Viroqua Area Schools summer school programming is for elementary, middle, and high school students. The high school has a different start and stop date than the elementary and middle school and is mainly utilized for high school students seeking credit recovery. The elementary and middle school includes a morning classroom experience for resident students with **no enrollment fee**, and a variety of classroom enrichment classes available for the afternoon with **no enrollment fee**.

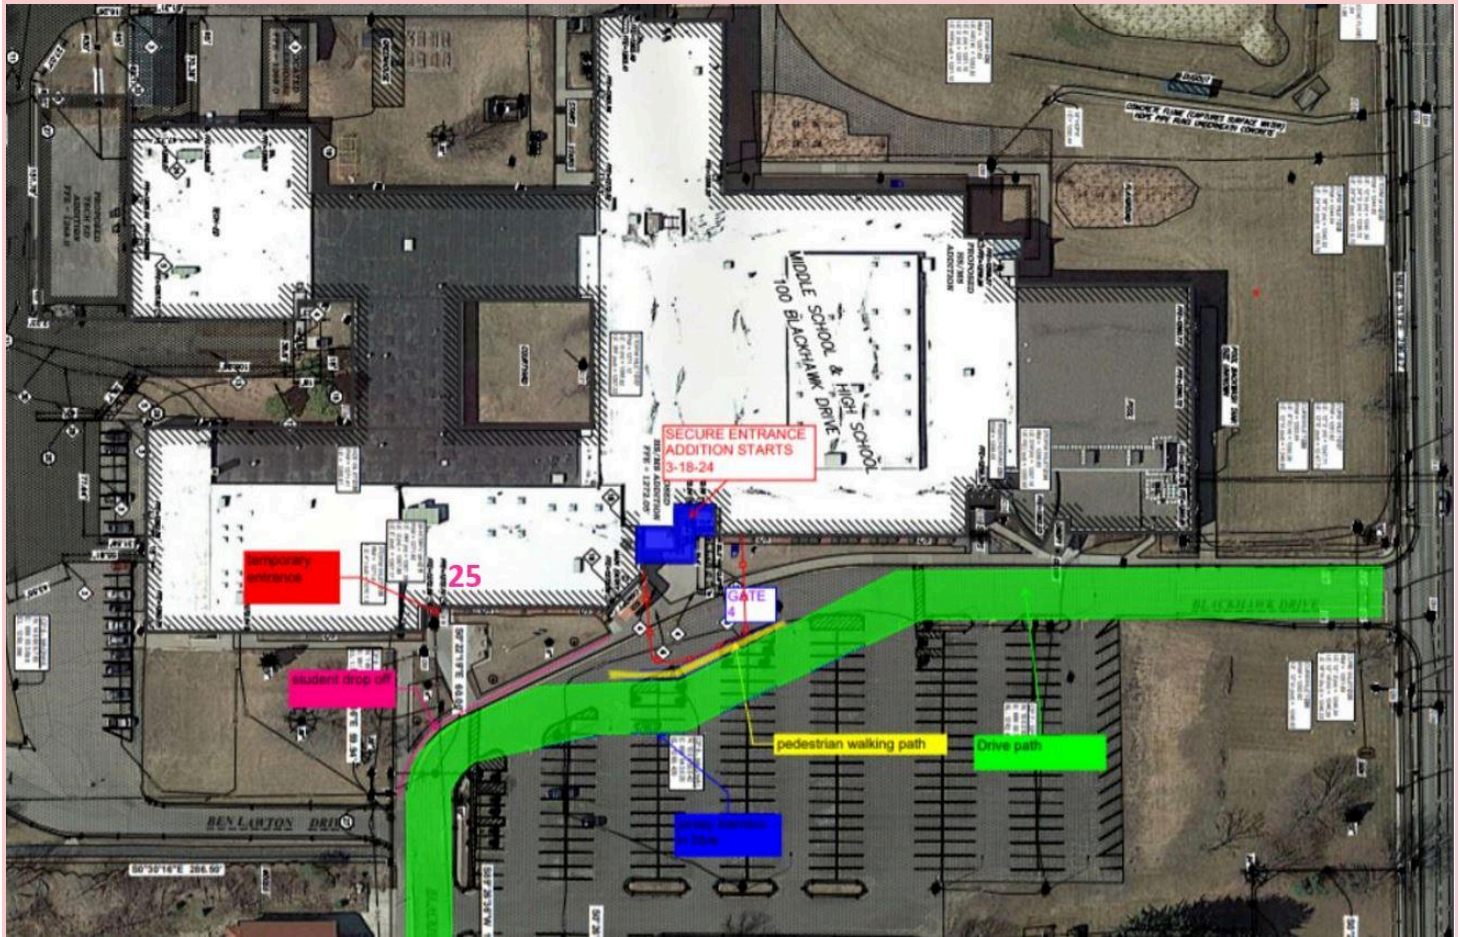

ATTENDANCE: While students are encouraged to attend all summer sessions, we understand that family trips are often planned during the summer and that some absences are inevitable. Please let your child's teacher know ahead of time of any planned absences. If you sign up for one of the enrichment classes (e.g., camping or canoeing), please note the date so your child is in attendance. These classes are dependent on enrollment and often have a waiting list. Please notify Brenda Haugrud as soon as you know your child will not be attending to allow another student to have the opportunity. **For HS students, absences could jeopardize their ability to recover lost credit.**
