school in order to maintain athletic eligibility.
- f. Once dually enrolled and deemed eligible to participate in athletics, the student must maintain continuous dual enrollment. Failure to maintain continuous dual enrollment would render the student ineligible for athletic

participation for 365 days.

- g. The student must notify the principal of the assigned school in writing of the student's intent to try out for an athletic team at least 10 days prior to the first practice date of each sport season in which the student wishes to participate. Failure to comply with this requirement renders the student ineligible for that sport season.
- h. The student must comply with all other applicable North Carolina High School Athletic Association rules and regulations regarding eligibility for athletic participation.

A dually enrolled student who transitions to full enrollment within the school system will then be governed by State Board of Education, North Carolina High School Athletic Association rules and regulations regarding fully enrolled students.

C. APPEALS PROCESS

The grievance procedure provided in policy 1740/4010, Student and Parent Grievance Procedure, may be utilized by parents or students who believe that a student has been aggrieved by a decision made pursuant to this policy.
