

ELEMENTARY SCIENCE FAIR 2024

We are excited to announce our Junction City Elementary 2024 Science fair. Any student in third through sixth grade is invited to participate and compete against their fellow classmates. This year we will be awarding cash prizes as well as some overall prizes for the winners. Students who place in their category will have the opportunity to attend the regional science fair on the SAU campus in Magnolia on March 29, 2023.

Please complete and return the bottom portion of this letter to indicate your intention to participate in the Science Fair. Keep the top part to have access and quick reference to science fair dates. Students that return the bottom intent form will receive more information.

We will also have science fair boards and kits available for sale at the school. Kits will include topic headings (i.e. procedure, materials) and bulletin board border. These things do not have to be purchased from the school.

Science fair boards: \$5 Kits: \$3
