

**PIAA COMPREHENSIVE INITIAL
PRE-PARTICIPATION PHYSICAL EVALUATION**

INITIAL EVALUATION: Prior to any student participating in Practices, Inter-School Practices, Scrimmages, and/or Contests, at any PIAA member school in any school year, the student is required to (1) complete a Comprehensive Initial Pre-Participation Physical Evaluation (CIPPE); and (2) have the appropriate person(s) complete the first six Sections of the CIPPE Form. Upon completion of Sections 1 and 2 by the parent/guardian; Sections 3, 4, and 5 by the student and parent/guardian; and Section 6 by an Authorized Medical Examiner (AME), those Sections must be turned in to the Principal, or the Principal's designee, of the student's school for retention by the school. The CIPPE may not be authorized earlier than May 1st and shall be effective, regardless of when performed during a school year, until the latter of the next April 30th or the conclusion of the spring sports season.

SUBSEQUENT SPORT(S) IN THE SAME SCHOOL YEAR: Following completion of a CIPPE, the same student seeking to participate in Practices, Inter-School Practices, Scrimmages, and/or Contests in subsequent sport(s) in the same school year, must complete Section 7 of this form and must turn in that Section to the Principal, or Principal's designee, of his or her school. The Principal, or the Principal's designee, will then determine whether Section 8 need be completed.

SECTION 1: PERSONAL AND EMERGENCY INFORMATION

PERSONAL INFORMATION

Student's Name _____ Male/Female (circle one)

Date of Student's Birth: ____/____/____ Age of Student on Last Birthday: ____ Grade for Current School Year: ____

Current Physical Address _____

Current Home Phone # () _____ Parent/Guardian Current Cellular Phone # () _____

Parent/Guardian E-mail Address: _____

Fall Sport(s): _____ Winter Sport(s): _____ Spring Sport(s): _____

EMERGENCY INFORMATION

Parent's/Guardian's Name _____ Relationship _____

Address _____ Emergency Contact Telephone # () _____

Secondary Emergency Contact Person's Name _____ Relationship _____

Address _____ Emergency Contact Telephone # () _____

Medical Insurance Carrier _____ Policy Number _____

Address _____ Telephone # () _____

Family Physician's Name _____, MD or DO (circle one)

Address _____ Telephone # () _____

Student's Allergies _____

Student's Health Condition(s) of Which an Emergency Physician or Other Medical Personnel Should be Aware _____

Student's Prescription Medications and conditions of which they are being prescribed _____

SECTION 2: CERTIFICATION OF PARENT/GUARDIAN

The student's parent/guardian must complete all parts of this form.

A. I hereby give my consent for _____ born on _____ School who turned _____ on his/her last birthday, a student of _____ public school district, and a resident of the _____ to participate in Practices, Inter-School Practices, Scrimmages, and/or Contests during the 20____ - 20____ school year in the sport(s) as indicated by my signature(s) following the name of the said sport(s) approved below.

Fall Sports	Signature of Parent or Guardian
Cross Country	
Field Hockey	
Football	
Golf	
Soccer	
Girls' Tennis	
Girls' Volleyball	
Water Polo	
Other	

Winter Sports	Signature of Parent or Guardian
Basketball	
Bowling	
Competitive Spirit Squad	
Girls' Gymnastics	
Rifle	
Swimming and Diving	
Track & Field (Indoor)	
Wrestling	
Other	

Spring Sports	Signature of Parent or Guardian
Baseball	
Boys' Lacrosse	
Girls' Lacrosse	
Softball	
Boys' Tennis	
Track & Field (Outdoor)	
Boys' Volleyball	
Other	

B. Understanding of eligibility rules: I hereby acknowledge that I am familiar with the requirements of PIAA concerning the eligibility of students at PIAA member schools to participate in Inter-School Practices, Scrimmages, and/or Contests involving PIAA member schools. Such requirements, which are posted on the PIAA Web site at www.piaa.org, include, but are not necessarily limited to age, amateur status, school attendance, health, transfer from one school to another, season and out-of-season rules and regulations, semesters of attendance, seasons of sports participation, and academic performance.

