## Code of Conduct Procedures

### **Introduction:**

The goal of the School District of Baraboo Code of Conduct is to provide students and adults a framework for navigating personal, social, or cultural conflicts. Consistent with restorative philosophies, the Baraboo School District (BSD) Code of Conduct emphasizes the importance of resolving conflicts through acts of social healing, guided restoration, and community development.

### **Mission:**

The School District of Baraboo will **PREPARE** and **INSPIRE** all students to **GROW** to their full potential and **ENGAGE** in an ever-changing world.

### **Equity Statement:**

The School District of Baraboo values and affirms identities, beliefs, and perspectives of all individuals while providing equitable access to opportunities. The School District of Baraboo also acknowledges that the implicit bias we hold as individuals influences our perspective and decision-making skills. For these reasons, the District aims to develop a comprehensive Code of Conduct that reinforces fair and equitable outcomes. The District holds high expectations for all learners and will provide the scaffolding necessary to meet those expectations while proactively striving to remove barriers to learning because all students benefit from preventative, personalized, developmentally appropriate, and inclusive behavior response systems. Additionally, the District values our parents/guardians, and/or family members as members of our extended learning community, and believes they are critical resources in helping students restore harm done with our learning community.

# Theory

## Philosophy:

As members of the School District of Baraboo learning community, students, staff, parents/guardian, and community are essential to creating and maintaining a positive learning environment.

- The school environment must be physically, socially, and emotionally *safe for everyone*.
- Restorative practices will be utilized and exclusionary discipline discouraged when possible.
- The Code of Conduct is a framework to facilitate *teaching and learning* by establishing clear expectations and developmentally appropriate consequences.
- *Desired* behaviors are communicated, taught, and modeled continually throughout the school year at all levels.
- Systematic communication and reflection, based on data and observations, on an individual and collective basis are vital to the successful implementation of the Code of Conduct.
- Conflicts will be handled with respect for the rights of all involved.

## Progressive Discipline Model:

The BSD Code of Conduct, herein referred to as the Code of Conduct, applies a Progressive Discipline Model. One of the most important components of a Progressive Discipline Model is the Root Cause. The phrase “root of a conflict” implies that a conflict occurs due to:

- Lacking the Basic Needs: External factors such as hunger, fear, sleep, etc., may create physiological responses displayed as behaviors.
- Lagging Skill(s): If a person is equipped with the appropriate strategies, knowledge & skill sets they are less likely to exhibit behaviors that negatively impact their personal growth or impact the community that surrounds them.

By targeting the root of a conflict we identify the highest leverage point in a conflict, so that we can apply a *progressive discipline response*. A progressive discipline response balances the student's right to an education, while taking into consideration their Least Restrictive Environment (LRE). In the case that a student demonstrates a repeated offense, it is safe to assume that the student did not positively respond from the interventions put in place following the original offense; therefore resulting in a more restrictive consequence (ie: a progression in the discipline level).

## Intervention:

The School District of Baraboo recognizes the importance of preventative and responsive interventions. Response to intervention (RTI) aims to identify struggling students early on and give them the support they need to thrive in school. The following Code of Conduct works in conjunction with the school's Multi-Leveled Systems of Support (MLSS), to make data-driven decisions as it relates to implementing targeted or school wide interventions (such as Positive Behavior Interventions & Supports). Even though the Code of Conduct does not dictate or determine what interventions or strategies are put in place, it is guided by these interventions.

# Restoration

The School District of Baraboo recognizes the importance of *restorative practices*. Restorative justice is a theory or set of beliefs that informs how communities can resolve problems that have caused harm or damaged relationships. Restorative justice prioritizes accountability and community healing over punishment and is rooted in values such as interconnectedness, respect and responsibility. Restorative justice uses these guiding questions:

1. What happened?
2. What were you thinking and feeling at the time?
  - *A truthful summary is necessary for authentic restoration.*
3. What/who has been affected? In what way?
  - *Taking responsibility for one's impact on others.*
4. What do you need to do to make things right?
  - *When a student is honest about what happened and sincere in their attempt to repair the harm, the foundation for restoration / restorative justice is laid.*

