Policy 0200

School District Philosophy

In carrying out its responsibilities, the Board of Education is guided by the desire to use the resources of its community, its staff and its students to provide the highest quality education permitted by its financial resources. In reaching decisions the Board will attempt in every case to act in the best interests of its students.

School Board Organization

School Board Purpose and Roles

The School Board of Education performs three basic functions in the management of the School District:

Legislative

The School Board shall exercise full legislative rule and management authority for the District by adopting policy and directing all procedures necessary for the governance of District educational and administrative responsibilities.

Executive

The School Board shall delegate to the Superintendent the responsibility of implementing all Board policy.

Appraisal

The School Board shall determine the effectiveness of policy implementation through evaluation of school operations, practices and program outcomes. The achievement level of students shall be the guiding standard through which all success shall be measured.

Statement of Practices

Attendance

Members shall attend all regularly scheduled Board of Education meetings insofar as possible. Any member failing to attend the meeting of the Board for three (3) consecutive regular meetings, unless excused by a majority of the Board for reasons satisfactory to the Board, shall be deemed to have vacated the seat; and the secretary of the Board shall certify that fact to the Board. The vacancy shall be filled as other vacancies occurring in the Board. Attendance for purposes of this provision shall be defined as actual, physical attendance at the Board meeting until all of the business of the Board has been completed unless a member is excused by a majority of the Board. However, Board members may participate fully via teleconferencing. If the Board meeting is required due to a bona fide emergency and if the emergency is stated on the record, Board members may also participate in roll call votes by other electronic means, including telephone.

Knowledge

Members shall come to Board of Education meetings informed concerning the issues to be considered.

Abstentions

Members shall avoid abstaining except when required by statute or Board policy. The members of the Board have been elected to make difficult decisions on behalf of the students, parents, patrons and employees of the district. The concept of trusteeship requires each member to review the issues under the Board's consideration and to take a stand regarding those issues. A member who has conformed to the above-described tenets of knowledge, open discussion, independent judgment, and independent and civility should be prepared to cast a vote on each of the issues before that member.

Cooperation/Delegation

Members shall work with other Board members to establish effective Board policies and to delegate authority for the administration of the schools to the Superintendent. Members shall not attempt to by-pass, undermine, or usurp the Superintendent's authority and responsibility for the daily operation of the schools.

Conflict of Interest (Refer to Policy and Regulation 0342 – Nepotism, Conflict of Interest and Financial Disclosure)

Members shall avoid being placed in a position of conflict of interest and shall not use the Board position for personal or partisan gain. Members shall conduct themselves in accordance with the conflict-of-interest policy and disclosure requirements prescribed by statute and Board policy.

Confidentiality

Members shall not disclose confidential information. Information is confidential if it is (a) communicated during executive session; or (b) otherwise communicated with a mutual understanding of confidentiality.

Acceptance of Gifts

Members shall not solicit or accept gifts, payments, or anything greater than a nominal value item or holiday gifts of nominal value from any person, organization, group, or entity doing business or desiring to do business with the School District.

Contact with Vendors

Members, if contacted by a vendor requesting information about the District's bidding procedures, whether of a general nature or with regard to specific goods or services to be bid, shall provide the vendor with the name and business telephone number of the administrator responsible for purchasing such goods or services. The member shall request that the vendor contact the relevant administrator and direct all questions and concerns to that administrator.

Board Communications to Staff

All official communications, policies, and directives of staff interest and concern will be communicated to staff members through the Superintendent, and the Superintendent will employ such media as are appropriate to keep the staff fully informed of the Board's concerns and actions.

Visits to Schools

Individual Board members who, in their parental capacity, wish to visit the school(s) or classroom(s) of their child(ren) will follow the regular procedures for visitors. Board members who wish to visit other schools or classrooms as an informal expression of interest in school affairs will inform the Superintendent who will arrange such visit(s) through appropriate principal(s). Official visits by Board members will be conducted only with the full knowledge of the Superintendent and principal(s) involved.

Educational Welfare

Members shall remember always that the first and greatest concern must be the educational welfare of the students attending the School District.

School Board Elections

The qualified voters of the School District shall annually on the first Tuesday after the first Monday of April, elect two directors for terms of three years, except, effective for Board elections beginning in April of 1993, and each three years thereafter, when three directors shall be elected in compliance with regulations specified in state law.

An election shall not be held if the number of candidates who have filed for the Board is equal to the number of positions available. However, regardless of the number of Board vacancies and Board candidates, if a ballot proposition (i.e., tax levy, bond issue) is on the ballot, an election of Board members must be held. If no election would be held due to the number of candidates equaling the number of vacancies, the District will publish a notice containing the names of the candidates who will assume a Board directorship absent an election. This notice will be published in a newspaper of general circulation in the District on or by March 1 prior to the scheduled election.

Qualified Voters in the School District

An individual must be a registered voter in order to vote in a school election. In order to vote, a person must be eighteen (18) years of age or older, must be a citizen of the United States, and must reside in the School District thirty (30) days.

Candidate Qualification - Method of Filing

Qualified applicants for the Board may file for office beginning at 8:00 a.m. in the Superintendent's office commencing on the seventeenth (17th) Tuesday prior to the election and ending at 5:00 p.m. on the fourteenth (14th) Tuesday before the election. The candidate shall declare his/her intent to become a candidate, in person and in writing to the secretary of the Board of Education. The names of qualified candidates shall be placed on the ballot in the order of filing. The notice of election and certification of candidates must be submitted to the county clerk by the tenth Tuesday prior to the election. Candidates must comply with all of the prevailing laws concerning eligibility and campaign financing.

A candidate who files for one vacancy and later decides to run for another shall be positioned on the ballot according to the time when his/her change of declaration is received by the secretary of the Board, not on the basis of when the first petition was filed.

Candidates must be citizens of the United States and resident taxpayers of the District, reside in the District for one year next preceding their election or appointment, and be at least twenty-four (24) years of age. Candidates will be disqualified from participation in a

Board election if, the candidate is delinquent in the payment of any state income taxes, personal property taxes, municipal taxes, real property taxes on the residence of the candidate. Candidates must also complete a notarized copy of Form 0320 - Candidate's Place of Residence attesting that the candidate is not currently aware of any delinquency in the filing or payment of state income taxes, personal property taxes, municipal taxes or real property taxes on the candidate's place of residence. The candidate must further attest that they are not a past or present corporate officer of the office that owes any taxes to the state, which are not in dispute. Said affidavit (MCE Form 0320) must include a copy of the affidavit with the declaration of candidacy (MCE Form 0320.1). Failure to accurately complete and file Form 5120 with the Department of Revenue may disqualify a candidate from the ballot. Each newly elected or appointed director shall qualify and take his/her oath of office in the manner prescribed by law and according to Policy 0330 - Oath of Office.

No person may be a candidate for a position on the Board if such person is registered as a sex offender or is required to be registered as a sex offender under state law. Any Board member who is likewise required to register, or who is registered as a sex offender under state law will immediately be requested by the Board to resign from the Board. Should such Board member refuse to resign, the member will be ineligible to serve as a Board member at the end of his/her term.

In addition, no person shall qualify as a candidate for the Board of Education, who has been found guilty of, or has pled guilty to a felony or misdemeanor under federal law, or to a felony under Missouri law, or has been found guilty of an offense in another state, which would be considered to be a felony in the State of Missouri.

It is not the District's responsibility to investigate and determine a candidate's eligibility. That responsibility rests with the Department of Revenue and/or the County Election Authority.

Expenditure of District Funds

No contribution or expenditure of District funds will be made directly by any officer, employee, or agent of the District to advocate, support, or oppose the passage or defeat of any ballot measure, or the nomination or election of any candidate for public office, or to direct any public funds to, or pay any debts, or obligations of any committee supporting or opposing such ballot measure or candidates. This policy shall not be construed to prohibit any district official from making public appearances or from issuing press releases concerning such ballot issue.

Creation of Voting Sub-Districts

If the Board wishes to consider division of the District, the Board must first vote on the question of dividing the District. If the question receives four affirmative votes, the Board will develop a proposed plan for voting sub-districts. The plan will comply with the provisions of RSMo. §162.563. In addition, if 10% of the registered voters in the last

school board election will submit a petition to subdivide the District into voting sub-districts, election of officials will be notified and an election held.

Nepotism, Conflict of Interest and Financial Disclosure

The Board may employ a person related within the fourth degree to a Board member (see Form 0342), provided the related Board member does not debate or vote upon the employment issue. However, the Board may not under any circumstances employ one of its own members.

In order to consider employment of a Board member's spouse, the position must have been advertised as required in Policy 4120 - Employment Procedures. In addition, the Superintendent must consider and submit a written affirmative recommendation to the Board. Simultaneously with the giving of notice of such meeting to the members of the Board, a written notice of the meeting and the matters to be considered will be posted in the same manner as postings for regular Board meetings.

Quorum and Majority Vote

The presence of a majority of the Board constitutes a quorum for the transaction of business. However, the letting of contracts, employment of personnel, approval of bills for payment and the ordering of warrants require an affirmative vote of a majority of the Board.

Closed Meetings

The Board may vote to conduct closed executive sessions as provided for in Policy 0430 - Executive Sessions. In order to enter into executive session, such motion must be approved by a roll call majority vote. The motion to enter executive session must reference the specific statutory matters to be discussed.

Any Board member may object to the closing of a meeting, record or vote if the member believes the motion to close violates the Sunshine Law; such member(s) must object at or before the motion to close is voted upon and must vote against closing. Any member of the Board may request items to be placed on the agenda. The tentative agenda, related materials and minutes of the previous meeting shall be mailed to each member of the Board at least four days prior to the stated meeting unless a special emergency meeting is called at a time which makes the four day prior notice impossible.

The agenda for each meeting of the Board shall be adopted or modified by a motion by a majority of those Board members present. Once the agenda is approved, it shall require a vote of majority of the Board members present to make additional modifications.

The agenda for closed sessions shall be on a separate document; however, the motion to close a meeting must be voted on during a public meeting and must also include the reasons for closing the meeting with references to the specific topics under the provision of Section 610.021, RSMo. as valid grounds for a closed meeting session. (Refer to Policy 0430 – Executive Sessions.)

Meetings**Meetings - Participation by Public****Citizen Complaints**

A designated period of time may be provided for public comments at all regular Board meetings. The Board is very interested in citizen viewpoints and problems; however, citizens are encouraged to work through problems at the building and/or administrative levels before coming to the Board. Remarks may be limited to three minutes and to one appearance, thus allowing a maximum number of participants in the allotted time period in which citizens are to speak to issues. Questions directed to the Board may not always be answered immediately. All questions will be responded to by an appropriate person as soon as possible. Persons who wish to suggest items for the agenda should contact the Superintendent.

Agenda Items

Beginning July 1, 2023, and after citizen comment, residents of the District may submit an agenda item which is related to governance or operation of the District. Prior to submission of an agenda item, the submitting resident must meet with the Superintendent/designee in an effort to resolve the concern related to the agenda item. The Superintendent/designee will hold the resolution meeting within twenty (20) calendar days of the request. Following the resolution meeting or if a resolution meeting is not timely scheduled the agenda request will be submitted to the Board Secretary by the requesting resident. The agenda item will be included in the Board agenda for the next regularly scheduled meeting if item received at least five (5) school days prior to the meeting. If not timely received, the item will be placed on the agenda of the following regularly scheduled meeting. However, the agenda may be moved to a later meeting with the resident's agreement.

Placement of a resident's requesting agenda item is subject to the following rules:

1. Presentation of the agenda item is limited to five (5) minutes unless expanded by the Board.
2. No more than three (3) persons may speak on the agenda item but only if each of the speakers has spoken with the Superintendent/designee as provided in this policy.
3. The Board may decline to hear a resident's requested agenda item if the Board reasonably believes that the Board has heard an identical or substantially the same agenda item within the preceding three (3) months.
4. If the resident requesting addition of the agenda item has previously violated rules regarding conduct at a Board meeting or on District property, as reasonably

- determined by the Board that the requesting resident be denied placement of their agenda item.
5. If more than three (3) resident-initiated agenda items are scheduled for the same Board meeting, later resident submissions may be scheduled for the following meeting.
However, if a resident-initiated agenda item is delayed under this paragraph the resident will be advised of this option to submit their presentation to the Board in writing.

School/Community Relations

Community Use of School Facilities

School District facilities are available for community use when facilities are not required for instructional or administration purposes. Use of District facilities is subject to approval of the community group's application and is subject to conditions established by the Board of Education as set forth in administrative regulations.

To the extent that school facilities are available for community use, such facilities will be open, under the same terms and conditions, to youth groups including but not limited to Boy Scouts, Girl Scouts, Big Brothers-Big Sisters of America, Boys and Girls Clubs of America, Little League Baseball and similar groups. When outside groups are permitted to use school facilities under this policy, the District will not unlawfully discriminate against groups based upon a group's religious, political or philosophical content of the speech at such meetings.

School/Community Relations

School Volunteers

The District encourages participation of parents and citizens of the community to volunteer in the schools in order to serve as additional resources to the teachers and students. Prior to serving as a volunteer, each individual who may have unsupervised contact with a child must complete an application for the position, have a satisfactory criminal records check, and have a satisfactory check of the child abuse/neglect records maintained by the Missouri Department of Social Services.

School/Community Relations

Visitors To Schools

Principals and teachers shall welcome and encourage visits by parents/guardians, Board members, volunteers and patrons of the schools. All visitors shall report to the principal's office on entering the building so that the office will be aware of their presence. When a patron of the school has a need for a conference with a teacher or counselor, an appointment should be made so the staff member may proceed with his/her assigned duties without undue interruption.

Groups of visitors wishing to visit the school or facilities shall notify the Superintendent as far in advance as possible.

Students dismissed earlier in one school than others are not permitted to be on the grounds of any other school in the District.

All persons who do not obtain permission from the principal's office to visit the school, or visitors who create serious distractions to the learning environment in the building or on the premises, shall be considered trespassers and subject to arrest and prosecution.

In order to minimize the potential harm to staff and students, persons listed on the sex offenders list may not be present in any school building, or on district property, in any district vehicle utilized to transport students, or be present at school activities without the written permission of the Superintendent. If permission is granted for a specific event or events, the Superintendent will notify the principal, where the sex offender will be present.

Observations by Parents, Advocates, or Others

Under applicable state and federal law, a parent does not have a right to observe his/her child in the educational setting. However, if a parent, advocate or other person wishes to conduct an observation of any child, activity, teacher, or classroom, he or she must submit a written request to the building principal, within five school days of the date he or she wishes to observe, with the following information:

1. The name and position of the individual(s) who will be observing;
2. The date and time he or she wishes to observe;
3. The amount of time he or she wishes to observe;
4. The specific purpose for which he or she wishes to observe.