Parent's/Guardian's Signature _____ Date ____/____/____

C. Disclosure of records needed to determine eligibility: I hereby consent to the release to PIAA of any and all portions of school record files, beginning with the seventh grade, of the herein named student specifically including, without limiting the generality of the foregoing, birth and age records, name and residence address of parent(s) or guardian(s), residence address of the student, health records, academic work completed, grades received, and attendance data.

Parent's/Guardian's Signature _____ Date ____/____/____

D. Permission to use name, likeness, and athletic information: I consent to PIAA's use of the herein named student's name, likeness, and athletically related information in video broadcasts and re-broadcasts, webcasts and reports of Inter-School Practices, Scrimmages, and/or Contests, promotional literature of the Association, and other materials and releases related to interscholastic athletics.

Parent's/Guardian's Signature _____ Date ____/____/____

E. Permission to administer emergency medical care: I consent for an emergency medical care provider to administer any emergency medical care deemed advisable to the welfare of the herein named student while the student is practicing for or participating in Inter-School Practices, Scrimmages, and/or Contests. Further, this authorization permits, if reasonable efforts to contact me have been unsuccessful, physicians to hospitalize, secure appropriate consultation, to order injections, anesthesia (local, general, or both) or surgery for the herein named student. I hereby agree to pay for physicians' and/or surgeons' fees, hospital charges, and related expenses for such emergency medical care. I further give permission to the school's athletic administration, coaches and medical staff to consult with the Authorized Medical Professional who executes Section 7 regarding a medical condition or injury to the herein named student.

Parent's/Guardian's Signature _____ Date ____/____/____

F. Confidentiality: The information on this CIPPE shall be treated as confidential by school personnel. It may be used by the school's athletic administration, coaches and medical staff to determine athletic eligibility, to identify medical conditions and injuries, and to promote safety and injury prevention. In the event of an emergency, the information contained in this CIPPE may be shared with emergency medical personnel. Information about an injury or medical condition will not be shared with the public or media without written consent of the parent(s) or guardian(s).

Parent's/Guardian's Signature _____ Date ____/____/____

SECTION 3: UNDERSTANDING OF RISK OF CONCUSSION AND TRAUMATIC BRAIN INJURY

What is a concussion?

A concussion is a brain injury that:

- Is caused by a bump, blow, or jolt to the head or body.
- Can change the way a student's brain normally works.
- Can occur during Practices and/or Contests in any sport.
- Can happen even if a student has not lost consciousness.
- Can be serious even if a student has just been "dinged" or "had their bell rung."

All concussions are serious. A concussion can affect a student's ability to do schoolwork and other activities (such as playing video games, working on a computer, studying, driving, or exercising). Most students with a concussion get better, but it is important to give the concussed student's brain time to heal.

What are the symptoms of a concussion?

Concussions cannot be seen; however, in a potentially concussed student, **one or more** of the symptoms listed below may become apparent and/or that the student "doesn't feel right" soon after, a few days after, or even weeks after the injury.

- Headache or "pressure" in head
- Nausea or vomiting
- Balance problems or dizziness
- Double or blurry vision
- Bothered by light or noise
- Feeling sluggish, hazy, foggy, or groggy
- Difficulty paying attention
- Memory problems
- Confusion

What should students do if they believe that they or someone else may have a concussion?

- **Students feeling any of the symptoms set forth above should immediately tell their Coach and their parents.** Also, if they notice any teammate evidencing such symptoms, they should immediately tell their Coach.
- **The student should be evaluated.** A licensed physician of medicine or osteopathic medicine (MD or DO), sufficiently familiar with current concussion management, should examine the student, determine whether the student has a concussion, and determine when the student is cleared to return to participate in interscholastic athletics.
- **Concussed students should give themselves time to get better.** If a student has sustained a concussion, the student's brain needs time to heal. While a concussed student's brain is still healing, that student is much more likely to have another concussion. Repeat concussions can increase the time it takes for an already concussed student to recover and may cause more damage to that student's brain. Such damage can have long term consequences. It is important that a concussed student rest and not return to play until the student receives permission from an MD or DO, sufficiently familiar with current concussion management, that the student is symptom-free.

How can students prevent a concussion? Every sport is different, but there are steps students can take to protect themselves.

- Use the proper sports equipment, including personal protective equipment. For equipment to properly protect a student, it must be:
 - The right equipment for the sport, position, or activity;
 - Worn correctly and the correct size and fit; and
 - Used every time the student Practices and/or competes.
- Follow the Coach's rules for safety and the rules of the sport.
- Practice good sportsmanship at all times.

