Adopted August 30, 2018

Last Revised July 26, 2023

## 2370.1 – VIRTUAL INSTRUCTION

### Vision and Mission Statement

Recognizing that students learn in a myriad of ways, Logan County’s Virtual Online program promotes the education of each student through the innovation of online learning, equipping students with the knowledge to achieve personal and professional success in becoming college and career ready.

Senate Bill 630, school districts can develop local policies to regulate and guide the county online program. The West Virginia Virtual School offers free rigorous online courses aligned to state standards. These courses are typically taught by certified West Virginia licensed teachers who have often developed the course. The West Virginia Virtual School partners with county schools to provide a free individualized online learning solution for students on the path to high school graduation.

### Logan County Virtual School Student Profile

Logan County Virtual School students are enrolled in classes for 6-12 grades. Logan County’s Virtual School students’ backgrounds are diverse. Our students may be any of the following:

- A. Students who are homeschooled or enrolled at the public school.
- B. Students who are taking courses both at home and school. The student has the option to complete their coursework at home or may also choose to come to school to participate in specifically selected courses.
- C. Students who are enrolled in a traditional educational program at the local school and take some courses through the Virtual School.
- D. Students who are full-time virtual school learners and complete all coursework online at home.

### Student Eligibility and Requirements

Students who meet the following requirements are eligible to participate in the virtual education program:

- A. Enrolled in Logan County Schools as a full-time student (a minimum of six (6) courses per semester) or part-time student.

- B. Completes the virtual education application process.
- C. Enrolled in courses to meet Logan County Schools graduation requirements, as required by Policy 2510.
- D. Students must enroll prior to the fifth (5) academic day of each semester.
- E. If a student only wants to participate in extracurricular activities and not receive a high school diploma, the student must be enrolled in four classes with a minimum of two core classes.
- F. Homeschool students must follow WVSSAC guidelines for enrollment.
- G. Parents and students must successfully complete a district defined virtual education orientation course.
- H. Meet school system and/or state enrollment requirements for the course(s) in questions including successful completion of any prerequisite courses and virtual education orientations.
- I. Maintain a passing grade in courses taken during the current academic year, following county grading scale and policy.
- J.
- K. Students participating in WVSSAC sanctioned sports/activities must maintain at least a 2.0 grade point average.
- L. Have access to consistent, daily internet service.
- M. Weekly communication is required between online student, parents/guardian, and the school.
- N. Logan County Schools may not be able to provide transportation other than the regular morning and afternoon bus routes for the local school.
- O. Students enrolled in a Virtual program through the county cannot be dually enrolled full-time in and attend a private school at the same time.

### **Attendance**

Students participating in the virtual education option will be considered as being in attendance if the students are successfully progressing in the virtual education coursework. Successful progression will mean completing courses to graduate with one's four (4) year cohort or taking at least four (4) courses to participate in extracurricular activities. To receive an eligibility form for a driver's license, students must be progressing successfully in the coursework and communication weekly with staff. Students are required to submit assignments and interact on a weekly basis.

The school system reserves the right to set specific attendance requirements for each virtual course. The Superintendent or his/her designee is authorized to develop alternate attendance policies for virtual courses, provided students in such programs are given notice of the attendance requirements. A student's failure to comply with such requirements may result in administrative action including, but not limited to, removal from class.

All full-time virtual students will be enrolled as a student in their home school attendance zone in which they reside. Upon satisfying all graduation requirements, students enrolled in virtual pathway will receive a high school diploma from the high school in which they are enrolled in their attendance area. These students will be counted in the average daily membership. All full-time virtual students will participate in all state testing and accountability requirements. A student will not be permitted to enroll in virtual school the following year if they have not met all state testing and WVDE and county accountability requirements the previous year.

### **Extracurricular Activities**

Students enrolled as a full-time student or taking at least four courses are eligible to participate in extracurricular activities in the school in which they are enrolled according to attendance zone. Students must meet the same extracurricular activity eligibility requirements as students enrolled in the traditional day program including any applicable WVSSAC requirements. Student residency for purposes of participating in extracurricular activities will be determined in accordance with applicable Logan County Schools' policies and WVSSAC policies.

## Course Progression and Guidelines

Students are required to progress through online courses at a rate comparable to the progression of a traditional class. Student performance will be monitored and reported on regular intervals consistent with a traditional day program by the counselor they are assigned to at the school. Guidelines will be provided to help the student schedule their time and follow requirements for completion. Students must participate in a weekly online support meeting.