The building principal must then grant written permission for the observation to occur. The District reserves the right to deny any observation that it believes will disrupt the educational environment or may lead to a direct or indirect release of personally identifiable information about a student or students. The building principal or other administrator will provide a written or verbal explanation of its decision prior to the requested observation date.

Code of Conduct - Adults

The Board of Education believes in and fosters a safe and orderly environment for all students, staff, and visitors.

Therefore, the Board of Education has established a code of conduct for parents, patrons, and visitors on school premises and at school activities. All parents, patrons, and visitors will be expected to conduct themselves in a manner reflective of a positive role model for children. Public displays contrary to this expectation as provided in Regulation 1431 will result in sanctions which will limit a person's access to school activities and school premises.

School/Community Relations

Prohibition Against Firearms and Weapons

The presence of firearms and weapons poses a substantial risk of serious harm to District students, staff and community members. Therefore, possession of firearms and weapons is prohibited on school premises at all times except for law enforcement officials and as otherwise provided in this policy. As used in this policy, the phrase *school premises* includes all District buildings, grounds, vehicles and parking areas. This prohibition also extends to the sites of school activities, whether or not those school activities are conducted on School District property.

Individuals found to be in violation of this policy will be dealt with severely. Students will be disciplined up to and including expulsion as provided in Policy and Regulation 2620 - Firearms and Weapons in School. Law enforcement officials will be notified and the individual violating this policy will be directed to leave school premises. Non-students violating this policy will be barred from all school premises and school activities for a period of one (1) year. Subsequent violations by the same individual will result in a permanent bar from school premises and school activities.

Student participation in school sanctioned gun safety courses, student military or ROTC courses, or other school sponsored firearm related events does not constitute a violation of this policy, provided the student does not carry a firearm or other weapon into any school, school bus, or onto the premises of any other activity sponsored or sanctioned by school officials. In addition, persons passing through school district property for purposes of dropping off or picking up a student do not violate this policy if they possess a lawful permitted weapon in the vehicle during this time.

School Protection Officers

Notwithstanding provisions to the contrary in this Policy, the District may designate one or more school teachers or administrators as school protection officers. School protection officers are authorized to carry a concealed firearm or self-defense spray device.

Prior to designating such officers, the Board will conduct a public hearing on the initiation of such Program. Notice must be given in a publication of general circulation in the city or court in which the District is located at least fifteen (15) days before the hearing. However, the Board may meet in closed session to determine whether to allow a school protection officer to carry a concealed firearm or self-defense spray device and to protect the School Protection Officer's identity.

Those employees seeking to be designated as a school protection officer must make a written request to the Superintendent along with proof of ownership of a valid concealed carry endorsement or permit. All teachers and administrators seeking designation as a school protection officer shall submit a certificate of school protection officer training program completed from a training program approved by the Director of Public Safety. If the District designates a school protection officer, the District must notify the Director of Public Safety of:

1. Full name, date of birth and address of the officer;
2. The name of the school district; and
3. The date such person was designated as a school protection officer.

Such identity information will not be considered public information under the State's Sunshine Law.

Such school protection officers will not be permitted to allow any firearm or device out of their personal control, while the firearm or device is on school property. Violation of this provision will subject the offending officer to termination proceedings.

Public Access to District Documents

The District provides public access for the inspection and copying of the District's public records. As a general practice, the District requires advance payment of a copy fee that does not exceed ten (10) cents per page for pages not larger than nine by fourteen inches and a search and duplication fee that does not exceed the average hourly rate of pay for District clerical staff. However, copies of the District's public records may be provided without a fee or at a reduced fee when the Board determines that a reduction is in the public interest. In assessing fee reductions, the Board will consider the potential that the reduction will significantly contribute to public understanding of the District's operations and will consider the degree of commercial value to be gained by the person requesting a fee reduction. In accordance with state law, search time that would require more than clerical duplication of documents may be charged at the actual cost of research time.

Similarly the District will provide public access for inspection and duplication of the District's public records maintained on audio, video, or similar media. Public access includes but is not limited to computer facilities, recording tapes, discs, videotapes, films, pictures, slides, graphics, and illustrations. The District requires advance payment not to exceed the cost of copies, staff time (not to exceed the average hourly rate of pay for clerical staff), and the cost of the disk or tape used for duplication.

In order to facilitate public access to the District's public records, the Board will appoint a custodian of records. The custodian will be responsible for maintaining the District's public records as well as for assuring access to the District's public records. The identity, business address, and office telephone number of the custodian of records will be published annually and will be available at the District's administrative office. The procedures for implementing public access provided in this policy are set forth in Regulation 1450.

Organ Transplant Information

State or nationally recognized organizations that provide unbiased information concerning organ, eye and tissue donation may request an opportunity to present to the Board. Qualified organizations will be allowed at least thirty (30) minutes to speak at a Board meeting. The Board will determine whether such information will be presented to parents and/or students and, if so, the manner of presentation. However, no student will be required to be present for any instruction related to organ, eye or tissue donation if the student has a sincerely held religious or emotional belief which is contrary to such instruction.

The procedures for implementing public access provided in this policy are set forth in Regulation 1450.

Public Records

As defined by state statute and provided in Board policy, public records include but are not limited to reports, surveys, memoranda, documents/studies prepared and presented to the Board by consultants or other professional service paid for in any part by public funds, provided that such "records" are retained by the District.

The phrase *public records* does not include:

1. Creation of a document not retained or creation of a summary/compilation of District data where such compilation or summary is not an existing, retained record.

2. Internal memoranda or correspondence received by or prepared by or on behalf of the Board where such documents involve advice, opinions, or recommendations related to the Board's decision-making process. However, if such memoranda or correspondence is retained by the District or are presented at a public meeting, they will be deemed public records subject to public access.

Request for Inspection and/or Duplication

1. Requests for access or duplication of the District's public records must be made to the District's designated custodian of records.
2. Upon receipt, the custodian/designee will provide or deny records within three (3) business days of the request. The date of request will not be counted as one of the three (3) business days provided for response. Where reasonable cause exists the three-day response period may be exceeded.
3. *If access is not immediately provided*, the custodian/designee will provide the person requesting access with a detailed explanation of the reason for the delay. The custodian/designee will advise of the earliest date, time, and place when access will be provided.
4. *If access is denied*, the custodian/designee will provide the person requesting access with a written explanation of the reason for denial of access. The written explanation will provide the specific provision of law relied upon in denying access and will be provided within three (3) days of the date when access was denied.
5. Fees for obtaining and duplication of the District's public records must be received prior to copying unless the fee has been waived by the Board. Upon request of the person requesting duplication, the custodian/designee will certify that the actual cost of document search and duplication does not exceed the allowable charges for public records set out in state law.

Unauthorized Removal of Public Records

No person is permitted to remove original public records from District facilities without written permission of the custodian of records/designee. Employees who violate this provision are subject to discipline up to and including termination. Violators may be referred to law enforcement officials.

Commercial Use of District Records

No person or business entity will be provided with the exclusive right to have access to, control over, duplication of, and dissemination of the public records of the District.

Community Involvement in Decision Making

The Board of Education recognizes that many residents of the District may be especially qualified to take an active part in school affairs because of their training, experience, or personal characteristics and encourages them to take an active part in school affairs.

Memorials

Sadly the death of a student, former student, or staff member is an event that may occur at any time. Temporary memorials can provide students the opportunity to give testimony to their peers, as well as learn how to direct their generosity to grieving family members. The opportunity to participate in temporary activities and projects can help students and staff come to accept the finality of their loss. An initial memorial site will be designated by the principal where flowers, poems, pictures, stuffed animals in an area where those who wish not to be reminded can easily avoid that location. Memorial items will be removed after the family funeral in a way that permits presentation of these symbols of caring to the family.

Memorials for staff and students lost through suicide will not be established. This policy is the result of the fact that recognition of student suicide may adversely affect others predisposed to suicide.

School/Community Relations

Public Complaints

Although no member of the community shall be denied the right to petition the Board of Education for redress of a grievance, the complaints will be referred through the proper administrative channels for solution before investigation or action by the Board. Exceptions are complaints that concern Board actions or Board operations only.

The Board advises the public that the proper channeling of complaints involving instruction, discipline, or learning materials is as follows:

1. Teacher
2. Principal
3. Appropriate Central Office Administrator
4. Superintendent
5. Board of Education

Any complaint about school personnel will be investigated by the Administration before consideration and action by the Board.

Searches by School Personnel

School lockers and desks are the property of the Board of Education and are provided for the convenience of students, and as such, are subject to periodic inspection without notice, without student consent, and without a search warrant. The lockers and desks may be searched by school administrators or staff who have a reasonable suspicion that the lockers or desks contain drugs, alcohol, material of a disruptive nature, stolen properties, weapons, items posing a danger to the health or safety of students and school employees, or evidence of a violation of school policy. In addition, the Board of Education authorizes the use of trained dogs to sniff lockers or other school property to assist in the detection of the presence of drugs, explosives, and other contraband.

Students or student property may be searched based on reasonable suspicion of a violation of District rules, policy or state law. Reasonable suspicion must be based on facts known to the administration, credible information provided or reasonable inference drawn from such facts or information. The privacy and dignity of students shall be respected. Searches shall be carried out in the presence of adult witnesses, if such witnesses are available. Students may be asked to empty pockets, remove jackets, coats, shoes and other articles of exterior clothing for examination if reasonable under the circumstances.

No employee shall perform a strip search of any student. The exception to this would be if a school administrator reasonably believes that a student possesses a weapon, explosive, or substance that poses an imminent threat of physical harm to himself or herself or another person, and if a commissioned law enforcement officer is not immediately available. Strip searches may be conducted by, or under the authority of, a commissioned law enforcement officer.

Students are permitted to park on school premises as a matter of privilege, not of right. The school retains the authority to conduct routine patrols of the student parking lots. The interior of a student's automobile on school premises may be searched if a school administrator has reasonable suspicion to believe that illegal, unauthorized or contraband items, or evidence of a violation of school policy is contained inside the vehicle.

Law enforcement officials shall be contacted if the search produces a controlled substance, drug paraphernalia, weapons, stolen goods or evidence of a crime, in any case involving a violation of law when a student refuses to allow a search, or where the search cannot safely be conducted. Parents may also be contacted. A student who refuses to submit to a search may be appropriately disciplined by school officials.

Nondiscrimination and Student Rights**Interviews, Interrogations and Removal From School****Interview or Interrogation**

The School District has legal jurisdiction over students during the school day and hours of approved extracurricular activities. The school administration is responsible for making an effort to protect each student's rights with respect to interrogations by law enforcement officials. When law enforcement officials find it necessary to question students during the school day or periods of extracurricular activities, the school principal or designee will be present and the interview will be conducted in private.

The principal will verify and record the identity of the officer or other authority and request an explanation of the need to question or interview the student at school. The principal ordinarily will make reasonable efforts to notify the student's parents/guardians.

Removal of Students From School

Before a student at school is arrested or taken into custody by a law enforcement or other legally authorized person, the principal will verify the official's authority to take custody of the student. The school principal will attempt to notify the student's parent/guardian that the student is being removed from school.

Admission and Withdrawal

The admission and denial of admission of all students shall be under the direction of the Superintendent/Designee, subject to the approval of the Board of Education. All persons seeking admission to the District and its instructional programs must satisfactorily meet all residency, academic, age, immunization, health, safety and other eligibility prerequisites as established by Board policies, rules and regulations, and by law. Students entering the District will be required to present a birth certificate or some other acceptable proof of age along with proof of residency in the District, or a request for a waiver of the residency requirements unless the student is exempt from the residency requirements as set forth in District policies, rules and regulations and/or law.

Upon a request to enroll any student in the District, the Superintendent/Designee will request the student's previous school records along with any other relevant records as set forth in Regulation 2200 and state law. Any enrollment of a student prior to receipt of the student's previous discipline records will remain conditional until receipt of such records. A student will be allowed to attend school during conditional enrollment so long as the student does not violate the District's code of conduct or pose a threat of harm to students or employees of the District. (See Regulation 2200, Policy 2290, and Policy and Regulation 2664).

Students who are entering kindergarten or first grade are encouraged to pre-register in the spring prior to the fall semester in which they are to begin attendance.

Military dependents who have completed an accredited pre-kindergarten or kindergarten program in another state may enter kindergarten or first grade regardless of age. The District will facilitate the timely enrollment of children of military families and will ensure that they are not placed at a disadvantage due to difficulty in their transfer of education records from the previous school district(s) or variations in entrance legal requirements.

The Board of Education shall abide by the compulsory attendance laws of the state by requiring District resident students between the ages of seven and either seventeen years or successful completion of sixteen credits toward high school graduation, to attend school full time, with the exception of those students who may be excused from full-time attendance by the Superintendent. Individual petitions for any deviation from full-time attendance shall be considered by the Superintendent on the merits of the individual student's application and in compliance with state law and regulations. For purposes of this Policy, a completed credit toward high school graduation is defined as one hundred hours of instruction or more in a course.

Resident Students

Resident students of the District, five to twenty-one (5-21) years of age, who have not graduated from high school or received any document evidencing completion of the equivalent of a secondary curriculum (G.E.D.), and are not barred from enrollment by provisions of the Safe Schools Act (See Policy and Regulation 2664) may attend District schools tuition free. Resident students must provide proof of residency in the District at the time of enrollment. To be a resident of the District, a student must both physically reside and be domiciled within District boundaries. The domicile of a minor child is the domicile of a parent, military guardian pursuant to a military issued guardianship, or court-appointed legal guardian. Where due to military stationing or deployment out-of-state of one or both of a child's parent(s), the child, a resident of Missouri, relocates to live with other family members that live in the District or lives in a military support community located in the District, the child may attend District schools. If the parents' active duty orders expire during the school year, the student will be permitted to finish the current school year at the District.

In addition, the District will provide tuition-free special education services to resident students who qualify for special education services between the ages of 3 and 21 as required by law.

Students Entitled to Enroll Without Proof of Residency

The residency provisions of this policy are not applicable to homeless students, inter-District court-ordered desegregation students, wards of the state placed in residential care facilities, students placed in a residential care facility due to a mental illness or developmental disability, students placed in a residential facility by a juvenile court, students with a disability identified under state eligibility criteria if the student is in the district for reasons other than accessing the district's educational program, students attending regional or cooperative alternative education programs, students attending an alternative education program on a contractual basis, or students attending a school pursuant to R.S.Mo. § 167.151(2) or (4). The exemptions to the residency requirement are expressly established by state law and entitle such students to tuition-free school attendance. Additionally, a student may be partially exempt from the payment of tuition as set forth in Policy and Regulation 2240 and state law. For purposes of IDEA special education evaluation and provision of special education services a student attending a private school located within the District will be evaluated as a resident student.

