1. This year, more emphasis will be put on the safety of the building, staff, and students. Several different things were discussed to implement during the school year:
  - a. Replacing the back doors at the high school to ensure proper closing to deny outside access.
  - b. Installing more key fobs at the elementary to have easy access in and out of the playground during recess time.
  - c. Purchasing coverings to quickly put over door windows during a lockdown.
  - d. Installing new fencing around the elementary playground.
  - e. Installing locking mechanisms for interior doors/keeping doors locked as much as possible.
  - f. Possibly have peepholes installed in the interior high school doors.
2. Geronimo Schools is continuing to use a stricter internet control program to restrict questionable or non-educational content.
3. Geronimo Schools will continue to meet all nutritional guidelines on food served.
4. Look at the edging on the playground (holding in the mulch) and repair if needed.
