

Goal 1

Improving Academic Outcomes: Literacy Goal

In a continued effort to promote academic excellence and support every student's journey toward literacy proficiency, the district has set a goal on the ATLAS assessment for students in grades 3 through 12. This targeted improvement reflects our commitment to fostering strong reading progress toward this goal, the district's instructional and leadership teams will conduct a comprehensive analysis of assessment data quarterly to identify areas of additional support. Based on this data, the team will develop and implement a strategic plan of evidence-based interventions tailored to

Goal 2

Students in grades 3 through 10 will demonstrate a minimum of 1% growth on the ATLAS assessment, reflecting our district-wide dedication to literacy. To achieve this goal, the district's instructional and leadership teams will engage in a thorough review of assessment data to identify trends, gaps, and findings, the team will design and implement a comprehensive intervention plan rooted in research-based instructional practices. To ensure progress, the team will monitor the effectiveness of interventions, evaluate student progress, and make necessary adjustments to instructional strategies quarterly.