Requests for Waiver of Proof of Residency Requirements

Those students who are unable to satisfy the proof of residency requirements and who are not entitled to enroll as provided in the previous section of this Policy and state law may request a waiver of the proof of residency requirements. Upon filing a Request for Waiver of Proof of Residency (Form 2230.1) and satisfaction of all other enrollment requirements, the student will be conditionally enrolled and allowed to attend school pending a Board of Education hearing on the student's request unless there is reason to suspect that the admission of the pupil will create an immediate danger to the safety of other students or employees of the District. If there is reason to suspect that the student poses an immediate danger, the Superintendent/Designee may convene a hearing within five working days of the request to register and determine whether or not the pupil may register. (See Policy and Regulation 2200, Regulation 2230 and Policy and Regulation 2664).

Students of Nonresident Teachers and Regular Employees

Nonresident students of District teachers or regular District employees may be permitted to attend school without payment of tuition. Such students will be considered a "resident" student for purposes of state aid.

Admission and Tuition - Nonresident Students

***On September 13, 2018 The Dadeville Board of Education voted not to accept tuition students**

Nonresident students may be permitted to attend the District schools upon payment of tuition provided the student is not barred from enrollment by provisions of the Safe Schools Act. (See Policy 2664.) Tuition rates will be determined annually by the Board of Education on the basis of the per-pupil cost for the preceding year including operation, maintenance, and debt service of the schools.

Within two (2) business days of enrollment in the District by state officials of a nonresident student pursuant to state statute, the Superintendent/designee will request the student's transfer and discipline records from all schools or facilities previously attended and from other state agencies and entities involved in the placement of the student within the twenty-four (24) month period preceding enrollment. The Superintendent/designee is authorized to share relevant portions of such student's transfer and discipline records with District employees who, based upon their duties, have a need to know such information. Such records will be maintained in confidence for purposes of maintaining discipline and for assistance to the student. The student's transfer and discipline records will not be a part of the student's permanent record nor used as the sole basis for denying educational services to a pupil.

Admission of Residents from Unaccredited School Districts

In accordance with Missouri law and Board Regulation, the District will accept transfer students from school districts in its same or adjoining counties that are declared unaccredited by the state of Missouri.

Admission and Withdrawal**Transfer Students**

All students entering the District from other educational settings are required to submit evidence of their achievement in the last grade attended. Grade placement of a student may be adjusted on the basis of examination of the student's previous record, achievement tests administered, or other factors that the principal and staff believe are appropriate under the circumstances. A transcript of all entering secondary school students is required before enrollment can be completed. However, a student may be permitted to enroll temporarily until a full transcript is obtained.

Transfers from Unaccredited Schools

Parents/guardians should be advised that if they choose to transfer their student to the public school from an unaccredited school, the student will not be guaranteed comparable placement in the public schools. Students transferring will be assigned an appropriate grade level and class assignment based on their educational and developmental level as determined by the principal through assessment of student's age, educational experience, achievement tests and consultation with parent/guardian and personnel from the student's former school.

Intradistrict Transfers

The Superintendent may authorize the transfer of a student from one District school to another. Reasons for the transfer may include, but are not limited to:

1. Welfare of the student
2. Disciplinary concerns
3. Curriculum offerings
4. Special education placement
5. Parent/guardian custody
6. Relocation of residence
7. Student of a District employee
8. Transportation

The request for transfer may be initiated by the building principal and/or the parent/guardian. The request shall outline the reasons for the transfer, the positive and negative impact upon the student, and any differences of opinion about the transfer. A request for a student transfer will be submitted to the Superintendent.

Denial of Admission and Student Withdrawal from School

Denial of Admission

A student who is conditionally enrolled pending a Waiver of the Proof of Residency Requirement hearing may be denied admission and barred from attending school after denial of the student's waiver request as provided in Regulation 2230 and state law.

A student may be denied admission based upon a previous disciplinary expulsion that would result in expulsion in the District or criminal conduct as provide in Policy and Regulation 2664 and state law.

A nonresident student who is not otherwise entitle to a free public education in the District, may be denied admission for any nondiscriminatory reason in accordance with District policies, regulations and rules and state and federal law.

Administrative Removal of Student from Enrollment Not Resulting from Student Disciplinary Action

Upon information that calls into question a student's entitlement to a free public education in the District, the Superintendent/Designee will attempt to contact the student's parent(s) or guardian and give him/her the opportunity to respond. If the Superintendent/Designee determines after this communication or attempted communication that the student is not entitled to a free public education in the District, the Superintendent/Designee will provide written notification of this determination to the parent(s)/guardian and will notify the parent(s)/guardian of the right to appeal this determination to the Board of Education. The student will not be removed from the District's enrollment and barred from school attendance until after the time period to appeal to the Board has expired or if the Superintendent/Designee's Determination is appealed, the Board has upheld the Superintendent/Designee's determination.

Voluntary Student Withdrawal

Students who voluntarily withdraw from school for any reason are required to notify the building principal and provide a specific reason for withdrawal.

Each building principal will submit a monthly report to the Superintendent concerning the identity and reason of each student withdrawing from school.

Requests to Transfer Student's Records to Another Public, Private or Charter School

Truancy is defined as deliberate absence from school on the part of the pupil with or without the knowledge of the parent/guardian and for which no justifiable excuse is given. When a pattern of truancy becomes evident, the principal will investigate and take such action as circumstances dictate.

Section 210.115 R.S.Mo. mandates reporting to the Division of Family Services when there is reasonable cause to suspect that a student's nonattendance is due to the educational neglect of the parents/guardians.

Any school official or employee who knows or has reasonable cause to suspect that a student is being subjected to home conditions or circumstances which would reasonably result in truancy will immediately report or cause a report to be made to the building principal, or his/her designee, who will then become responsible for making a report via the Student Abuse Hotline to the Missouri Division of Family Services (DFS). Misconduct and Disciplinary Consequences

All students attending school in District schools will be expected to accept the obligation and responsibility to attend school on a regular basis and to comply with the District's discipline code set forth in Regulation 2610. Those students who choose not to fulfill their responsibilities at school will be held accountable for their conduct. Consequences for individual acts of misconduct are calculated to discipline the student, to deter future misconduct, and to provide a safe and positive environment in which students can learn. Students who engage in significant acts of misconduct off campus which materially and adversely impact the educational environment of district students to the extent allowed by law will be subject to discipline up to and including expulsion.

Firearms and Weapons in School

The District recognizes firearm and weapon possession as a potential threat to the health, safety and security of students, employees, and other persons. The District will not tolerate the presence of firearms or weapons on the premises of our schools. This prohibition includes possession of firearms and weapons on school playgrounds, school parking lots, school buses, and at school activities, whether on or off school property. The District complies with the provisions of the Improving America's Schools Act of 1994 and other applicable federal and state law.

Nothing in this policy shall prohibit the District from permitting a Civil War re-enactor to bring a Civil War era weapon to school for educational purposes so long as the weapon is not loaded.

Students who violate this policy will be suspended for no less than one (1) year and are subject to permanent expulsion. However, the Superintendent may recommend to the Board a modification of the suspension on a case-by-case basis. Students with disabilities under the Individuals with Disabilities Act and/or Section 504 of the Rehabilitation Act are entitled to the protections of those laws.

This policy will be annually submitted to the Department of Elementary and Secondary Education together with a report of disciplinary action taken for possession of a "firearm" or "weapon" as defined in Regulation 2620.

Closed Campus

With the safety and welfare of the students in mind, the Board of Education has closed all campuses during the school day. Permission to leave school will be granted only for valid reasons, and only with a written request signed by a parent/guardian. In emergency situations, a telephone call from a parent/guardian may suffice, with approval of the building principal.

Discipline**Student Use of Tobacco, Alcohol, Drugs and Vapor Products****Smoking**

The Board of Education believes that smoking; the use of any tobacco products; vapor products and substances appearing to be tobacco products are detrimental to the health and well-being of staff and students. This prohibition includes electronic cigarettes, vaping and similar objects used in conjunction with vaping. Therefore, the Board prohibits the use, sale, transfer and possession of tobacco products, vapor products, and substances appearing to be tobacco products or vapor products, i.e. e-cigarettes, vaping paraphernalia, at school and at school activities.

Alcohol and Drug Use

The improper use of controlled substances, alcohol and substances represented to be such is detrimental to the health and welfare of students and is detrimental to discipline in school. Such conduct, as well as the possession of drug paraphernalia, is prohibited and is subject to disciplinary action as set forth in Regulation 2610.

Pursuant to 29 U.S.C. 705(20)(c)(iv), a student with a 504/ADA disability who is currently engaging in the illegal use of alcohol or drugs is not considered a student with a disability under those laws and the District, may take disciplinary action – to the same extent that disciplinary action is taken against nondisabled students – in relation to that use or possession of alcohol or drugs. In such cases, the due process procedures contained in the Section 504 regulations will not apply to protect those students. This provision does not apply to students who are identified as disabled under the Individuals with Disabilities Education Act. However, school personnel may remove an IDEA disabled student to an interim alternative educational setting for not more than 45 school days without regard to whether that student's behavior is a manifestation of his/her disability where that student knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or at a school function under the District's jurisdiction. "Illegal drug," as it pertains to the discipline of IDEA students, means a controlled substance but does not include a controlled substance that is legally possessed or used under the supervision of a licensed health-care professional or under any other authority.

The determination of whether or not a student is under the influence of alcohol or a controlled substance is based upon a variety of information including but not limited to, physical appearances, speech patterns, and witnesses' statements. While not required, District administrators may request a student suspected of alcohol use to submit to a Breathalyzer. Conduct that includes possession of or use of alcohol or controlled substances as well as the possession of drug paraphernalia is prohibited and is subject to

disciplinary action as set forth in Regulation 2610.

CBD Products

Due to the lack of consistency in labeling related to the potency of many CBD and similar products; due to the lack of research into the long-term effects of these products; and due to the overriding concern for the health and safety of District students, CBD and similar products are prohibited on school premises and at school related activities. Penalties for violations of this policy will be consistent with the penalties for alcohol and drug possession.

Drug-Free Schools

Pursuant to requirements of the 1989 amendments of the Drug-Free Schools and Communities Act and to the requirements of the Safe Schools Act, and for the purpose of preventing the use of illicit drugs and alcohol by students, the District shall provide age-appropriate, developmentally based drug and alcohol education and prevention programs to all students from early childhood level through grade twelve (12). (See also Policy 6130 - Drug Education.) Such programs will address the legal, social and health consequences of drug and alcohol use, and provide information about effective techniques for resisting peer pressure to use illicit drugs or alcohol.

The District shall provide information about any drug and alcohol counseling and rehabilitation and re-entry programs that are available to students. Students may be required to participate in such programs in order to avoid suspension or expulsion if they are found to be in violation of this policy. All parents/guardians and students shall annually be provided with a copy of this policy.

The District certifies that it has adopted and implemented the drug prevention program described in this policy in the form required by the Department of Elementary and Secondary Education or the United States Department of Education. Bullying

The District is committed to maintaining a learning and working environment free of any form of bullying or intimidation. Bullying is strictly prohibited on school grounds, or school time, at a school sponsored activity or in a school related context. Bullying is the intentional action by an individual or group of individuals to inflict intimidation, unwanted aggressive behavior, or harassment that is repetitive or is substantially likely to be repeated and causes a reasonable student to fear for his or her physical safety or property; substantially interferes with the educational performance, opportunities, or benefits of any student without exception; or substantially disrupts the orderly operation of the school. Bullying may consist of physical actions, including gestures, or oral, cyberbullying, electronic, or written communication, and any threat of retaliation for reporting acts of bullying.

Cyberbullying means bullying as defined above through the transmission of a communication including, but not limited to, a message, text, sound, or image by means of an electronic device including, but not limited to, a telephone, wireless telephone, or other wireless communication device, computer, or pager. The District may prohibit and discipline for cyberbullying that originates on any District campus or at a District activity if the electronic communication was made using the school's technological resources, if there is a sufficient nexus to the educational environment, or if the electronic communication was made on the District's campus or at a District activity using the student's own personal technological resources. Further, students who engage in significant acts of misconduct off campus which materially and adversely impact the education of District students will be subject to discipline.

Bullying, as defined in this policy, is strictly prohibited. Students are encouraged to report any incident of bullying which they have witnessed or incurred, by contacting their building principal. District employees are required to report any instance of bullying of which the employee has witnessed within two (2) school days of the occurrence. Employees shall report the occurrence to the building principal, who is the person the District designates to receive reports of incidents of bullying. A principal who receives a report of an incident of bullying shall initiate an investigation into the allegations within two (2) school days of receipt of the report. The principal may assign other employees to assist in the investigation, or request that the superintendent assign an outside investigator. The investigation shall be completed within ten school days from the date of the written report of bullying unless good cause exists to extend the investigation. No employee or student who reports an act of bullying shall be subject to reprisal or

retaliation for making such a report. Any person who engages in reprisal or retaliation against an employee or student who reports an act of bullying shall be subject to disciplinary action.

Students who are found to have violated this policy will be subject to consequences depending on factors such as: age of student(s), degree of harm, severity of behavior, number of incidences, etc. Possible consequences to a student for a violation of this policy include: loss of privileges, classroom detention, conference with teacher, parents contacted, conference with principal, in-school suspension, out-of-school suspension, expulsion and law enforcement contacted.

The District shall give annual notice of the policy to students, parents or guardians, and staff. This policy shall be included in all student handbooks. This policy shall also be posted on the District's web page (as a Board policy) and a copy shall be placed in the District Administrative Office.

The District shall provide information and appropriate training to District staff who have significant contact with students regarding the policy. All staff with significant student contact shall be trained on the requirements of this policy on an annual basis.

The District shall provide education and information to students regarding bullying, including information regarding this policy prohibiting bullying, the harmful effects of bullying, and other applicable initiatives to address bullying, including student peer-to-peer initiatives to provide accountability and policy enforcement for those found to have engaged in bullying, reprisal, or retaliation against any person who reports an act of bullying. The District shall instruct its school counselors, school social workers, licensed social workers, mental health professionals, and school psychologists to educate students who are victims of bullying on techniques for students to overcome bullying's negative effects. Such techniques include but are not limited to, cultivating the student's self-worth and self-esteem; teaching the student to defend himself or herself assertively and effectively; helping the student develop social skills or encouraging the student to develop an internal locus of control. District administrators will implement programs and other initiatives to address bullying, to respond to such conduct in a manner that does not stigmatize the victim, and to make resources or referrals available to victims of bullying.

Student Cell Phone Usage

Developments in cell phone technology in recent years have resulted in enhanced communication opportunities. However, the use of cell phones in schools poses increasing risks of school disruptions, bullying, criminal activity, and academic dishonesty. As a result, beginning with the 2008-09 school year, student cell phones, digital cameras and similar electronic devices will be banned during the instructional day, as well as, in dressing areas during extracurricular activities. Violation of this policy during the first semester after adoption of this policy will result in in-school suspension, while second offenses will result in out-of-school suspension being imposed. After the first semester 2008-09, out-of-school suspensions will be imposed on the first and subsequent offenses.