### Virtual Learning Enrollment Conditions:

- A. Students taking such course(s) must be enrolled in their local school.
- B. Students must enroll prior to the fifth (5) academic day of each semester.
- C. Students can enroll in a course(s) not offered at their home school.
- D. The schools offer the course, but the student is unable to take it due to an unavoidable scheduling conflict.
- E. The district has expelled the student from the regular school setting, but education services are to be continued.
- F. The school administration, the student's teachers, and the student's parents/guardians determine if the student requires a differentiated or accelerated learning environment.
- G. A student has failed a course and wishes to recover credits in the subject area.
- H. The course may be used as an alternative to summer school instruction with the approval of the school administration.
- I. The course may be part of summer school instruction provided the tuition is paid by the student's family and staff supervision/monitoring is available.
- J. The course will serve as a supplement to extend homebound instruction.
- K. Any other specific condition which may warrant the use of virtual coursework for the student and is approved by the building principal.
- L. All courses will use the state-approved grading scale as identified in State Board Policy 2510.
- M. Student privacy is important. All laws and FERPA will be followed.

### Removal

Students may be transitioned back to a traditional day program or returned to homeschool for the following reasons:

- A. Not maintaining a passing grade in each course.
- B. Progression through coursework falls below the minimum comparable tradition course standard.
- C. Attendance and communications requirements are not met.
- D. Cheating, falsifying information, plagiarizing.

The student will not be able to participate in any extracurricular activities if the student transfers to homeschool or private school after the student is removed from virtual school.

### Withdrawing

A student may withdraw from a course before ten (10) calendar school days into a semester without a grade penalty. No grade will be recorded on the student's transcript.

A student withdraws from a virtual class after ten (10) school calendar days into the semester and enrolls in the same course at their high school, then the grade the student had on-line will be transferred to the traditional teacher she/he is enrolled with. If the student does not enroll in the class at the high school, the student will receive a grade of WF.

Any student who withdraws after twelve (12) weeks into the semester will have a grade of an F recorded on their transcript for the virtual course(s) the student took.

**School Calendar**

All courses must be complete by the end of each semester as determined by Logan County Schools. High School students are expected to earn at least (6) credits each year if the student wants to graduate on time. Students who do not complete a course by the last day of the semester will be issued a grade reflecting the student's current grade and factoring in any missed assignments, tests, or other work product.

**Diplomas and Graduation**

Upon satisfying all Logan County Schools' graduation requirements, students enrolled in their virtual program will receive a high school diploma from Logan County Schools. Any virtual program course taken for high school credit, regardless of the grade in which the course was taken, will be entered onto the student's transcripts and calculated in Grade Point Averages.

**Student Support**

Students participating in virtual school will receive at least the following supports:

- A. Face-to-face tutoring will be provided for courses currently taught at the local school. Dates and times are determined by the local administration.
- B. IEP committees will meet to determine the most appropriate least restrictive environment and the most reasonable accommodations.

**Counseling and Guidance Services**

Logan County Schools will utilize personnel to assist with academic, career, and social-emotional needs as they arise. In conjunction with school counselors, students will be assisted by social workers, graduation coaches, and other team members of the school in developing an educational plan based on transcripts, standardized assessments, career interests, and other pertinent data. The plan will be reviewed periodically to assess its appropriateness and its progress toward completion.

**Student Responsibilities**

Students should spend the first days making sure they are comfortable with the technology of online learning and capable of mastering the content. Students are responsible for maintaining reliable, daily access to internet. Computer/internet problems will not be accepted as reasons for delays in meeting deadlines. Only through continuous communication and consistent work can students be successful in an online course. It is essential that students maintain regular contact with their facilitator and course instructor, and submit assignments on time. Once enrolled, students are on a probationary period for two weeks. If any student has not begun the course after two weeks from the enrollment date, the student will be automatically removed, and their local school will be notified. Student must let the school know immediately if she/he needs courses on the NCAA approval list for potential collegiate level NCAA participation and scholarships.

**Parent Responsibilities**

Parents play a vital role in their child's education. Parents need to ensure there is access to necessary technology. They need to monitor their child's progress and grades with virtual courses. Parents need to provide support and encouragement as students are working on their online courses. It is important that parents provide a structure and guidance when helping their child to complete the course work. Parents also need to be a liaison between the student and the teacher as needed. Parents will participate in the weekly online support meeting.

**Technology**

The school system will provide students with an electronic device for use during the Virtual Learning. Reliable, daily internet access is the responsibility of the family. Damage to or loss of school equipment and facilities wastes taxpayer's money and undermines the school program. Therefore, if a student damages or loses school property, the student or his/her parents will be required to pay for the replacement or damage. Use of technology will follow county policy and requirements.

### **Student Concerns, Suggestions, and Grievances**

The local school is here for the benefit of the students. The staff is here to assist a student in becoming a responsible adult. If a student has suggestions that could improve the school, she/he should feel free to offer them. Written suggestions may be presented directly to the school administrator.

When concerns or grievances arise, the best way to resolve the issue is through communication. No student will be harassed by any staff member or need fear reprisal for the proper expression of a legitimate concern. A student with suggestions, concerns, and grievances may be directed to the Principal of the local school. In addition, a student has the right to a hearing if the student believes she/he has been improperly denied participation in a school activity or has been subjected to an illegal rule or standard.