If a student believes they may have a concussion: Don't hide it. Report it. Take time to recover.

I hereby acknowledge that I am familiar with the nature and risk of concussion and traumatic brain injury while participating in interscholastic athletics, including the risks associated with continuing to compete after a concussion or traumatic brain injury.

Student's Signature _____ Date ____/____/____

I hereby acknowledge that I am familiar with the nature and risk of concussion and traumatic brain injury while participating in interscholastic athletics, including the risks associated with continuing to compete after a concussion or traumatic brain injury.

Parent's/Guardian's Signature _____ Date ____/____/____

SECTION 4: UNDERSTANDING OF SUDDEN CARDIAC ARREST SYMPTOMS AND WARNING SIGNS

What is sudden cardiac arrest?

Sudden cardiac arrest (SCA) occurs when the heart suddenly and unexpectedly stops beating. When this happens blood stops flowing to the brain and other vital organs. SCA is NOT a heart attack. A heart attack may cause SCA, but they are not the same. A heart attack is caused by a blockage that stops the flow of blood to the heart. SCA is a malfunction in the heart's electrical system, causing the heart to suddenly stop beating.

How common is sudden cardiac arrest in the United States?

There are about 350,000 cardiac arrests that occur outside of hospitals each year. More than 10,000 individuals under the age of 25 die of SCA each year. SCA is the number one killer of student athletes and the leading cause of death on school campuses.

Are there warning signs?

Although SCA happens unexpectedly, some people may have signs or symptoms, such as

- Dizziness or lightheadedness when exercising;
- Fainting or passing out during or after exercising;
- Shortness of breath or difficulty breathing with exercise, that is not asthma related;
- Racing, skipped beats or fluttering heartbeat (palpitations)
- Fatigue (extreme or recent onset of tiredness)
- Weakness;
- Chest pains/pressure or tightness during or after exercise.

These symptoms can be unclear and confusing in athletes. Some may ignore the signs or think they are normal results off physical exhaustion. If the conditions that cause SCA are diagnosed and treated before a life-threatening event, sudden cardiac death can be prevented in many young athletes.

What are the risks of practicing or playing after experiencing these symptoms?

There are significant risks associated with continuing to practice or play after experiencing these symptoms. The symptoms might mean something is wrong and the athlete should be checked before returning to play. When the heart stops due to cardiac arrest, so does the blood that flows to the brain and other vital organs. Death or permanent brain damage can occur in just a few minutes. Most people who experience a SCA die from it; survival rates are below 10%.

Act 73 – Peyton's Law - Electrocardiogram testing for student athletes

The Act is intended to help keep student-athletes safe while practicing or playing by providing education about SCA and by requiring notification to parents that you can request, at your expense, an electrocardiogram (EKG or ECG) as part of the physical examination to help uncover hidden heart issues that can lead to SCA.

Why do heart conditions that put youth at risk go undetected?

- Up to 90 percent of underlying heart issues are missed when using only the history and physical exam;
- Most heart conditions that can lead to SCA are not detectable by listening to the heart with a stethoscope during a routine physical; and
- Often, youth don't report or recognize symptoms of a potential heart condition.

What is an electrocardiogram (EKG or ECG)?

An ECG/EKG is a quick, painless and noninvasive test that measures and records a moment in time of the heart's electrical activity. Small electrode patches are attached to the skin of your chest, arms and legs by a technician. An ECG/EKG provides information about the structure, function, rate and rhythm of the heart.

Why add an ECG/EKG to the physical examination?

Adding an ECG/EKG to the history and physical exam can suggest further testing or help identify up to two-thirds of heart conditions that can lead to SCA. An ECG/EKG can be ordered by your physician for screening for cardiovascular disease or for a variety of symptoms such as chest pain, palpitations, dizziness, fainting, or family history of heart disease.