Parents may apply to the building principal to obtain a hardship exception. In such cases, the student's cell phone must be retained in the principal's office. School administrators will also disclose to appropriate staff members portions of any student's individualized education program that is related to past or potentially future violent behavior. Violent behavior and the phrase acts of school violence are defined as the use of physical force by a student with the intent to do serious physical injury to another person while on school property, including a school bus, or while involved in school activities.

In addition the Superintendent/designee will report to law enforcement officials, as soon as is reasonably practicable, the commission of any of the acts or related juvenile offenses listed in Regulation 2673, which are committed on school property, including school buses, or while involved in school activities.

Student Welfare**Reporting Student Abuse**

The Board of Education believes that school staff members, school volunteers and school contractors, are in unique positions to assist children, families, and the community in dealing with the issue of child abuse and neglect. Child abuse is defined as any physical injury, sexual abuse or emotional abuse inflicted on a child other than by accidental means. Neglect is defined as the failure to provide the proper or necessary support, education, nutrition or medical, surgical or other care necessary for the child's well-being. The status as an unaccompanied youth is not, in and of itself, a sufficient basis for reporting child abuse or neglect unless the child is under sixteen (16) years of age or is an incapacitated person. However, if a mandated reporter knows or has reason to believe that an unaccompanied child has been or may be a victim of child abuse or neglect, a report must be made. Employees, volunteers and school contractors making reports of allegations of sexual abuse of a student will be provided immediate unrestricted use of communication technology and will be temporarily released from their work duties to make an immediate report.

If a school employee, volunteer or school contractor has a reasonable belief that a student has been or maybe subjected to abuse or neglect, such employee, volunteer or school contractor and the Superintendent shall report the information immediately upon receiving the information to the Children's Division. Thereafter, the Superintendent will investigate the allegation for the purpose of making decisions about the accused person's employment. Depending upon the specific facts, the District may place the alleged abuser on paid leave of absence; place the employee in a non-student contact position; initiate dismissal proceedings, or continue the employee in their present position pending outcome of the investigation.

Any school district employee, volunteer or school contractor acting in good faith, who reports alleged sexual misconduct on the part of a school employee will not be disciplined or discriminated against because of such reporting.

The District will annually provide employee and volunteer training, which will include but not be limited to current information concerning identification of the signs of sexual abuse in children as well as the identification of the danger signals of potentially abusive relationships between children and adults. This training will emphasize the importance of mandatory child abuse reporting, including the obligation to report suspected abuse by other mandated reporters. Employees and volunteers will receive training on the need for and methods to create an atmosphere of trust so that students believe their school and school employees are available to discuss matters concerning abusive behavior.

The District will post in each student restroom and in a clearly visible location in each school office, the toll free child abuse and neglect hotline number established by the Children's Division. These signs will be published in both English and Spanish. Such child abuse and neglect hotline numbers shall be depicted in large print on posters 11 inches by 17 inches and will be placed at eye level for easy viewing. The hotline number will be shown in bold print. The signs shall also contain instructions to call 911 for emergencies and contain directions for accessing the Children's Division's website for more information on reporting abuse and neglect.

Students in Foster Care

The District is committed to ensuring and facilitating the proper educational placement, enrollment in school and checkout from school for foster children.

In order to facilitate this process and to serve as the educational liaison for District foster children, the District will designate [Select One: Director of Student Services, Guidance Counselor, etc.] to oversee and assess the District's foster care program.

The Board recognizes students in foster care experience mobility in and out of the foster care system and from one home placement to another that may disrupt their education, and which may create barriers to academic success and on-time graduation. The District, in collaboration with state and local agencies, will work to minimize or eliminate educational barriers for students in foster care, particularly in enrollment, transfer of student records, and transportation to their school of origin, where appropriate. For purposes of this policy, "school of origin" is the school in which the student is enrolled at the time of placement in foster care. The District will, to the largest extent possible, ensure that a child in foster care enrolls or remains in his or her school of origin, unless a determination is made that remaining in the student's school of origin is not in the student's best interest.

In determining the student's best interest for purposes of this policy, the following factors will be considered:

1. Preference of the student;
2. Preference of the student's parent or educational decision making;
3. The student's attachment to the school, relationships with staff and peers;
4. Placement of the student's siblings;
5. Influence of the school climate on the student, including safety;
6. Availability and quality of the services in the school in meeting the student's educational and socioemotional needs;
7. History of school transfers and their impact;
8. Impact of the length of commute;
9. Whether the student has a disability under the IDEA or Section 504;
10. Whether student is an EL student receiving language services.

A foster care child whose home placement is changed may remain enrolled and attend their school of origin, or return to a previously attended school in an adjacent district. The District will accept for credit full or partial course work satisfactorily completed by a

foster child while attending a public school, nonpublic school or non-sectarian school in compliance with District policies, regulations and practices.

If a child in foster care is absent from school due to a decision to change the placement of a pupil made by a court or child placing agency, or due to a verified court appearance or related court-ordered activity, the grades and credits of the pupil will be calculated as of the day the pupil left school and no reduction in grades will occur as a result of the pupil's absence under these circumstances.

If a foster care student transfers into the District prior to or during a school year, the District will initially honor the placement of the student in educational courses and programs based on the student's prior enrollment or educational assessments; will provide comparable services to transferring foster care students with disabilities based on the student's current IEP; and will make reasonable accommodations and modifications to address the needs of a student with disabilities, subject to an existing 504 or Title II Plan in order to provide equal access to education. The District will conduct evaluations, where necessary, to ensure proper placement and services.

The District will waive specific courses required for graduation if similar course work has been satisfactorily completed at another school. Similarly, the District may waive prerequisites for placement in a District course or program based upon courses taken at a prior school. If a waiver is denied for reasonable justifications, the District will provide an alternative means of acquiring the required course work so that graduation may occur on time. If foster care students who transfer at the beginning of their senior year or during their senior year are deemed ineligible to graduate after all alternatives have been considered, the sending District and this District will ensure that a qualified student who satisfied graduation requirements of the sending school, will receive a diploma from the sending school.

Students in foster care who have completed the graduation requirements of the District while under juvenile court jurisdiction will receive a diploma in the same manner as other District students.

Transportation

Some students in foster care who are residents of the District may need transportation to remain in their school of origin when it is in their best interest. To facilitate transportation for such students, the District will collaborate with the state and/or local child welfare agencies to ensure that transportation for such students is arranged, provided, and funded. If there are additional costs incurred in providing transportation to the school of origin, the District will provide such transportation if:

- a) The local child welfare agency agrees to reimburse the District for such costs;
- b) The District elects to pay the costs; or
- c) The District and the local child welfare agency agree to share the cost.

Dispute Resolution

In the event that a caregiver or education decision-maker disputes a District decision regarding the best interest or the provision of other educationally related services for a student in foster care, the caregiver or education decision-maker may use the District's dispute resolution procedure.

During the pendency of the dispute resolution, the student shall remain in his or her school of origin in order to minimize disruptions and to reduce the number of moves between schools. Similarly, students attending their school of origin are entitled to continue to receive transportation during the appeal.

In the event of such dispute, the District will inform the educational decision-maker or parent of their right to appeal the Best Interest Determination in a language and format reasonably calculated to inform the parent/educational decision-maker of their rights. They will also be provided with the following:

1. Contact information for the District's foster care point of contact.
2. An explanation of the Best Interest Determination.
3. A step-by-step description of how to appeal the Best Interest Determination at Level I.
4. A statement advising that the student will remain in the school of origin, receiving all appropriate educational services during the pendency of the appeal.
5. Timelines for dispute resolution at each level.
6. Notice of rights to appeal to DESE if the parent/educational decision-maker is not satisfied of the level decision.

Level I

In order to appeal from the Best Interest Determination, a parent/educational decision-maker must submit their appeal in writing. This writing must contain the following:

1. The school in which enrollment is sought.
2. The basis for seeking enrollment.
3. The requesting parent/educational decision-maker's name and contact information.

If the appeal is submitted by email, the subject line should provide "Foster Care Appeal."

The appeal letter must be submitted within ten (10) weekdays of receiving the District's notice of the right to appeal the decision. Failure to timely submit an appeal letter may result in dismissal of the appeal.

The Superintendent/designee will arrange for a personal conference with the parent/educational decision-maker, the student where appropriate, and the student's case manager or point of contact. Prior to the meeting, the Superintendent will have reviewed the documentation from the Best Interest Determination meeting. The conference will be arranged within ten (10) days of receipt of the appeal letter and will be conducted as soon as practicable.

Within five (5) days of the conference, the Superintendent/designee will inform the parent/educational decision-maker as well as other parties attending the meeting of the Superintendent/designee's decision. The decision will be communicated in writing. The written decision will include the following:

1. Copy of the complete Level I appeal packet (appeal, Best Interest documents, notices, and decision).
2. The decision and an explanation of the decision.
3. Directions concerning the procedure to appeal the decision to Level II, including the DESE foster care point of contact, including that individual's name, phone number and email address.

Level II

If the parent/educational decision-maker disagrees with the Level I decision, they may submit a written and dated appeal letter headed "Foster Child Appeal" which must include:

1. The school in which enrollment is sought and the basis for seeking such enrollment.
2. The parent/educational decision-maker's name and contact information.
3. Best Interest Determination notes and reports.
4. Copy of the Level I appeal letter.
5. Copy of the District's Level I decision.

The appeal letter must be submitted to the DESE contact person and the District's Superintendent within five (5) days of receipt of the Level I decision. The District will have five (5) days from receipt of the Level II appeal letter to submit its response, which will be headed "Foster Child Appeal." Documents submitted after the stated deadline will not be considered.

The State's decision will be made by a three person panel including the DESE foster care point of contact, an additional DESE representative, and a representative of the state child welfare agency. The panel will make its decision within thirty (30) days of receipt of the Level II appeal letter. The DESE foster care point of contact will send the written decision to the parent/educational decision-maker and the Superintendent. The decision will include:

1. Copy of the Level II packet.

2. The decision and its explanation.

- b. Exclusionary time-out: removal of the student from participation in an activity or removal from the instructional area.

C. Seclusion

The District will not confine a student in seclusion unless there is a situation or condition where there is imminent danger of physical harm to the student or others.

Physical restraints should never be used as a form of punishment or for the convenience of school personnel or unless there is a situation or condition in which there is an imminent danger of physical harm to the student or others.

E. Assurances and Training

Administering Opioid Antagonists

NARCAN, also known as naloxone is a medication that can be used to block the effects of opioids. Properly used, it can be a lifesaver in cases of opioid overdose.

The District shall maintain NARCAN or other opioid antagonist at each school in locked, secure locations to be administered to any student or staff member reasonably believed to be having a drug overdose. School nurses and other school personnel expected to provide emergency care in drug overdose situations shall be trained. The school nurse or other trained school personnel may utilize the school's supply of NARCAN, or similar opioid antagonist to respond to a drug overdose.

The school district will notify the parents/guardians of any student to whom NARCAN or other opioid antagonist has been administered. Parents who choose not to have an opioid antagonist administered to their student(s) must notify the district in writing. However, if their student is reasonably believed to be experiencing a drug overdose, parents will be notified by the school nurse as expeditiously as possible. In such situations, local medical services will be notified.

Identification of At-Risk Students

The District is committed to identifying students who are at-risk of not being ready for college-level work or not being ready for employment in entry-level career positions. It is essential that such identification occur early enough that our schools can intervene with academic counseling, career counseling, and other intervention services to enhance a student's readiness for post high school academic or employment opportunities.

Identification

Consistent with this District's commitment, at-risk students will be identified by at least their ninth grade year, including students who transfer into the District during ninth grade. In order to identify such at-risk students, District staff will utilize the following criteria:

1. Student performance in Mathematics and English on the eighth grade Missouri Assessment Program (MAP) tests.
2. The District will consider comparable statewide assessment performance for students transferring into ninth grade from outside of Missouri.
3. The District's reported rate of students taking remedial courses in basic academic subjects of English, Mathematics, and Reading during their initial year of college. In assessing this data, the District will rely on data submitted by the Department of Higher Education pursuant to § 173.750 RSMo.
4. The student's attendance rates.

While the above at-risk identifiers are mandatory, the District may consider additional criteria including, but not limited to, review of discipline record; performance more than one grade level below in Reading and/or Math; core subject middle school grades; academic assessment results; contents of Section 504 Plan; ACE score (Adverse Childhood Experience) of 5 or more or other relevant identifiers.

Academic and Career Counseling

When at-risk students are identified, the District will initiate academic and/or career counseling as soon as is practicable to enhance at-risk students' opportunity to graduate on-time, and to enhance their college and/or career readiness.

This policy may be appropriately waived for any student with a disability upon the recommendation of the student's Individualized Education Program (IEP) team.

Consent to Medical Treatment and Educational Service

As provided by statute, and as otherwise provided in Board Policy, the following individuals may consent to student medical treatment and educational services:

1. Parents
2. Student's legal guardian
3. Relative caregiver
4. Foster parent
5. Any person who under court order is authorized to give consent for a student

A "relative caregiver" is defined by statute as a competent adult (18 years of age or older) who is related to the student by blood, marriage or adoption, and who is not the parent. Relative caregivers are required to provide an affidavit attesting that the student lives with the relative caregiver and they are responsible for the care of the student. (See Form 2835).

A relative caregiver acting under the requirements of an affidavit may consent to medical treatment and educational services for a student who cannot otherwise legally consent, if the parent has delegated these responsibilities in writing, or after reasonable efforts, the consent of the parent cannot be obtained.

The consent of the relative caregiver will be revoked in the event the student's parent withdraws their authorization provided the parent's decision does not threaten the life, health or safety of the student. In addition, if the student ceases to live with the relative caregiver, the relative caregiver must immediately notify the District. Upon receipt of such notice, the relative caregiver can no longer consent to medical treatment or educational services.

A relative caregiver's affidavit is valid for one year from the date received by the District.

Students with Communicable Diseases

A student shall not attend classes or other school-sponsored activities, if the student (1) has, or has been exposed to, an acute (short duration) or chronic (long duration) contagious or infectious disease, and (2) is liable to transmit the contagious or infectious disease, unless the Board of Education or its designee has determined, based upon medical evidence, that the student:

1. No longer has the disease.
2. Is not in the contagious or infectious stage of an acute disease.
3. Has a chronic infectious disease that poses little risk of transmission in the school environment with reasonable precautions.

School officials may require any child suspected of having a contagious or infectious disease to be examined by a physician and may exclude the child from school, in accordance with the procedures authorized by this policy, so long as there is a substantial risk of transmission of the disease in the school environment.

A student who has a chronic infectious disease, and who is permitted to attend school, may be required to do so under specified conditions. Failure to adhere to the conditions will result in the student being excluded from school. A student who has a chronic infectious disease and who is not permitted to attend school or participate in school activities will be provided instruction in an alternative educational setting in accordance with District policy.