BSD understands that exclusionary discipline does not equip students with the skills needed to be college, career, or community ready. We believe the teaching of strategies (social and emotional, and behavioral), in partnership with a least restrictive environment sets the stage for a higher retention of skills. The following are three types of restorative practices encouraged by BSD:

1. **Restorative Practices:** A proactive approach to whole-school community interaction based on improved communication, cooperation, trust, respect, and responsibility that includes all the practices listed above. We regularly engage in restorative practices, and improve school culture by helping others work through difficulties and look for potential solutions to repair any harm.
  - Build healthy relationships between educators and students
  - Reduce, prevent, and improve harmful behavior
  - Repair harm and restore a positive relationship
  - Resolve conflict, and hold individuals and groups accountable
  - Address and discuss the needs of the school community
2. **Restorative Circles:** An approach used to engage in open, respectful dialogue around difficult topics, including when harm has been done, fostering understanding, empathy, and reparation of harm. Circles build relationships, community and open communication opportunities for all. A restorative circle is a technique that builds and restores relationships through equal opportunity sharing and listening. Formal restorative circles can be initiated by students or staff, take place either inside or outside of the classroom setting and include formal circle processes and thoughtful preparation.
  - Community Building
  - Peace Building
  - Repair Building
  - Celebration

3. **Restorative Conversations:** An approach used to respond to behavior situations, allowing the student to reflect on who was impacted by the behavior, repair harm, and create a plan to prevent behavior in the future.

## School Response Guidance

### Audience:

This document acts as guidance for BSD teachers, support staff, and administrators. The layout, categorizations, and color schemes found throughout this document are meant to assist staff as they plan and respond to student behaviors that impact learning. This document has also been developed with the BSD community members, families and students in mind. Community members, students, and families are encouraged to explore the Code of Conduct, to better understand the methodology applied when planning and responding to student behaviors that impact learning.

### Methodology:

A behavior that disrupts the learning environment or causes harm (to self or others), has been organized into categories, and the “Student Behavior Category” is found in the left-hand column of the document. The Student Behavior Categories are quantified using four levels. Levels are determined based on frequency and intensity of the behavior exhibited. Low level infractions and “first offense” behaviors start on the left side of the scale/continuum, and can be identified by the color code system. See “Behavior Levels” for color coding and future details. As a student’s behavior increases in frequency and intensity, the level of intervention and restrictive outcomes also increases. Responding to situations this way reduces bias, improves perspective taking, and focuses on resolutions that strengthen relationships.

### School Response Guidance:

1. Identify the behavior(s) - What are the relevant facts that apply to the incident?
2. Investigate (ie: interview and document):
  - a. Determine the root cause - What happened? - Why did the behavior occur? - Not who acted out or demonstrated the behavior
3. Quantify the behavior(s):
  - a. Determine the intensity - What level of significance did the behavior disrupt the learning environment or cause harm?
  - b. Determine the frequency - What interventions have already been implemented?
4. Code the behavior(s) in eduClimber: *eduCLIMBER is an interactive system that supports the whole child by combining assessment data, social-emotional behavior data, and attendance data into a single student profile view.*
5. Intervene:
  - a. In an event with multiple infractions, identify the behavior that is coded as most impactful/severe to determine the primary Target Behavior.
  - b. In the case where the behavior warrants removal, Administrator’s discretion is required.  
*\*Administration maintains the discretion as it pertains to limiting/restricting a student’s educational rights/access.*
6. Restorative Practices - Adult silence affirms the behavior, we want to work together to build new behaviors and create rapport with each other through:
  - a. Restorative Justice
  - b. MLSS/Interventions

