

Schedule Change Options

Schedule changes just for Konnarock, Green Cove, and Taylor's Valley

- This can include using a delayed schedule, early dismissal, or being closed completely. Schools work with families in these areas to make up for missed learning.

Two-Hour Delay

- This decision is made by 5:30 a.m., if not the day before. Childcare will be available at elementary schools from 8:00 a.m. until the start of the school day – transportation must be provided by the parent.
- Additional information on childcare will come directly from elementary principals.
- If conditions worsen after a delay is called, a decision to close is made by 7:30 a.m.

Two-Hour Delay: Buses on Clear Roads Only

- A list of roads not serviced by buses will typically be shared in this scenario.

Three-Hour Delay

- This option is seldom used but remains possible under certain conditions.

Remote Learning Day

- Instruction will take place remotely.
- Classroom teachers will communicate directly with students and parents about how instruction will be facilitated.
- No childcare will be provided.

Schools Closed

- Traditional snow day.
- When schools are closed due to weather, WCPS will determine whether it is safe to offer childcare at elementary schools based on road conditions.
- If childcare is offered, meals will be provided for elementary students at those school locations.
- Details about childcare and meal availability will be communicated as needed.