Students with acute or chronic contagious or infectious diseases and their families have a right to privacy and confidentiality. Only staff members who have a medical reason to know the identity and condition of such students will be informed. Willful or negligent disclosure of confidential information about a student's medical condition by staff members will be cause for disciplinary action.

The District will implement reporting and disease outbreak control measures in accordance with the provisions of Missouri Department of Health publication PACH-16, "Prevention and Control of Communicable Diseases: A Guide for School Administrators, Nurses, Teachers and Day Care Operators," a copy of which shall be on file in the office of the Supervisor of Health Services and in the office of each school nurse.

Administering Medicines To Students

It shall be the policy of the Board of Education that the giving of medicine to students during school hours be discouraged and restricted to medication that cannot be given on an alternative schedule. The Board of Education recognizes that some students may require medication for chronic or short-term illness/injury during the school day to enable them to remain in school and participate in their education. Employees providing routine first aid according to District procedures will be immune from liability or disciplinary action. Similarly, trained employees will be immune from civil liability for administering cardiopulmonary resuscitation and other lifesaving methods in good faith and according to standard medical practices. The Board of Education also recognizes that the administration of medication may be required under Section 504 of the Rehabilitation Act of 1973 and/or the Individuals with Disabilities Education Act to provide a free appropriate public education for identified as disabled under those laws.

Student Services**Medical Marijuana**

The Board strives to honor families' private medical decisions while ensuring a learning environment free of disruption. To that goal, the District maintains a strict prohibition against the possession, use, sale and presence under the influence of prohibited substances, having adopted a Drug Free School Policy (*Policy 2641 – Drug Free Schools*) as well as a prohibition against Student Use of Tobacco, Alcohol and Drugs (*Policy 2640 - Student Use of Tobacco, Alcohol and Drugs*). The purpose of these policies and others is not primarily punitive to catch offenders, rather it is designed to provide a safe learning environment and to serve as a deterrence to drug use.

The State of Missouri has adopted a limited authorization of medical marijuana, as defined by state law and all applicable regulations (hereinafter “medical marijuana” or “drug”). Qualified individual students and employees are permitted the use of medical marijuana. The law does not authorize the use of medical marijuana on school premises, nor does it require or permit district employees to administer the drug to students.

Overall, the District restricts the administration of medications, including medical marijuana, unless administration cannot reasonably be accomplished outside of school hours. Administration of medical marijuana to qualified students shall be in accordance with this policy. Administration of all other prescription and nonprescription medications to students shall be in accordance with applicable law and the Board's policy concerning the administration of medications to students.

Under this policy, caregivers of qualified users of medical marijuana should administer the drug before or after school hours. Caregivers are advised to administer the drug as early in the morning as possible or after school in order to avoid safety issues at school.

Administration at School

In the limited circumstances that a qualified student must receive the drug at school, certain procedures as determined by the District must be followed. Among those procedures, the caregiver must provide the principal with the student's valid authorization to use medical marijuana and the parent must provide the principal with doctor's orders confirming that the drug must be administered during the school day. Where the principal is satisfied that all procedural requirements have been met, the principal will provide a private place where the caregiver may administer the drug to a qualified student. Medical marijuana will not be stored at school, but rather must be brought to school by the caregiver. Following administration of the drug, the caregiver must leave school taking with them any remaining drug.

This procedure will be followed on school premises, on school transportation, and at school sponsored activities either within the District or outside the District. Violation of these procedures will result in the revocation of a qualified student's opportunity to receive the drug at school and disciplinary action.

Caregivers wishing to appeal a building level decision to limit use of medical marijuana at school may appeal the decision to the Superintendent. The Superintendent's decision will be final.

Additional Parameters

This policy conveys no right to any student or to the student's parents/guardians or other primary caregiver to demand access to any general or particular location on school or district property, a school bus or at a school-sponsored event to administer medical marijuana.

Student possession, use, distribution, sale or being under the influence of marijuana inconsistent with this policy may be considered a violation of Board policy concerning drug and alcohol involvement by students or other Board policy and may subject the student to disciplinary consequences, including suspension and/or expulsion, in accordance with applicable Board policy.

If the federal government indicates that the District's federal funds are jeopardized by this policy, the Board declares that this policy shall be suspended immediately and that the administration of any form of medical marijuana to qualified students on school property, on a school bus or at a school-sponsored event shall not be permitted.

Student Allergy Prevention and Response

The purpose of this policy is to create an organized system for preventing and responding to allergic reactions in accordance with House Bill 922 (2009). This policy is not a guarantee of an allergen-free environment; instead, it is designed to increase awareness, provide education and training, reduce the chance of exposure and outline responses to allergic reactions.

This policy applies to district facilities to which students have access and includes transportation provided by the district. The Board instructs the superintendent or designee to develop procedures to implement this policy.

Identification

An allergic reaction is an immune system response to a substance that itself is not harmful but that the body interprets as being harmful. Allergic reactions range from mild to life-threatening. Each school in the district will attempt to identify students with life-threatening allergies, including food allergies. At enrollment, the person enrolling the student will be asked to provide information on any allergies the student may have.

Prevention

Students with allergies that rise to the level of a disability as defined by law will be accommodated in accordance with district policies and procedures pertaining to the identification and accommodation of students with disabilities. An Individualized Health Plan (IHP), including an Emergency Action Plan (EAP), may be developed for students with allergies that do not rise to the level of a disability.

All staff members are required to follow any 504 Plan or IHP/EAP developed for a student by the district. Staff members who do not follow an existing 504 Plan or IHP/EAP will be disciplined, up to and including termination.

Staff members shall not use air fresheners, oils, candles, incense or other such items intended to add fragrance in any district facilities. This provision will not be construed to prohibit the use of personal care items that contain added fragrance, but the principal may require staff members to refrain from the use of personal care items with added fragrance under particular circumstances.

Staff members are prohibited from using cleaning materials, disinfectants, pesticides or other chemicals except those provided by the district.

The district will not serve any processed foods, including foods sold in vending machines, which are not labeled with a complete list of ingredients. Vended items must include a list of ingredients on the individual package. The food service director will create an ingredient list

for all foods provided by the district as part of the district's nutrition program, including food provided during the school day and in before- and after-school programs. This list will be available upon request.

Prepackaged items used in concessions, fundraisers and classroom activities must include a list of ingredients on the package. If the package does not contain a list of ingredients, the list of ingredients must be available at the location where the package is sold or provided.

Education and Training

All staff members will be annually trained on the causes and symptoms of and responses to allergic reactions. Training will include instruction on the use of epinephrine premeasured auto-injection devices.

Age-appropriate education on allergies and allergic reactions will be provided to students as such education aligns with state Grade-Level Expectations (GLEs) for health education. Education will include potential causes, information on avoiding allergens, signs and symptoms of allergic reactions and simple steps students can take to keep classmates safe.

Confidentiality

Information about individual students with allergies will be provided to all staff members and others who need to know the information to provide a safe learning environment for the student. Information about individual students with allergies will be shared with students and others who do not have a legitimate educational interest in the information only to the extent authorized by the parent/guardian or as otherwise permitted by law, including the Family Educational Rights and Privacy Act (FERPA).

Response

Response to an allergic reaction shall be in accordance with established procedures, including application of the student's 504 Plan or IHP/EAP, where applicable. ***Parents of students with life-threatening allergies should supply the school with epinephrine premeasured auto-injection devices to be administered in accordance with Board policy***

Beginning on July 1, 2023, parents of a student with epilepsy or a seizure disorder who are seeking care for their child while at school are encouraged to inform the school nurse or in the absence of the nurse, the building administrator of their request. Upon such request, the school nurse will develop an individualized emergency health care plan for the student. Parents must annually provide written authorization for the provision of epilepsy or seizure care as set out in the student's individualized health care plan.

Student Services**Student Physical Examination**

The Board of Education may require any student to be examined by a physician for the purpose of determining whether the student is afflicted with a contagious or infectious disease or have the liability of transmitting the disease.

The Board may also require certification from a physician indicating a student's fitness to participate in specific educational programs or extra-class activities.

Refusal on the part of parent/guardian to obtain the required examination and to submit the certification indicating freedom from contagious or infectious disease may result in student exclusion from school.

Students may be excused from engaging in required educational activities upon proper certification from a physician advising of student disability.

All costs of physical or other examinations shall be at the expense of students unless state or federal law specifically mandates the examination to be the responsibility of the school.

Vision Examinations

Beginning July 1, 2008, students enrolling in kindergarten or first grade will be required to receive a vision examination from a state licensed optometrist or physician.

Beginning on July 1, 2008 and continuing through the 2011-12 school year, a trained District nurse or other qualified District employee will conduct eye screening exams for every student prior to the completion of first grade and will again screen before the completion of third grade. If a student fails an eye screening, the District will notify the parent/guardian of the results of the eye screening and will require the student to receive a complete eye exam from an optometrist or physician. Students will be excused from the eye screening examination if a student's parent/guardian submit a written objection to the exam addressed to the student's principal.

Student Services**Do Not Resuscitate (DNR) Orders**

The School District recognizes that some students have progressive medical conditions that may result in the students' death while present at school or school activities. The District appreciates the difficult medical and emotional decisions that must be made when families choose to limit resuscitative efforts for these students. Accordingly, the administration shall develop procedures for evaluating requests by a parent or guardian that the District honor a Do Not Resuscitate (DNR) order from a licensed physician.

At a minimum, the procedures will require an individualized evaluation of each request. The procedures will comply with federal and state law. A health care and resuscitation/non-resuscitation plan shall be developed for each request and shall include a determination regarding what if any resuscitation efforts are appropriate. Health care and resuscitation/non-resuscitation plans will be developed by a multidisciplinary team that shall include the student's parents or guardians and physician; appropriate school personnel (including but not limited to, the principal, counselor, and school nurse) and their consultants; and when appropriate, the student. This team will consider the best interests of the student.

The team will also address and plan for the effect of a student's sudden death on other students and staff in each school setting in which the student participates. Health care and resuscitation/non-resuscitation plans shall be reviewed regularly and have a specific limited duration. Such plans will be communicated to all school personnel who have a need to know in order to implement these plans. The administration shall coordinate with local emergency medical services to implement the plans.

Student Publications

The Board of Education encourages student production and distribution of publications which can provide opportunities for practical journalistic experience and for the written expression of differing opinions. The Board of Education recognizes that freedom of speech and press bring corresponding responsibilities, therefore, in its inherent authority based on Missouri Public School Law, it designates the school principal as the Board's representative. The principal, through appointment of a faculty advisor, shall provide guidance to students in appropriate methods for preparing and producing publications.

The building principal/designee may delay or stop distribution of any materials proposed for printing or that have been printed which may be reasonably forecast to cause substantial and material disruption or obstruction of any lawful mission, process, or function of the school.

Interscholastic Activities and Athletics

The District provides opportunities for students to participate in interscholastic activities and athletics. The interscholastic programs should encourage participation by as many students as possible and should be carried on with the best interests of the students as the primary consideration. The programs are expected to be well organized and well conducted and to have a positive influence on the students and the community.

Participation in interscholastic and extracurricular activities is a privilege and not a right. Interscholastic competition may be withheld from any student as a condition of discipline. Furthermore, all policies that apply to the regular school day apply also to interscholastic competition. Coaches and sponsors may establish policies for their groups in addition to those set out by the Missouri State High School Activities Association.

Hazing

Student hazing is inconsistent with the educational goals of the District and poses a significant risk to the physical and mental welfare of District students. Hazing of students, on or off District property, is prohibited and may result in suspension or expulsion from school and from activity/athletic participation.

Participation by Non-Traditional Students

Should the District elect to permit non-traditional students to participate in interscholastic activities, such students must qualify as bonafide students under MSHSAA regulations in order to participate in such activities.

Non-Traditional students may be considered bonafide under MSHSAA regulations under any of the following options:

Option 1 – Transcribed Credits

1. The student must be enrolled in a District high school although some courses/credits are taken off-campus, i.e. virtual, post-secondary, work study, etc; and
2. All credits attempted must appear on the student's high school transcript; and
3. All classes must be completed by the high school's close of semester in order to be considered counted toward activity eligibility.

Option 2 – Seat Time plus Non-Transcribed Credits

1. The student must be enrolled in a District High School and take a minimum of two (2) credit bearing seat time classes for a minimum of 1.0 units of credit at the high school; and
2. High School Administration must confirm after a full academic review that the student is further enrolled in courses outside of the high school, which bring the student up to full MSHSAA mandated credit requirements of 80%. The High School Administration will develop and submit to the Superintendent a written procedure to determine approval of outside courses/credits; as well as the procedures to determine success/credit confirmation for academic eligibility for the current and following semester. It is not necessary that such confirmed credits be placed on the student's transcript.
3. All classes must be completed by the high school's end of semester in order to be considered toward activity eligibility.

Change of Enrollment Status

Any student whose enrollment status changes from being a non-bonafide activity eligible student to a bonafide activity eligible student will be considered a transfer student. As a transfer student, the student would be activity ineligible until a transfer of eligibility form is filed and an eligibility ruling rendered.

Financial Management

The Board will adopt a series of policies to provide direction regarding the School District's budget and financial affairs which reflect the educational philosophy of the District and provide a framework in which the District's administration can effectively operate.

The budget and finance processes will conform to all state and local requirements as set forth by the State constitution, State statutes, Department of Elementary and Secondary Education rules, and Board policies.

Good business necessitates keeping accurate, legal and understandable records of receipts and expenditures. It is also essential that procedures be followed which will help to insure that the budget adopted by the Board is effective in providing parameters for the fiscal affairs of the District.

The purpose of the District budget and financial policies will be to provide direction for a systematized procedure that maintains continuity from year to year and informs the public regarding the education and financial operations of the District.

Financial Operations

Debt Management Policy

The debt management policy of the District is to remain in full compliance with statutes of the State of Missouri by borrowing within the allowable limits of no more than fifteen percent (15.00%) of the District's assessed valuation, which can include state assessed railroad and utility properties located within its boundaries. It is also important that the District exercise caution and prudence concerning its full compliance with the rules and regulations of the United States Department of the Treasury Internal Revenue Service (IRS) to avoid any risk of loss of the tax exempt status of any proposed financings, as well as those currently in existence. Generally the improper spending of the bond proceeds is what triggers a violation of IRS regulations and not complying with the ballot language for the projects can create problems with the Missouri State Auditor and local patrons.

In terms of philosophy towards the monitoring of a long term debt management policy, the Board of Education and Administrators recognize that to achieve the necessary 4/7 or 2/3 majority for approval by the voters of general obligation bond issues it is likely to be much easier if no increase in the debt service fund levy occurs. As a result, it is the District's practice to issue general obligation bonds with optional redemption (call) provisions that facilitate prepayments when excessive debt service fund balances accumulate with the goal of maintaining a constant debt service fund levy. This policy has enabled the District to achieve significant interest savings by issuing refunding bonds to capture lower interest when municipal bond markets change.

