

**Answers to Inquiries for  
REQUEST FOR QUALIFICATIONS FOR  
PROFESSIONAL ENGINEERING/DESIGN SERVICES FOR  
CITY OF CENTRAL STORMWATER SYSTEM IMPROVEMENTS**

**Solicitation No: 2026-001**

1. Are there any required proposal forms to be included (for example, SF-330), or if the submittal is intended to be an open proposal format? **Submittal is intended to be an open proposal format.**
2. Electronic copy of specifications or any other documents associated with this project? **East Baton Rouge Parish Standard Specifications will serve as the primary specification set. Any other information will be provided to the winning proposer upon contract execution.**
3. Is a fee required? **No fee is required.**
4. Have drainage studies/calculations been performed to determine the proposed drainage conveyance sizes or will the consultant need to verify the drainage crossing sizes via H&H study? **Preliminary analysis has been done to provide approximate structure sizes. H&H analysis will be required for confirmation of final design.**
5. Have environmental studies been performed for each site? **A section 404 permit was obtained for sites requiring it. Sites not requiring a section 404 permit were submitted to the USACE and a LONO was obtained.**
6. Has surveying been performed for each site? **Limited H&H survey was performed but is likely insufficient for design purposes. Preliminary survey will be provided upon contract execution.**
7. Has geotechnical information been obtained for each site including the bridge location? **No technical geo study has been performed.**
8. If known, what is the anticipated schedule for bidding and construction of this project? **We have established a construction completion date of September 30th, 2027. Expectations are that this project will go to bid for construction services in November of 2026.**
9. What will be the H&H submittal requirements for this project? **H&H submittal will consist of a drainage study to support design. See East Baton Rouge Parish Unified Development Code for design criteria.**

10. Will the environmental investigation be required for this project? **Wetland delineation was conducted for each site. A section 404 permit was obtained for sites requiring it. Sites not requiring a section 404 permit were submitted to the USACE and a LONO was obtained.**
