Frequently Asked Questions

Are students required to participate in the district's 1:1 Student-to-Device Initiative?

Yes. All students in grades 9-12 will be issued a Chromebook to use for school assignments, activities, and homework. They are expected to bring this to class with them and have it ready to use on a daily basis.

Are there consequences for inappropriate use of the Chromebook?

Yes. Students are expected to adhere to the [Student Acceptable Use Guidelines for Technology](#) explained within the [Student Handbook](#).

Can I put stickers on or decorate my device?

No, it is a district device and does not belong to the student. However, students are encouraged to purchase a cover for their Chromebook which would help to keep it safe, and which could be decorated.

Will all classwork, assessments, and other assignments be online?

Students will continue to learn and engage in their schoolwork through a variety of modes, including hands-on experiences in the classroom, paper/pencil tasks, and digital-based activities.

Frequently Asked Questions

Do students need to bring their Chromebooks home each day?

Students are expected to bring their Chromebooks to and from school. We recommend that students designate a place to safely store and charge their Chromebooks at night, and remember to bring them to school each morning charged and ready to use.

What happens if a student forgets their Chromebook at home?

When possible, each teacher will have 1-2 Chromebooks for classroom use. They will be first-come-first served. Students who do not have their Chromebook will need to wait quietly until they get a chance to do their work. Any work not turned in when due will be considered late. Students who leave their device at home a 2nd time will be subject to a late grade and a detention. Students who leave their device at home a 3rd time will be subject to a late grade and three days detention. Students who leave their device at home a 4th time will be subject to a late grade, a visit with the principal, and one minimum day in ISS, etc.

If I leave the district, can I take my Chromebook with me?

No. Chromebooks are district property. They are checked out to the student for use and must be returned at the end of the school year or when the student leaves the district.

What if my Chromebook runs out of battery during the instructional day?

Students are expected to bring their charger to and from school with them. They will be allowed to plug their Chromebook in when it has died as long as it does not disturb the class environment and if an outlet is available. Students are expected to fully charge their Chromebooks nightly. Students are encouraged to seek out charging points if batteries become low throughout the day.

Frequently Asked Questions

What happens if I break my Chromebook on accident or there is a malfunction of the device?

Students are responsible for damage to Chromebooks. Minor scratches and cosmetic damage are part of daily use. Damage that causes the Chromebook to stop working & need repair will need to be paid for by the student. A list of Chromebook part prices is provided. If a student damages their Chromebook on accident, they need to report the damage to the library immediately. They will receive a temporary Chromebook while theirs is repaired if one is available. They will pay for repairs when their Chromebook is fixed and picked up. Students are not responsible for repairs that are needed which are due to the age or condition of the Chromebooks (a malfunction of the device). In those cases, the Chromebook will go to the library for repair or replacement and the student will receive a temporary device if one is available.

What happens if I damage my Chromebook on purpose?

Students who cause intentional damage to Chromebooks are also responsible for paying for damage to Chromebooks. They will follow the same procedures as those of a student who causes accidental damage. Students who intentionally damage a Chromebook are also subject to discipline for destruction of property under the expectations in the [Student Handbook](#).

What happens if I lose my Chromebook?

Students are responsible for keeping up with their Chromebooks. Devices that are lost will be subject to replacement fees.

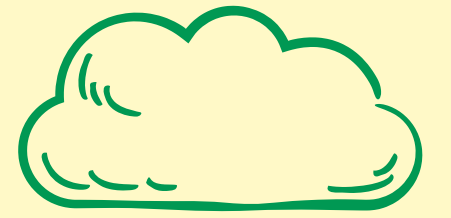

What happens if my device is stolen?

If a student's device is stolen at school, please contact the campus administration so the administration can attempt to locate the device. If the device is stolen at home, car, etc., contact the police. Once you have a police report, contact your campus administrator and provide them with the police report.

Parts Replacement

Price Lists

Prices may change and may also be subject to tax.