On occasion the District may consider capital facilities or equipment lease financing programs. It is the intent to only enter into those types of transactions when it is clear based upon reports from the District's Municipal Bond Underwriter that such a program is affordable and that its implementation does not harm the overall operating budget. If the project and lease financing are deemed essential, but beyond the range of reasonable affordability, the Board of Education and Administration will approach the voters for a temporary or permanent increase in the operating levy to produce the additional revenue.

Since general obligation bond issues and capital facilities or equipment lease financings happen intermittently, it presents challenges for administrators and board members to keep fully informed about the conditions of the municipal bond market, changing rules and regulations issued by the U.S. Treasury Department, etc. For these reasons the Board of Education engages the service of a municipal bond underwriter on a continuing basis to assist the administrators and board members keep up to date and

understand what refunding opportunities exist and what actions are necessary to preserve the existing debt service fund levy to remain on track with the long range facilities plans.

The Superintendent of Schools and other staff providing assistance with those special duties are responsible to the Board of Education for carrying out this policy.

Financial Management

Fraud Prevention

The District is committed to protecting the public funds with which it has been entrusted. Minimizing the losses to fraud and corruption is an essential part of ensuring that all of the District's resources are used for the purpose for which they are intended.

The public is entitled to expect the District to conduct its affairs with integrity, honesty and openness, and demand the highest standards of conduct from those working for it and with it.

Definition of Fraud and Corruption

Although there is no precise legal definition of fraud, the term is used to describe a multitude of offences, including deception, forgery, theft, misappropriation, collusion and false representation of material facts.

Corruption arises when a person receives any benefit which influences them and causes them to act differently when conducting District business.

The District's Response

Board policy requires that matters involving any financial irregularities are referred to the Superintendent for investigation. These matters are taken seriously and additional action, such as disciplinary proceedings and/or prosecution, will be taken where evidence of offences is found.

The Superintendent/designee will:

- ◆ Compile a report of findings for submission to the Board with a recommendation as to whether disciplinary action is appropriate.
- ◆ Where appropriate, coordinate with the police in order for them to consider taking criminal action.
- ◆ Advise departments on how to address procedural weaknesses identified during investigation.

The Investigation Process

The purpose of any investigation is to establish the facts in an equitable and objective manner.

The process will involve the use of authority or delegated powers to:

- ◆ screen allegations or information to gauge their credibility;
- ◆ secure all evidence;
- ◆ interview suspects;
- ◆ interview witnesses;
- ◆ take statements; and
- ◆ coordinate with departments or other agencies (including the police).

The Superintendent/designee will establish and record the basis of the concerns raised and establish what further actions are required. The Board will be informed of all reported disclosures and the actions being taken. In the case of disclosures on alleged fraud and corruption, the Chief Financial Officer will inform the District's external auditors.

Whenever possible, the individual raising the concern will be advised of the outcome of the investigation. If an individual is not satisfied with the response received and any subsequent action taken, they should put their concerns in writing to the Superintendent who will arrange any further investigation as he/she deems appropriate. The Superintendent will send a written response to the individual concerned.

Reporting Suspicions

If fraud or corruption is suspected, then the matter should be reported without delay. Employees should report suspicions to a supervisor at the outset and retain all evidence. However, if it is thought the supervisor might be involved or there may be a conflict of interest, the matter should be reported directly to a more senior administrator.

It is recognized that for some individuals, raising a concern under this procedure may be a difficult experience. All reported incidents will be investigated.

All reports will be dealt with in confidence, with staff being informed on a need to know basis only.

To ensure that this policy is adhered to, and to assure staff that the concern will be taken seriously, the District will:

- ◆ not allow the person raising the concern to be retaliated against for doing so;
- ◆ treat retaliation against whistle blowers as a serious matter leading to disciplinary action that may include dismissal;
- ◆ not attempt to conceal evidence of poor or unacceptable practice;
- ◆ take disciplinary action if an employee destroys or conceals evidence of poor or unacceptable practice or misconduct; and
- ◆ ensure confidentiality clauses in employment contracts do not restrict, forbid or penalize whistle blowing.

Overall Objectives

The District's overall objective is to identify and maintain good practices, address weaknesses in current processes and introduce improved systems for the management of those processes. The end result is that of minimizing the amount of fraud and corruption which may occur within the system and significantly reduce the opportunity for fraud or corruption to occur in the future.

District Fund Accounts

The District will maintain the following funds for the accounting of District moneys: teachers' fund, incidental fund, capital projects fund and debt service fund. The treasurer of the District will open and maintain an account for each fund. These funds are denoted for state reporting purposes as: General Fund, Fund 1 – comprised of the Incidental; Fund 2 – the Special Revenue Fund, comprised of the Teachers' Fund; Fund 3 – The Debt Service Fund; and Fund 4 – the Capital Projects Fund.

All sums received from the county school fund and all sums derived from taxation for teachers' wages will be credited to the teachers' fund. All tuition fees, state moneys received under §162.975 and 163.031, and all other sums received from the state except as otherwise provided in this policy will be credited to the teachers' fund and incidental funds at the discretion of the Board. The portion of state aid received by the District pursuant to §163.031, which is included in the operating levy for school purposes, will be credited to the debt service or capital projects funds. Sums received from other Districts for transportation and sums received from taxation for incidental expenses will be credited to the incidental fund. All sums received from taxation or received from any other source for the erection of buildings, building additions, remodeling, or reconstruction, furnishing, for the payment of lease purchase obligations, for purchase of real estate, for sale of real estate or personal property, from insurance, from sale of bonds other than refunding bonds will be credited to the capital projects fund.

Sums received from taxation for the retirement of bonds and the payment of interest on bonds will be credited to the debt service fund. Receipts from delinquent taxes will be credited to individual funds on the same basis as receipts from current taxes. However, where such distribution of receipts from delinquent taxes would affect the previous years' obligations, distribution to the various funds will be based on the levies for the years in which the obligations were incurred. All refunds will be credited to the fund from which the original expenditure was made. Sums donated to the District will be credited to the fund from which it can be expended to meet the purpose of the donation. Sums received from any other source will be credited to the fund designated by the Board.

GASB 54

This Policy establishes guidelines to be used during the preparation and execution of the annual budget to ensure that sufficient reserves are maintained for unanticipated expenditures or revenue shortfalls. The policy is based upon a long-term perspective with a commitment to keeping the District in a strong fiscal position that will allow it to better weather negative economic trends.

Background

Statement No. 54 of the Governmental Accounting Standards Board (GASB 54) establishes accounting and financial reporting standards for all governments that report governmental funds. It establishes criteria for classifying fund balances and clarifies definitions for governmental fund types.

GASB 54 establishes five fund balance categories: Nonspendable, Restricted, Committed, Assigned, and Unassigned.

Nonspendable Fund Balance consists of funds that cannot be spent due to their form (e.g., inventories and prepaids) or funds that legally or contractually must be maintained intact.

Restricted Fund Balance consists of funds that are mandated for a specific purpose by external parties, constitutional provisions or enabling legislation.

Committed Fund Balance consists of funds that are set aside for a specific purpose by the District's highest level of decision-making authority. Formal action must be taken prior to the end of the fiscal year. The same formal action must be taken to remove or change the limitations placed on the funds.

Assigned Fund Balance consists of funds that are set aside with the intent to be used for a specific purpose by the District's highest level of decision making authority or a body or official that has been given the authority to assign funds. Assigned funds cannot cause a deficit in unassigned fund balance.

Unassigned Fund Balance consists of excess funds that have not been classified in the previous four categories. All funds in this category are considered spendable resources. This category also provides the resources necessary to meet unexpected expenditures and revenue shortfalls.

Actions Leading to Restricted, Committed, and Assigned Fund Balances

The Board of Education has the authority to set aside funds for a specific purpose. Commitments are authorized by the Board based on fund placement in the original adopted and later revised budget, as well as by the Board resolution. The passage of a resolution must take place prior to June 30th of the applicable fiscal year. If the actual amount of the commitment is not available by June 30th, the resolution must state the process of formula necessary to calculate the actual amount as soon as information is available.

Upon adoption of a budget where fund balance is used as a source to balance the budget, the Chief Financial Officer shall record the amount as Assigned Fund Balance.

The Board delegates the authority to assign amounts for specific purpose(s) to the Chief Financial Officer, Superintendent, or Business Manager.

Order of Spending

When both restricted and unrestricted funds are available for expenditure, restricted funds should be spent first unless legal requirements disallow it.

When committed, assigned and unassigned funds are available for expenditure, committed funds should be spent first, assigned funds second, and unassigned funds last.

Minimum Unrestricted Fund Balance

The Board recognizes that the maintenance of a fund balance is essential to provide for unforeseen expenses or emergencies and to provide working capital in the first several months of the fiscal year, until sufficient revenues are available to fund operations. By maintaining an appropriate fund balance, the District can avoid excessive short term borrowing and the concomitant interest expense, accumulate sufficient assets to make designated purchases or cover unforeseen expenditure needs, and demonstrate financial stability necessary to preserve or enhance its bond rating, thereby lowering debt issuance costs.

The undesignated fund balance in the operating funds will be maintained at a level sufficient to provide the resources required to meet operating cost needs, to allow for unforeseen needs of an emergency nature, and to permit orderly adjustment to changes resulting from fluctuations of revenue sources. The District will strive to maintain a minimum undesignated balance in its operating funds equal to a range of 12-20% of its prior year operating expenditures.

As part of the annual budget process, the Chief Financial Officer, Superintendent, or Business Manager will estimate the surplus or deficit for the current year and prepare a projection of the year-end undesignated fund balance. Such projection will include an analysis of trends in fund balance levels on an historical and future projection basis. Any anticipated balance in excess of the minimum undesignated general fund balance may be budgeted at the discretion of the Board. Any such action must also provide for

necessary appropriations to restore the undesignated general fund balance to the minimum balance.

If fund balances decline below the 12% floor, the Board will develop a plan to replenish the fund balance to the established minimum level within two years.

This policy will be reviewed by the Finance Committee every three years following adoption or sooner at the direction of the Board.

Example

Board Resolution- Commitments

It is hereby resolved, ordered, and directed that the District commit the following portions of its June 30th, 20XX (August 31, 20XX) General Fund unassigned fund balance.

- Be it resolved that \$XXX,XXX be committed for future capital expenditures.
- Be it resolved that \$XXX,XXX be committed for future contributions to the District's Worker's Compensation Insured Plan.
- Be it resolved that \$XXX,XXX be committed for funding of future payments to employees for compensated absences.

Petty Cash

A petty cash fund is a small amount of money (\$100.00 or less) that is managed by an administrator in order to purchase small amounts of supplies or cover unanticipated small expenses, such as materials or refreshments for emergency meetings or unexpected guests. The petty cash fund may have been obtained with a requisition to the District Finance Office, raised by a P.T.O., or from a student or community fund-raising event. The designated administrator is accountable for this fund. Funds collected in excess of \$100.00 must be processed immediately for proper deposit and are not to be held at a school site.

The petty cash fund must be used for school purposes (purchase of emergency supplies) and must be documented with receipts. If an administrator accrues out-of-pocket expenses, a requisition for reimbursement should be submitted on a monthly basis with back-up information and receipts.

Teachers may not make petty cash purchases without the prior approval of an administrator.

Petty cash should not be used as a short cut to obtain supplies except in an emergency or in cases where very small items make it impractical to order through channels.

Financial Management

State and Federal Projects

With Board of Education approval, the School District may operate various specially funded programs that must be administered in accordance with particular federal and/or state laws, regulations and other conditions for use of such funds.

The Superintendent shall be the designated District official responsible for coordinating funded projects, administering programs and ensuring that the various departments operating these programs do so within the guidelines of the particular program. The administration shall keep accurate and separate records, as required by state and federal programs, to enable the District to verify program compliance and success. The Superintendent shall keep the Board fully informed.

Staff involvement will be solicited by the administration in the planning, implementation and evaluation of programs authorized and approved within the guidelines of Title I of the Improving American Schools Act of 1994 and/or other significant legislative enactments. The vehicle for such involvement shall be determined by the administration, with the approval of the Board of Education.

Banking Services

The Board of Education has the option of annually selecting District funds depositaries or the Board may enter into a contract of one to five years duration for the deposit of District funds.

When depositaries are to be selected, the District will receive sealed proposals from banking institutions in the county in which the District is located or in adjoining counties.

In order to open new bank accounts in the District's name, the Superintendent and the Treasurer must sign the account authorization. Wire transfers of funds into District accounts must be authorized in writing by the Superintendent and Treasurer or other individual authorized by the Board. In both instances, the Superintendent may appoint a designee to sign for creation of new accounts and for wire transfers. However, such appointment must be in writing.

Financial Management

Payment Procedures

All money received by the District shall be disbursed only for the purposes for which they are levied, collected or received.

The Board will give final approval to all bills paid. Payment of bills shall be authorized by the Superintendent/designee, only after verification of delivery and satisfaction by the department or staff receiving the item(s). No payment for goods or services shall be made unless both an itemized invoice showing the name of the person or firm to whom payment is due is presented, and a receiving document bearing the signature of an authorized school employee is on file. Furthermore, the invoice must have been issued in response to an approved purchase order.

The Superintendent/designee shall audit all claims, and shall submit all invoices to the Board for approval and authorization for payment. However, payments for materials or services which are necessary for normal business operations which do not individually exceed \$500 or exceed an aggregate monthly amount of \$10,000 may be authorized by the Superintendent/designee. In addition, if cash discount or avoidance of financial penalty can be achieved, the Superintendent/designee is authorized to issue a check. In all such cases, the identity and amounts of such payments will be provided to the Board at the next regular meeting following payment. The Board will consider such payments and ratify the action taken.

Payments from Federal Awards/Cash Management

Payments from Federal awards will minimize the time elapsing between transfer of funds from the Fderal pass through entity and the disbursement of funds by the District to vendor recipients regardless of whether the payment is made by electronic transfer, or issuance/redemption of checks, warrants or payments. The District will make timely payment to contractors consistent with the terms of each specific contact. Advance payments of Federal funds will be deposited and maintained in insured interest-bearing accounts. Interest amounts of up to \$500.00 per school year will be maintained by the District to be utilized for administrative purposes. The Districts cash management of Federal funds will be consistent with requirements §200.305 of the Code of Federal Regulations.

Investments of District Funds

Policy 3160

The Board has an obligation to the citizens of the District to direct the management of District funds. The primary objective of the District's investment plan will be legality, safety, liquidity, yield and the provision of a capital base for future needs. In the management of such funds, the District adheres to the "prudent investor" rule. Investments will be made with judgment and care, under the circumstances, which persons of prudence, discretion and intelligence exercise in the management of their own investments. Funds will be managed for investment, not for speculation considering the safety of the funds invested and the probable income to be derived.

District personnel, including Board members, who are involved in the investment of District funds, will not engage in any personal business activity which could:

1. Impair their ability to make impartial decisions concerning investment of District funds;
2. Conflict with proper execution of the District's investment program; or
3. Create an appearance of impropriety.