- ECG/EKG screenings should be considered every 1-2 years because young hearts grow and change.
- ECG/EKG screenings may increase sensitivity for detection of undiagnosed cardiac disease but may not prevent SCA.
- ECG/EKG screenings with abnormal findings should be evaluated by trained physicians.
- If the ECG/EKG screening has abnormal findings, additional testing may need to be done (with associated cost and risk) before a diagnosis can be made, and may prevent the student from participating in sports for a short period of time until the testing is completed and more specific recommendations can be made.
- The ECG/EKG can have false positive findings, suggesting an abnormality that does not really exist (false positive findings occur less when ECG/EKGs are read by a medical practitioner proficient in ECG/EKG interpretation of children, adolescents and young athletes).
- ECGs/EKGs result in fewer false positives than simply using the current history and physical exam.

The American College of Cardiology/American Heart Association guidelines do not recommend an ECG or EKG in asymptomatic patients but do support local programs in which ECG or EKG can be applied with high-quality resources.

Removal from play/return to play

Any student-athlete who has signs or symptoms of SCA must be removed from play (which includes all athletic activity). The symptoms can happen before, during, or after activity.

Before returning to play, the athlete must be evaluated and cleared. Clearance to return to play must be in writing. The evaluation must be performed by a licensed physician, certified registered nurse practitioner, or cardiologist (heart doctor). The licensed physician or certified registered nurse practitioner may consult any other licensed or certified medical professionals.

I have reviewed this form and understand the symptoms and warning signs of SCA. I have also read the information about the electrocardiogram testing and how it may help to detect hidden heart issues.

SECTION 5: HEALTH HISTORY

Explain "Yes" answers at the bottom of this form.
Circle questions you don't know the answers to.

	Yes	No		Yes	No
1. Has a doctor ever denied or restricted your participation in sport(s) for any reason?	☐	☐	23. Has a doctor ever told you that you have asthma or allergies?	☐	☐
2. Do you have an ongoing medical condition (like asthma or diabetes)?	☐	☐	24. Do you cough, wheeze, or have difficulty breathing DURING or AFTER exercise?	☐	☐
3. Are you currently taking any prescription or nonprescription (over-the-counter) medicines or pills?	☐	☐	25. Is there anyone in your family who has asthma?	☐	☐
4. Do you have allergies to medicines, pollens, foods, or stinging insects?	☐	☐	26. Have you ever used an inhaler or taken asthma medicine?	☐	☐
5. Have you ever passed out or nearly passed out DURING exercise?	☐	☐	27. Were you born without or are you missing a kidney, an eye, a testicle, or any other organ?	☐	☐
6. Have you ever passed out or nearly passed out AFTER exercise?	☐	☐	28. Have you had infectious mononucleosis (mono) within the last month?	☐	☐
7. Have you ever had discomfort, pain, or pressure in your chest during exercise?	☐	☐	29. Do you have any rashes, pressure sores, or other skin problems?	☐	☐
8. Does your heart race or skip beats during exercise?	☐	☐	30. Have you ever had a herpes skin infection?	☐	☐
9. Has a doctor ever told you that you have (check all that apply):			CONCUSSION OR TRAUMATIC BRAIN INJURY 31. Have you ever had a concussion (i.e. bell rung, ding, head rush) or traumatic brain injury? ☐ ☐ 32. Have you been hit in the head and been confused or lost your memory? ☐ ☐ 33. Do you experience dizziness and/or headaches with exercise? ☐ ☐		
☐ High blood pressure ☐ Heart murmur	☐	☐	34. Have you ever had a seizure?	☐	☐
☐ High cholesterol ☐ Heart infection			35. Have you ever had numbness, tingling, or weakness in your arms or legs after being hit or falling?	☐	☐
10. Has a doctor ever ordered a test for your heart? (for example ECG, echocardiogram)	☐	☐	36. Have you ever been unable to move your arms or legs after being hit or falling?	☐	☐
11. Has anyone in your family died for no apparent reason?	☐	☐	37. When exercising in the heat, do you have severe muscle cramps or become ill?	☐	☐
12. Does anyone in your family have a heart problem?	☐	☐	38. Has a doctor told you that you or someone in your family has sickle cell trait or sickle cell disease?	☐	☐
13. Has any family member or relative been disabled from heart disease or died of heart problems or sudden death before age 50?	☐	☐	39. Have you had any problems with your eyes or vision?	☐	☐
14. Does anyone in your family have Marfan Syndrome?	☐	☐	40. Do you wear glasses or contact lenses?	☐	☐
15. Have you ever spent the night in a hospital?	☐	☐	41. Do you wear protective eyewear, such as goggles or a face shield?	☐	☐
16. Have you ever had surgery?	☐	☐	42. Are you unhappy with your weight?	☐	☐
17. Have you ever had an injury, like a sprain, muscle, or ligament tear, or tendonitis, which caused you to miss a Practice or Contest? If yes, circle affected area below: 18. Have you had any broken or fractured bones or dislocated joints? If yes, circle below: 19. Have you had a bone or joint injury that required x-rays, MRI, CT, surgery, injections, rehabilitation, physical therapy, a brace, a cast, or crutches? If yes, circle below:			43. Are you trying to gain or lose weight?	☐	☐
Head Neck Shoulder Upper arm Elbow Forearm Hand/ Fingers Chest			44. Has anyone recommended you change your weight or eating habits?	☐	☐
Upper back Lower back Hip Thigh Knee Calf/shin Ankle Foot/ Toes			45. Do you limit or carefully control what you eat?	☐	☐
20. Have you ever had a stress fracture?	☐	☐	46. Do you have any concerns that you would like to discuss with a doctor?	☐	☐
21. Have you been told that you have or have you had an x-ray for atlantoaxial (neck) instability?	☐	☐	MENSTRUAL QUESTIONS- IF APPLICABLE 47. Have you ever had a menstrual period? ☐ ☐ 48. How old were you when you had your first menstrual period? _____ 49. How many periods have you had in the last 12 months? _____ 50. When was your last menstrual period? _____

