

Millinocket School Nutrition

199 State St. Millinocket, ME 04462 - (207) 723-6430 ext. 6565

01/13/2026

The USDA Food and Nutrition Service (FNS) has approved an extension of the Maine Department of Education's statewide waiver process that allows school nutrition programs to provide a reimbursable meal to students on virtual/remote learning days in the event of an unscheduled school closure. Meals will be dispersed to students in advance, and it is expected that the meals be saved for a future school closure. All food items will be shelf stable and will meet NSLP meal requirements.

Please check one of the following options. If your response is YES, please list the names and grades of the students that will be receiving a meal. Only one form needs to be returned per household. Please return to the school by **Tuesday 01/20/2026**.

Extra meals will be available at both schools for households that are delayed in returning this form.

Thank you!

Mia Charette