District employees and directors involved in investment of District funds will disclose any material interests in financial institutions in which they conduct business. Such disclosure will include, but not be limited to any personal financial/investment positions that could be related to the performance of the District's investment portfolio. Similarly, District employees and directors involved in investment of District funds will not engage in personal investment transactions with the same individual with whom business is conducted on behalf of the District.

Investments will be made through banks or securities dealers who have been approved by the Investment Committee of the State Treasurer's Office. Such banks and securities dealers will have been subjected to an appropriate investigation by the staff of the State Treasurer's Office. This investigation will include, among other things, a written review of the firm's financial statements and the background of the sales representatives. All approved dealers must be fully licensed and registered FINERA Brokers/Dealers or exempt banks. Criteria used to select securities dealers include:

1. Financial strength and capital adequacy of firm;
2. Services provided by firm;
3. Research service available;
4. Resume, reputation, and qualifications of sales representatives.

5. Due diligence and firm references; and
6. State government expertise.

The performance goals of the District's active investment management program, over time, should produce book yields which are greater than yields from low risk passive investments. In analyzing the results of the District's investment program, the District will calculate the book yield and total rate of return on District funds compared to the appropriate security market indexes.

The Superintendent/designee will direct the preparation of quarterly investment reports providing a summary of the District's current investment portfolio and all transactions executed since the last report.

Such investment reports will be prepared by the appropriate bank(s) or security dealers for review by the Board and the Superintendent. Investment reports are considered to be public records and will be made accessible to the public.

Criteria and procedures implementing the District's investment policy have been approved by the Board and are contained in Regulation 3160.

The District will comply with all applicable regulations issued by the Office of the Secretary – Education related to procurement activities in federal related contracts. These provisions include, but are not limited to, procurement, disposition of unused supplies, copyrights and debarred or suspended parties. Prior to purchases exceeding \$25,000, the District will review the current “Excluded Parties List” to ensure that the successful vendor is not debarred or suspended. The District will maintain a contract administration system which ensures that contractors perform in accordance with the terms, conditions, and specifications of their contracts or purchase orders. Detailed requirements for compliance are incorporated into Regulation 3165.

Federal Awards – Allowable Costs

The District assumes responsibility for ensuring that Federal funds have been expended and are accounted for consistent with Federal program regulations and approved applications. Costs are generally categorized as either direct or indirect. All coding of direct and indirect costs will generally follow the Missouri School Finance Accounting Manual.

Direct Costs

Direct costs include salaries, fringe benefits, purchased services, supplies and equipment. Direct charging of administrative or clerical staff costs will be appropriate only if all of the following conditions are met:

1. Such costs are integral to a project or activity.
2. Individuals involved can be specifically identified with the project or activity.
3. Such costs are explicitly included in the budget or have the prior written approval of the Federal Award Agency.
4. The costs are not recovered as an indirect cost.
5. These conditions may be met using a job description along with time and effort documentation.

Indirect Costs

Indirect costs are those which are not readily identified with the activities funded by the Federal grant or contract, but are nevertheless incurred for the joint benefit of these activities and other activities and programs of the District. Accounting, auditing, personnel, budgeting, purchasing and operation/maintenance of plant are examples of services which typically benefit several activities and programs for which appropriate costs may be attributed to the Federal program by means of an indirect cost allocation plan. The indirect rate cost used in calculating the indirect cost depends on whether the grant is a restricted or unrestricted.

Documentation of Personnel Costs

Charges for salaries and wages will be based upon records that reflect the work performed.

Records are required for all employees, including teachers, paraprofessionals, administrators and other staff paid with Federal funds. These records will document the time and effort such individuals spend within the program. The portion of the federally paid salary will be reflective of the actual activity, not budgeted, the individuals has

contributed for the specific Federal program. Time and effort reporting is required when any part of an individual's salary is charged to a Federal program or used as a match for a Federal program.

Purchases By and/or Solicitation of School Staff

Conflict of Interest

The School District will not purchase supplies or materials from a staff member of the School District, nor from a member of the household of the staff member, except in emergency situations as determined by the Superintendent of Schools. Neither will the District purchase supplies, materials or services from a member of the Board of Education or from a member of his/her household, or from a firm in which he/she holds a major interest.

Endorsements

Employees of the District will not endorse products or services in such a manner that will identify the employee as an employee of the School District.

Procurement Activities

In any purchasing activities all employees shall refrain from soliciting, discourage the offer of, and decline gifts if offered by any vendor wishing to do business with, or who is doing business with the School District. Instead of making an offer of gifts, the vendor should be encouraged to discount the price of the goods to the school.

Solicitation/Distribution

The advertising of sale or distribution of any goods or service on school property, for any school activity, shall have prior approval from the building principal or Superintendent. This includes but is not limited to: school personnel, students, parents/guardians, relatives, general public and commercial businesses.

Solicitations of School Staff

Agents, solicitors, and salespersons will be denied the privilege of seeing the school staff during the school day except with permission of the administration.

Financial Operations

Procurement of Professional Services

The Board of Education and the Administrators recognize that some professional services are necessary on certain occasions to assist in the governance of the District. These services include attorneys to provide legal counsel with specific expertise regarding education policy matters, architects, certified public accountants to annually audit the financial statements of the District and to provide answers to questions that arise during the course of the fiscal year. Similarly, it may be necessary to obtain financial advisory services to monitor the long range debt objectives of the District, as well as, bond counsel to address questions that arise with existing debt and various reports occasionally sought by the Missouri State Auditor and the United States Treasury branch of Internal Revenue Service and others.

While in some instances it may be possible to seek bids for the financial services and bond counsel each time a need arises, there are also numerous benefits to maintaining longer term relationships with specific professionals. Having a satisfactory relationship with a professional service provider includes fair pricing, timely delivery, dependable and sound advice concerning areas of expertise, a personality match with administrators and board members and numerous other factors. As long as the board members and administrators are comfortable with the quality of services provided, it is not essential that annual bidding occur merely to drive prices to their lowest level. By losing historical memory of any professional service provider, the District may in the long run incur more expense for the new firm to educate their representatives. On other occasions if the administrator expresses belief that service quality is slipping, expenses and fees are escalating at unacceptable levels, or any other non favorable working situation is developing, nothing in this policy is intended to preclude seeking proposals from other vendors offering similar services. The Board of Education and Administration believes that the collective expertise within the District is sufficient to judge if and when seeking alternative providers is prudent.

Every effort shall be made to obtain insurance at the most economical cost consistent with required service by obtaining quotations or by negotiations, whichever method is advantageous to the District.

The District will maintain coverage on all buildings and capital outlay contents. Coverage should be 100% without coinsurance if available.

Liability Insurance

The Board recognizes that legal actions may be initiated from time to time against the School District as a corporate entity, against the Board as a whole, against Board members as individuals, or against District officers, employees or other agents. The Board also recognizes the contribution that is rendered to the students of the District by volunteers and is mindful that legal actions may be initiated against these individuals as well.

To protect members of the Board, District officers, employees, other agents and volunteers in the performance of their duties and responsibilities, the Board will defend its Board members, officers, employees, other agents and volunteers against claims for suits arising out of the performance of their duties and responsibilities. The Board shall indemnify its Board members, officers, employees, other agents and volunteers against all financial liability or loss resulting from such claims or suits including judgments for damages, attorney's fees, fines, court costs and amounts paid in settlement of such matters and reasonable and customary ancillary costs. Ancillary costs may include, for example, travel expenses incurred by Board members or others if they must appear for a case that is being tried outside the area.

The protection provided by this policy shall apply on an occurrence basis, which means that an individual will be indemnified even though he/she is no longer a member of the Board of Education or employed by or otherwise associated with the District when the lawsuit is filed.

The Board reserves the right, however, to deny representation and indemnification to any person covered by their Board policy in any instance in which there would be no coverage under the District applicable liability insurance program in which the claim "results in civil judgment or criminal conviction for" an intentional tort, immoral conduct, violation of any criminal or civil statute or violation of Board policy or regulations or administrative order or directive, whether verbal or written.

As a prerequisite to the right of legal representation and indemnification, any person who is served with legal notice commencing any action or proceeding against him/her for which indemnification is sought is required to immediately notify the Superintendent of the legal action after receipt of such legal notice.

The District shall maintain a program of self-insurance and/or insurance coverage sufficient to provide the legal defense and indemnification described in this policy. However, the District's purchase of liability insurance does not waive the District's entitlement to sovereign immunity.

Employment Procedures

The Board of Education, upon recommendation of the Superintendent, votes on the employment of all staff members. In approving applicants the Board will be guided by the desire to obtain individuals committed to providing the highest quality education for the District's students. For Title I staff qualifications and hiring, refer to Policy and Regulation 1621 – Title I.

No person will be employed by the Board until the District obtains a clear criminal records check and a clear check of the DHSS Family Care Safety Registry. Additionally, and prior to offering employment to any teacher who had previously been employed by a Missouri school district or charter school, the Superintendent/designee shall obtain from the Department of Elementary and Secondary Education the identity of the school district or charter school that had previously employed the applicant. The District will contact the former employer to determine if such applicant had been terminated or resigned in lieu of termination; or against whom allegations of sexual misconduct had been substantiated by the Children's Division.

All persons employed by outside vendors/contractors who will have contact with students will be required to successfully undergo a criminal records and a clear check of the Child Abuse/Neglect Registry prior to contact with students. Such background checks will be performed at the vendors/contractors' expense and will, upon request, be shared with the District. All finalists for an employment position will be required to sign a release of liability authorizing prior employers, including school districts, to furnish any information about the applicant and the applicant's work performance, including but not limited to discipline records and performance evaluations. The administration may also conduct random background checks after employment. Failure to check references and prior employment for new hires prior to their start date may result in disciplinary action up to and including suspension without pay.

As part of the criminal records check, any person employed after January 1, 2005, shall submit two sets of fingerprints to be used by the Missouri Highway Patrol and the Federal Bureau of Investigation. The fingerprints shall be collected pursuant to standards determined by the Missouri Highway Patrol. All District employees who are authorized to access the Missouri Automated Criminal History Site (MACHS) will only use such criminal history information for purposes of verifying qualifications for employment. The District will not create copies of the criminal record for employment record purposes and will not disseminate the record, except as permitted by law.

The District will designate a full-time employee, who will be fully trained in the Missouri Highway Patrol's automated criminal history site (MACHS), to serve as the District

Local Agency Security Officer (LASO). The District's LASO Security Officer will be responsible for implementation and oversight of the District's Use of MACHS for all applicants. Any employee who attempts to access MACHS without authorization, improperly disseminates an applicant's criminal history record or facilitates unauthorized access to MACHS, will be subject to disciplinary action up to and including termination. Such improper use of the MACHS system constitutes an "incident" requiring reporting. Immediately upon knowledge of an "incident," the District's Local Agency Security Officer (LASO) will be notified, in writing, describing the "incident." The LASO Officer will then notify the Missouri Highway Patrol with the details of the "incident."

All vacancies should be posted for a minimum of ten (10) school days before the Superintendent may recommend a qualified applicant to the Board for employment. In an emergency situation the Superintendent may temporarily employ an applicant prior to the expiration of the posting. The temporary applicant may be considered along with other applicants for the position after the ten days. However, in order to hire a Board member's spouse, the position must have been posted for a minimum of ten (10) days. (Refer to Policy 0342 – Nepotism, Conflict of Interest and Financial Disclosure.)

The Superintendent or his designee is the person who shall respond to requests from potential employers for information regarding a former District employee. The information the District should provide is title, position, length of employment, whether the employee was terminated or resigned, and whether the District would re-hire the employee.

Additionally, when requests for information from any public school regarding a former employee against whom allegations of sexual misconduct involving a student have resulted in a determination by the Board of an actual violation of sexual misconduct pursuant to Board Policy; a resignation in lieu of termination; or allegations of sexual misconduct that have been substantiated by Children's Division, the Superintendent or his designee shall disclose to the requesting school the allegations of sexual misconduct and the findings of a Children's Division investigation.

Any school district employee who is permitted to respond to requests for information, acting in good faith, who reports authorized information, as provided in this policy or, who, in good faith, reports alleged sexual misconduct on the part of a District employee, will not be disciplined or discriminated against because of such report.

This foregoing policy is intended to comply with the Amy Hestir Student Protection Act, Senate Bill 54, including section 162.068 RSMo. The District shall provide notice of this policy to all current employees and to all potential employers who contact the District regarding the possible employment of a District employee.

Certificated Staff Contracts

Employment contracts will be in writing and will be signed by the employee, the Board president and the Board secretary. Contracts will include the amount of annual compensation and the days of service.

Certificated staff members under contract include probationary teachers, permanent teachers and administrative staff. The probationary period allows a teacher to demonstrate, and the District to assess the teacher's competence. Beginning after the initial one (1) year contract, teachers who have demonstrated their competence through performance may be offered additional contracts.

The Board may elect to employ certain certificated individuals on a part-time basis, as needed. Part-time certificated employees will be contracted on a class-by-class basis, not as a percentage of full-time employment. Part-time employees will not be provided the benefits provided to full-time employees. In addition, part-time certificated employees who do not teach at least four hours per day will not be eligible for pension benefits.

Alternative Certification

Applicants who have not successfully achieved a qualifying score on the teacher examination are issued two-year nonrenewable provisional certificates.

During the two-year provisional period, the affected teacher may gain full teacher certification by:

1. Achieving a qualifying score on the designated exam; or
2. Successfully achieving an acceptable score on the state-approved evaluation system from seven walk-through evaluations; two formative evaluations; and one summative evaluation for each of the two provisional years and being offered a third contract by the District; and
3. District recommendation to DESE that the teacher be given full teaching certification.

Visiting Scholar Certificate

The District may employ teachers with the Visiting Scholar Certification under the following provisions:

1. Verification from the District that such teacher will be employed as part of a business-education partnership designed to build career-pathways to teach in the ninth grade or higher for which the teacher's academic degree or professional

experience qualifies the teacher or employed as part of an initiative designed to fill vacant positions in hard-to-staff public schools or hard-to-fill subject areas for students in a grade or grades not lower than the ninth grade for which the applicant's academic degree or professional experience qualifies the applicant.

2. Appropriate and relevant bachelor's degree or higher, occupational license or industry-related recognized credential.
3. Completion of the application for a one year visiting scholar certificate.
4. Completion of a background check as required by state law.

Under these circumstances, Department of Elementary and Secondary Education may issue a one year visiting scholar certificate. The visiting scholar may renew their certificate for a maximum of two (2) years based upon completion or completion of the requirements listed above; completion of professional development required by the District and attainment of a satisfactory performance-based teacher evaluation.

Performance Evaluation

Certificated Personnel Performance Evaluation

The Board of Education's ultimate goal in education is to provide the highest quality educational experience to all District students. The District's performance-based evaluation system contributes to that goal by promoting the professional improvement of each staff member and, when necessary, by providing data to remove an employee whose employment is detrimental to students.