MR. DANIEL G. WAGNER
ASSISTANT PRINCIPAL

RHS Student-Athlete Code of Conduct

As a student-athlete at Ridley High School, you represent yourself, your team, and your school both on and off the field. The way you carry yourself sets the tone for your teammates, classmates, and the community.

Being part of a team is about more than just playing the game—it's about building character, learning leadership, and showing respect. Sportsmanship means competing with integrity, fairness, and respect for others. These qualities make our athletic programs stronger and help create a positive experience for everyone involved.

Expectations for Student-Athletes

When you participate in sports at Ridley High School, you are expected to:

- Show dignity and respect in all situations, win or lose.
- Respect the rules of the game, the officials, and their decisions.
- Respect opponents, teammates, coaches, and parents—both from Ridley and from visiting schools.
- View every competition as a chance to learn and grow.
- Encourage other students and fans to demonstrate positive sportsmanship.
- Follow all school rules, including those related to drugs, alcohol, and fighting, in school, at games, and in the community.

Why It Matters

As an athlete, you're one of the most visible representatives of Ridley High School. Your behavior reflects not only on you, but also on your teammates, coaches, and school community. Good sportsmanship shows pride in yourself and in Ridley, and reminds everyone that athletics are meant to be fun and rewarding. Below, please find Ridley School District's policy on hazing:

Policy Manual - Section 200 – Pupils – Hazing Code 247

Purpose

The purpose of this policy is to maintain a safe, positive environment for students and staff that is free from hazing. Hazing activities of any type are inconsistent with the educational goals of the district and are prohibited at all times.

Definitions

For purposes of this policy **hazing** is defined as any activity that recklessly or intentionally endangers the mental health, physical health or safety of a student or causes willful destruction or removal of public or private property for the purpose of initiation or membership in or affiliation with any organization recognized by the Board.

Endanger the physical health shall include but not be limited to any brutality of a physical nature, such as whipping; beating; branding; forced calisthenics; exposure to the elements; forced consumption of any food, alcoholic beverage, drug, or controlled substance; or other forced physical activity that could adversely affect the physical health or safety of the individual.

Endanger the mental health shall include any activity that would subject an individual to extreme mental stress, such as prolonged sleep deprivation, forced prolonged exclusion from social contact, forced conduct which could result in extreme embarrassment, or any other forced activity which could adversely affect the mental health or dignity of the individual.

Any hazing activity, whether by an individual or a group, shall be presumed to be a forced activity, even if a student willingly participates.

Authority

The Board does not condone any form of initiation or harassment, known as hazing, as part of any school-sponsored student activity. No student, coach, sponsor, volunteer or district employee shall plan, direct, encourage, assist or engage in any hazing activity. [1][2][3][4]

By signing below, you agree to uphold these expectations. You also understand that if these standards are not followed, it may affect your privilege to remain on the team.