<b>Baraboo School District</b> <i>Behavior Levels</i>	
<b>Level I</b> Primarily Teacher managed - parent/guardian collaboration is encouraged. Actions that are categorized as a Level I are the least serious infractions that interfere with the orderly operation of the classroom, a school function, extracurricular/co-curricular program or approved transportation.	
<b>Level II</b> Teacher, Support Staff or Administrator managed ( <i>depending on frequency &amp;/or intensity</i> ) - staff member's attempt to collaborate with the student's parent/guardian is required. These actions are chronic examples of the infractions in Level I, or more intense in nature. Level II acts are directed against or toward people or property that do not seriously endanger the health or safety of others.	
<b>Level III</b> Administrator managed - parent/guardian contact is required. These infractions are serious offenses and potentially jeopardize the health and/or safety of self or others. They include repeated misconduct acts from Level II; serious disruptions of school order; threats to the health, safety, and property of others; and other acts of serious misconduct.	
<b>Level IV</b> Acts of misconduct are the most serious. <b>Level IV acts <u>may</u> result in a 5-day out-of-school suspension with consideration for a recommendation for expulsion<sup>†</sup>.</b> If a student commits an offense or offenses that are serious enough to warrant a recommendation for expulsion, parents/guardians will be referred to <a href="#">School Board Policy 447.4</a> . Expulsion from school means being removed from school for an extended period of time, possibly until the age of 21. Rights and privileges of attending class and other school functions are removed by School Board action.	

*<sup>†</sup>Students with IEPs/504s may have personalized plans that supplement the guidance provided in this document (please be sure to consult with your school's Administrator for more information).*

*\*All disciplinary actions are subject to administrative discretion and based in developmentally appropriate and evidence based practices. Please note that a non-exhaustive list of Board policies is included for reference.*

## Bullying

[Policy 443.71](#)

### **Bullying (First offense):**

The distinction between bullying and harassment is that bullying behavior is NOT based on a protected class. Bullying includes the following aspects:

- power and control
- actions that hurt or harm another person physically or emotionally
- an imbalance of power between the target and the individual demonstrating the negative behavior
- the target having difficulty stopping the action directed at them.

### **Cyber-bullying (First offense):**

Cyber bullying includes but is not limited to the following misuses of technology: harassing, teasing, intimidating, threatening, or terrorizing another person or group of people by sending or posting inappropriate and hurtful e-mail messages, instant messages, text messages, digital pictures or images, or Web site postings, including blogs or any other messages via cyberspace.

In situations in which cyber bullying originated off school property or from a non-school computer or telecommunication device, but is brought to the attention of school officials, any student disciplinary action shall be based upon whether the conduct is determined to be severely disruptive of the educational process so that it markedly impedes the day to day operations of a school.

### **Bullying (Second offense):**

The distinction between bullying and harassment is that bullying behavior is NOT based on a protected class. Bullying includes the following aspects:

- power and control
- actions that hurt or harm another person physically or emotionally
- an imbalance of power between the target and the individual demonstrating the negative behavior
- the target having difficulty stopping the action directed at them

### **Cyber-bullying (Second offense):**

Cyber bullying includes but is not limited to the following misuses of technology: harassing, teasing, intimidating, threatening, or terrorizing another person or group of people by sending or posting inappropriate and hurtful e-mail messages, instant messages, text messages, digital pictures or images, or Web site postings, including blogs or any other messages via cyberspace.

In situations in which cyber bullying originated off school property or from a non-school computer or telecommunication device, but is brought to the attention of school officials, any student disciplinary action shall be based upon whether the conduct is determined to be severely disruptive of the educational process so that it markedly impedes the day to day operations of a school.

*\*More serious offenses of any of the Level III behaviors*

*\*\*These incidents may require administration to team with the SRO/ police department depending on the severity of the incident.*

### Harassment (First offense):

The distinction between bullying and harassment is that when the bullying behavior directed at the target is also based on a protected class (as defined by state and federal civil rights laws), that behavior is then defined as harassment. Protected classes include:

- Race
- Color
- National origin
- Ancestry
- Creed
- religion
- Sex ( including pregnancy, marital or parental status, sexual orientation, gender identity or gender expression)
- Age
- Disability
- Gender

Harassment includes the following aspects:

- power and control
- actions that hurt or harm another person physically or emotionally
- an imbalance of power between the target and the individual demonstrating the negative behavior
- the target having difficulty stopping the action directed at them

### Incidents of Injustice:

Use of racial slurs, hate speech, or other incidents of injustice toward any member of the school community.