Recommendations for Chromebook Care

- Do not eat or drink near your Chromebook
- Always carry your Chromebook with both hands
- Never carry your Chromebook by the screen
- Log off your Chromebook rather than just closing it
- Do not slam your Chromebook screen
- Never hit the Chromebook keys
- Do not bend or flex the Chromebook screen
- Move Chromebooks from room to room in a bag or backpack
- Do not place heavy items on your Chromebook Student devices have a serial number and a nametag. Do not remove either one.
- Do not leave devices in extreme temperatures (such as vehicles)
- Do not leave your Chromebook unsupervised
- It is important to keep passwords private and do not share them with others
- Clean your screen with a soft cloth only – avoid harsh cleansers such as Windex or any liquid cleanser
- Always use your Chromebook with clean hands

Student Safety Questions

Does LVISD have a web filtering system that prevents student access to inappropriate websites on the Chromebook?

Yes. All Chromebooks are filtered utilizing a web filtering system.

Can my student turn the web filtering system off?

No. LVISD's web filtering is linked to the operating system on all district-issued Chromebooks.

How does the web filtering system work?

The LVISD web filtering system is linked to the operating system of all district-owned Chromebooks. Thus, any time a student uses his/her district-issued Chromebook, the content is filtered.

Does LVISD filter inappropriate content?

The district's web filtering system works across every web browser, device (both Chromebooks and mobile), and platform. The district's web filtering system is designed to provide a safe and secure hybrid learning environment while supporting effective instruction.

Will the web filtering software screen for inappropriate and/or potentially dangerous content?

Yes. The web filtering software screens for inappropriate and potentially dangerous content. Should inappropriate use occur, the campus and/or district Safe and Supportive School Program team will investigate accordingly and notify parents/guardians.

Are certain websites blocked even on home Wi-Fi?

Websites that are blocked at school are blocked on outside Wi-Fi connections as well.

Can students download games or play games with a browser?

Most non-educational games are blocked by district filters.

Does my child's Chromebook have malware protection?

Yes. District-issued Chromebooks have web filtering that protects against malware.

Student Safety Questions

Does the server block Facebook, X, and other social media platforms on district-issued Chromebooks?

Yes. Social media platforms are blocked on district-issued Chromebooks.

Can my student print from the district-issued Chromebook?

Yes. A student can connect a Wi-Fi printer to their Chromebook when at home. It is recommended students upload assignments to their Canvas account, and if required, print assignments at school through the library.

How will the district handle students who use the Chromebook or applications to bully and/or threaten other students?

The district takes all threats and allegations of bullying seriously. Reports are investigated by campus administrators or law enforcement personnel. Any student found to be in violation of the LVISD Student Code of Conduct will be disciplined in accordance with the Student Handbook. If a student believes that he or she has experienced bullying or has witnessed bullying of another student, it is important for the student or parent to report the alleged act to school personnel or a police officer. A student who would prefer to remain anonymous should submit a detailed report through the StayAlert Anonymous Tip online application.

Do I need to be monitoring what my student does on the district-issued Chromebook?

Yes. It is recommended that parents always monitor their student's district-issued Chromebook.

Can the district inspect my child's device?

Yes. The district-issued Chromebook is the property of LVISD, even while it is checked out to the student.

Can my student unlock their Chromebook and access inappropriate content?

No. The Chromebook is linked to the district's web filtering system, and it is registered with Google. Any attempt to access unauthorized content will be reported to LVISD.

What if I find inappropriate and/or explicit content on my child's Chromebook?

Students and parents should notify a campus administrator and/or teacher immediately.

Will students in Special Education get Chromebooks?

Check with your child's teacher and/or campus administration.

Additional Information

To begin the program, we are using the Chromebooks on-hand. While these may not be new, they are in working order, and have been checked and updated. Should your student have any issues with their Chromebook's performance, they need to report that issue immediately so that a repair or replacement can be made. ***Repairs that are needed which are due to the age or condition of the Chromebooks and are not a result of student damage will be done free of charge.***

LVHS does not currently provide insurance for Chromebooks, but may do so in the future.

LVHS does not currently provide covers for Chromebooks. We recommend that students purchase covers for their Chromebooks in order to help to protect the Chromebook from damage. Additionally, students can personalize their Chromebook covers, but they cannot personalize their Chromebooks. All district Chromebooks are 11.6 inches. Check your Chromebook to see the brand name and model before purchasing a cover.

LVHS will provide ONE charger for each Chromebook. Students are allowed to purchase additional chargers from the district library if they would like to have a spare or need a replacement. We recommend using a name-brand charger with your Chromebook to maintain the safety and integrity of the Chromebook.
