

All schools will participate in federal National Child Nutrition Programs and will receive commodities donated by the United States Department of Agriculture. All federal and state revenues will be accepted and applied to maximize the use of such funds for the purposes of providing nutritional meals to students at the lowest possible price. The superintendent or designee shall develop procedures as necessary to implement the operational standards established in this policy.

A. OPERATIONAL STANDARDS

School officials are also prohibited from retaliating against an individual for prior civil rights activity.
2. The school nutrition program will meet safety and sanitation requirements established in local, state, and federal rules and guidelines for school food service programs.
3. The school nutrition services program will have a written food safety program that includes a hazard analysis critical control point plan for each school.
4. Menu preparation, purchasing, and related record keeping will be consistent with applicable state and federal rules and guidelines.
5. Banking, financial record keeping, budgeting, and accounting will be conducted in accordance with generally accepted practices and procedures, as dictated by the School Budget and Fiscal Control Act and in accordance with state and federal guidelines.