- Slur
- Hate Speech/Symbols
- Bias or Hate Incident
- White nationalism
- Anti-Semitism

### Harassment

#### (Repeated/Targeted):

The distinction between bullying and harassment is that when the bullying behavior directed at the target is also based on a protected class, (as defined by state and federal civil rights laws), that behavior is then defined as harassment. Protected classes include:

- Race

Also, thank you to CESA 5 and Restorative Solutions, Colorado, for resources pertaining to Restorative Practices.

## Glossary of Terms

**Code of Conduct-** Is a set of principles, expectations, and/or rules that are given to students and parents to make sure that the expectations that the school has for behavior are clearly communicated to them.

**Chronic & Repeated Offense-** A student who has committed the same offense more than once and on multiple occasions.

**EduCLIMBER-** Is an interactive system that supports the whole child by combining assessment data, social-emotional behavior data, and attendance data into a single student profile view.

**Incidents of Injustice** - Use of racial slurs, hate speech, or other incidents of injustice toward any member of the school community, including

- **Slur** - An insinuation or allegation about someone that is likely to insult them or damage their reputation. (Merriam-Webster)
- **Hate Speech** -Hate speech is a communication that carries no meaning other than the expression of hatred for some group, especially in circumstances in which the communication is likely to provoke violence. It is an incitement to hatred primarily against a group of persons defined in terms of race, ethnicity, national origin, gender, religion, sexual orientation, and the like. **Hate speech can be any form of expression regarded as offensive to racial, ethnic and religious groups, those who identify as LGBTQ+, and other discrete minorities or to women.**
- **Hate Symbols** - [click here for a database of hate symbols](#) that is maintained by the Anti-Defamation League (ADL) Fight Hate for Good organization. Staff should look for such symbols as they may be visible to the student body, hidden in student work, or in the curriculum. Should you find hate symbols in curriculum, please contact the appropriate level Director (Elementary- Mike Pisani or Secondary- Jane McMahon). Otherwise, if other instances of displaying hate symbols occur, please follow the sequence of support below.
- **Bias or Hate Incident** - Acts of prejudice that are not crimes and do not involve violence, threats, or property damage. The bias might come in the form of clothing-certain colors or styles of music, or symbols associated with hate groups. Bias incidences are also widespread online and in social media.
- **White Nationalism** - White Nationalism is inherently anti-immigrant, anti-Muslim, anti-Semitic, and anti-Black, but white nationalist organizing can manifest without publicly mentioning race or religion.
- **Anti-Semitism** - The belief or behavior hostile toward Jews just because they are Jewish. It may take the form of religious teachings that proclaim the inferiority of Jews, for instance, or political efforts to isolate, oppress, or otherwise injure them. It may also include prejudiced or stereotyped views about Jews.
- **Racism** - Racism is a doctrine or teaching, without scientific support that claims to find racial differences in character, intelligence, etc. that asserts the superiority of one race over another and that seeks to maintain the supposed purity of a race.
- **Misogyny** - Misogyny and racism often go hand in hand, especially in online forums (like 4Chan, 8Chan, Reddit and Gab) and gaming circles. Expressing simultaneous entitlement and disillusionment, white nationalists exploit online communities to nurture and often build upon angry young men's feelings of injustice and animosity, and this animosity often redirects toward women as well as people of color, immigrants, and religious minorities.

**Least Restrictive Environment-** LRE means that a child with a disability must be educated and have access within the same classroom as typical mainstreamed non-disabled peers to the fullest extent possible in order to ensure that a child with disabilities is receiving a free appropriate public education (FAPE).

**Multi-Leveled System of Support-** To make data-driven decisions as it relates to implementing targeted or school wide interventions (such as Positive Behavior Interventions & Supports).

**Progressive Discipline Model-** Progressive discipline uses incremental interventions to address inappropriate behavior with the ultimate goal of teaching pro-social behavior. Progressive discipline seeks concurrent accountability and behavior change.

**Restorative Justice-** Restorative justice is a theory or set of beliefs that informs how communities can resolve problems that have caused harm or damaged relationships. Restorative justice prioritizes accountability and community healing over punishment and is rooted in values such as interconnectedness, respect and responsibility.

**Root Cause of behavior-** The root cause is the underlying reason, motivation, choice, trigger, factor or instinct that drove the student to behave in a certain manner.
