

Course Selections

Students select courses by clicking on the “**Class Registration**” icon in their Powerschool Portal account.

Students can then click on the “**Edit**” icon on the right (looks like a pencil) to access the course offerings in a particular department such as English or Math.

Next, students will **click the box next to the course** they would like to select and submit the request by clicking “**OKAY**” at the bottom.

After all selections have been made, students must click “**Submit**” at the bottom.

+++++

- Students are required to select 7 credits and may also select up to 2 alternate credits. Students are required to take a minimum of seven credits each year per Lebanon Board of Education Policy.
- Special Education courses will be selected by the case manager.
- Current freshmen Ag 9 students will select Ag 2 and Ag Lab unless given approval otherwise.
- Course selections can be reviewed/adjusted with parents/guardians at home.
*Please see your counselor with questions or to make adjustments to your selections after the online scheduling period has closed (**March 7th, 2024**).*
- Parents/Guardians will receive a copy of your selections in the mail later this year.
- There will be a meeting this spring for students interested in online courses through Virtual High School (TBA). Interested students can also reach out to Mrs. Nowosad in the library with any questions.
- Course descriptions can be found in the Program of Studies available on the Lyman page of Lebanonct.org under “Students” then “Academics”. It can also be found here: [□ Program of Studies](#)