Performance-based evaluation is a process endorsed by the Board of Education for performance improvement that includes identification of performance expectations, documentation of performance, discussion of performance, development of improvement plans, and making personnel decisions based upon performance. The evaluation process for every employee is an on-going process that takes place every day. Formal, summative evaluations will be prepared and reviewed with each tenured teacher at least every other year. All other District employees will receive summative evaluations annually.

The District's performance evaluation system incorporates the seven "Essential Principles of Effective Evaluation" adopted by the State Board of Education and set out as follows:

1. Uses research-based and proven practices to measure educator performance;
2. Establishes performance indicators for educators based on their level of performance;
3. Aligns the evaluation process with an educator's probationary period to provide for an appropriate accumulation of performance data;
4. Uses student learning, based on a variety of performance measures, in the evaluation process;
5. Assesses educator performance on a regular basis and provides feedback to teachers and administrators that they can use to improve their performance through their careers;
6. Ensures evaluators are highly trained so that evaluation ratings are fair, accurate and reliable; and
7. Uses the evaluation process to guide school district policies that impact the development of educators and student learning.

Notwithstanding the State's essential principles, the major focus on the District's evaluation system is on positive learning outcomes, cognitive and affective, for District students. Educators are responsible for the positive learning outcomes for their students.

The Board recognizes the fundamental experience differences between tenured and probationary teachers. Accordingly, District evaluators will focus their attention, non-exclusively, on probationary teachers and on tenured teachers whose practices adversely affect student learning.

District evaluators will be trained and assessed on their ability to consistently evaluate educators under their discretion.

Communication with Students by Electronic Media

Employee personal communication with students, in all forms including oral and nonverbal shall be appropriate and consistent with Board policy. Personal communication shall be deemed to be inappropriate if such communication is sexual in nature; is sexually suggestive; suggests romantic activity with student or students; or is otherwise inconsistent with Board policy. Violation of this provision will result in disciplinary action up to and including dismissal.

Communications between employees and students will be primarily direct, oral or written in nature. Employee's communication with students and/or teacher's electronic media must be made available to the student's parents/guardians. While the employee need not notify their building principal of the content of the electronic communication, the employee must notify the principal, in writing, of the date and time of the communication and the identity of the student with whom communication occurred. Such notification is not required where the communication is between the teacher and his/her children or siblings.

The District does not have sufficient staff to monitor every communication between employees and students and does not, therefore, commit to monitoring such communication. Nonetheless, where there is reason to believe that an employee has inappropriately communicated with a student(s) they may require the teacher to provide access to the specific communication in question.

The District will provide official electronic media which may be utilized by employees for communication with students for dissemination of school related information (i.e. homework, practice schedules, supplemental instructional material.)

Resignation: Certificated Staff

Certificated employees who for any reason intend to retire or resign at the end of the current school year are encouraged to indicate their plans in writing to the Board as early as possible, but no later than June 1.

Resignations to become effective during the school year require a release by the Board and must be considered on an individual basis. Letters of resignation shall be submitted to the Superintendent/designee and the principal/supervisor. The letter should state reasons and an effective date for the resignation.

It is the practice of the administration to recommend to the Board those certificated employees who request to resign after June 1 and prior to July 31 be released from their contracts when there is good cause determined by the Board. After July 31, a certificated employee may petition the Superintendent to recommend a release from his/her contract for extremely unusual reasons. Should the Superintendent decline to recommend a release and the certificated employee leaves the District, the District reserves the right to pursue any and all legal options available to it.

Employees with Communicable Diseases

An employee may be excluded from work if the employee (1) has, or has been exposed to, an acute (short duration) or chronic (long duration) contagious or infectious disease, and (2) is likely to transmit the contagious or infectious disease, unless the Board of Education or its designee has determined, based upon medical evidence, that the employee:

1. No longer has the disease.
2. Is not in the contagious or infectious stage of an acute disease.
3. Has a chronic infectious disease that poses little risk of transmission in the school environment with reasonable precautions.

School officials may require an employee suspected of having a contagious or infectious disease to be examined by a physician and may exclude the employee from work, in accordance with the procedures authorized by this policy, so long as there is a substantial risk of transmission of the disease in the school environment.

Employees with acute or chronic contagious or infectious diseases have a right to privacy and confidentiality. Only staff members who have a medical reason to know the identity and condition of such employees will be informed. Willful or negligent disclosure of confidential information about an employee's medical condition by staff members will be cause for disciplinary action.

The District will implement reporting and disease outbreak control measures in accordance with the provisions of Missouri Department of Health publication PACH-16, "Prevention and Control of Communicable Diseases: A Guide for School Administrators, Nurses, Teachers and Day Care Operators," a copy of which shall be on file in the office of the Supervisor of Health Services and in the office of each school nurse.

The District is committed to provision of a quality education in a transparent and supportive environment. Employees who engage in certain discussions of District operations; disclosure of alleged prohibited activities or testimony before a court, administrative, or legislative body will not be subject to disciplinary action as provided in this Policy 4865. The protection of this policy extends to dismissal, demotion, transfer, reassignment, suspension, reprimand, warrant of such disciplinary action, withholding of work irrespective of whether such action affects the employees' compensation.

The following categories of employment activity are protected under this policy.

Discussion of District Operations

Employees are protected in discussing the operations of the District with any member of the legislature, state auditor, attorney general, a prosecuting or circuit attorney, a law enforcement agency, news media, the public or any state official or body charged with investigating any alleged misconduct described in this policy. Such protection will not restrict or preclude the administration from disciplining an employee who knew the information discussed was false; the information was closed or confidential under law, or when the discussions relate to the employee's own violations, mismanagement, a gross waste of funds, abuse of authority, or endangerment of public health or safety.

Disclosure of Prohibited Activity

Employees are protected in making disclosures of any prohibited activity under investigation or any related activity, or for the disclosure of information which the employee reasonably believes demonstrates:

- Violation of any law, rule or regulation.
- Mismanagement, a gross waste of funds or abuse of authority, violation of policy, waste of public resources, attention of technical findings, or communication of scientific opinion, breaches of professional ethical census, or a substantial and specific danger to public health or safety, if the disclosure is not specifically prohibited by law.

Similarly, no employee will be required to give notice to a supervisor prior to disclosing any activity set out in this subsection.

Employees are protected in their testimony before a court, administrative body, or legislative body regarding an alleged prohibited activity or disclosure of related information.

Limitations on Protected Activity

The employee protections set out in this policy will not prohibit:

- A supervisor from requiring employees to inform the supervisor concerning legislative requests for information; the substance of testimony made or the substance of testimony to be made to legislators on behalf of the District.
- A supervisor may preclude an employee from leaving their assigned work area during normal work hours or without complying with the applicable rules, regulations and policies. However, this limitation will not apply when an employee is requested by a legislator/legislative committee to appear before such legislative committees.
- A supervisor from disciplining an employee who represents his/her personal opinions as the opinion of the District.
- A supervisor from disciplining an employee who discloses or discusses information the employee knew was false; the information is closed or is confidential under the provisions of the open meetings law or any other law; or the disclosure relates to the employee's own violations, mismanagement, a gross waste of funds, abuse of authority or the endangerment of public health or safety.

Drug Free Workplace

The unlawful possession, use or distribution of illicit drugs and alcohol on school premises or as a part of school activities is strictly prohibited. Similarly, CBD and similar products are prohibited on school premises and at school activities. Analysis of the strength and presence of unacceptable levels of psychotropic content are at best unreliable. Use of such products may jeopardize the safety of staff and students who are under staff supervision.

Employees under the influence of alcohol, drugs, or controlled substances while on duty are a serious risk to themselves, to students and to other employees. Employees who display physical manifestations of drug or alcohol use while on duty, may be subject to drug testing. As a condition of employment, all employees must abide by the terms of this policy. Employees who are convicted of a drug offense which occurred on school premises or while on duty must notify the Superintendent of their conviction. Notification must be made by the employee to the Superintendent within five (5) days of the conviction. Within ten (10) days, the Superintendent will provide notice of such violation to the Impact Aid Program, United States Department of Education, or other appropriate government agency.

The District will institute a drug-free awareness program to inform employees of:

1. The dangers of drug and alcohol abuse in the workplace.
2. This policy of maintaining a drug-free workplace.

The confidential nature of the medical records of employees with chemical dependency shall be preserved in the same manner as for all other medical records.

The District's responsibility for chemical dependency is limited to its effects on the employee's job performance. If the employee violates this policy, refuses to accept diagnosis and treatment, or fails to respond to treatment, and performance is adversely affected, the employee will be subject to employment action in proportion to the performance problem. Implementation of this policy will not require or result in any special regulations, privileges or exemptions from the standard administrative practice applicable to job performance requirements.

Upon the request of the Department of Elementary and Secondary Education or an agency of the United States, the District shall certify that it has adopted and implemented the drug prevention program described in this policy, in the form required by such agency. The District shall conduct a biennial review of this policy to determine its effectiveness, implement necessary changes, and to ensure that the disciplinary sanctions are consistently enforced.

It shall be a violation of this policy for any employee to possess, use, manufacture, distribute, or be under the influence of medical marijuana in any manner inconsistent with Missouri state law and applicable regulations. Additionally, employees may not be under the influence of marijuana while they are (i) acting in the scope of their employment, whether on District property or off, or (ii) present at any school- or District-sponsored or sanctioned event such as athletic events or conferences. Removal of Lead from Water Supplies

Beginning the 2023-24 school year, the District school will provide drinking water in a large enough quantity to meet the drinking needs of student and staff with a lead concentration level below five parts per billion.

On or before January 1, 2024, the District school will:

1. Conduct an inventory of all drinking water and all outlets used for dispensing water for cooking or for cleaning cooking and eating utensils.
2. Develop a plan for testing each inventoried outlet (above) and will make the plan available to the public; and
3. Provide general information on the health effects of lead contamination and additional informational resources to employees and parents upon request.

A priority will be assigned to District schools which house early childhood education programs, kindergarten and all elementary schools.

Before August 1, 2024, the District school will:

1. Perform all testing for lead annually and thereafter using first draw and follow-up flush surplus of a random sampling of at least 25% of remediated drinking water outlets until all remediated sources have been tested as recommended by the EPA.
2. Make all test results and any lead remediation plans available on the school's website.
3. Remove and replace any drinking water outlets that the EPA has determined are not lead free as provided in the Lead Contamination and Control Act except for drinking water outlets and water coolers that have been determined to be dispensing drinking water with a lead contamination level less than five parts per billion.

If testing indicates that the water source is causing the contamination and until such time that the source of the contamination has been remediated the affected school will:

1. Install a filter at each point at which the water supply enters the building.
2. Install a filter that reduces lead in drinking water on each water outlet inventoried to ensure lead contamination are below five parts per billion.
3. Provide purified water at each water outlet inventoried.

If testing in any District school indicates that internal piping is causing the contamination, the following items will be put in place until the contamination has been remediated:

1. Install a filter at each point at which the water supply enters the building.
2. Install a filter that reduces lead in drinking water on each water outlet inventoried to ensure lead contamination are below five parts per billion.
3. Provide purified water at each water outlet inventoried.

If a pipe, sodder, fitting or fixture is replaced as part of remediation and the replacement will be lead free, which under Federal regulation means containing less than 0.2 percent lead.

If a test result exceeds five parts per billion, the affected school will:

1. Contact parents and staff by written notification within seven (7) business days after receiving the test result. The notification will include:
 - a. Test result and summary explanation of the test result.
 - b. Description of any remedial steps taken; and
 - c. Description of general health effects of lead contamination and community specific resources.

In such instance, the district will also provide, at affected school(s), bottled water if there is not enough drinking water from uncontaminated outlets to meet the drinking needs of the students and staff. No District school constructed after January 4, 2014 will be required to install, maintain or replace filters.

Testing

If in the ten (10) years prior to the 2023-24 school year, a fixture tested above five parts per billion for lead such fixture does not need to be retested for lead, but remediation will begin on such fixture.

The District will annually report to the Department of Health and Human Services the results of annual testing.

A District school whose testing does not find a drinking source with a lead concentration above, the acceptable level will only be required to test every five (5) years.

For school year 2022-23, the District may elect to test samples of potable water in District facilities serving students under first grade in buildings built prior to 1996. The purpose of such testing would be to determine the presence of and quantity of lead. If election to test is made, the District will submit sample(s) to a department of health approved laboratory for analysis for the presence of lead. Written sampling results will be submitted to the Department of Health within seven (7) days of receipt.

If any of the submitted samples exceed standards set by the U.S. Environmental Protection Agency (EPA), the District will promptly notify by written or electronic

communication to the parents/guardian of all enrolled students. Notice to parents/guardians will include the:

1. Sampling location within the building.
2. EPA's website for information for lead in the drinking water; and
3. The specific lead level in each testing site.

If any of the samples are at or below five parts per billion, parental notification may be made by posting on the District's website.

Services for Students with Disabilities

The District does not utilize a separate curriculum for students with disabilities. It is the policy of the District to implement a program of regular and special education based on the individualized needs of each disabled student. The District will provide special education and/or related services to students with disabilities in accordance with applicable law, including the IDEA, its implementing regulations, the Missouri State Plan for Part B of the IDEA, Section 504 of the Rehabilitation Act of 1973, its implementing regulations, and Title II of the Americans with Disabilities Act.

For students identified as disabled under the Individuals with Disabilities Act (IDEA), each student's IEP team will develop an Individualized Educational Plan (IEP) that will address how that student's disability affects that student's involvement and progress in the general curriculum. Each student's IEP team also will, in accordance with IDEA, create an IEP that includes a statement of the special education, related services and supplementary aides and services that will enable the student to be involved in and make progress in the general educational curriculum.

As provided in student's individualized education program (IEP), students will receive instruction in Braille or the use of Braille. However, the student's IEP team will determine, after an examination of a student's reading and writing skills, needs and appropriate reading and writing media, including an evaluation of the student's future needs for instruction, if the use of Braille is appropriate.

Service Animals in Schools

This policy governs the presence of service animals in the District's buildings, on school property (including school buses), and at school activities. The Board of Education adopts this policy to ensure that individuals with disabilities are permitted to participate in and benefit from District programs, activities and services, and to ensure that the District does not discriminate on the basis of disability.

Students and/or adults with disabilities may be accompanied by a service animal as defined by federal and Missouri law on school property, in school buildings, and at school functions as permitted by law and subject to the conditions of this Policy.

Service Animals

Under federal law, a "service animal" means "any dog that is individually trained to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual or other mental disability." Other species of animals, whether wild or domestic, trained or untrained, are not service animals for the purposes of this definition (See, however, provisions on miniature horses below). The work or tasks performed by a service animal must be directly related to the handler's disability. The crime deterrent effects of an animal's presence and the provision of emotional support, well-being, comfort, or companionship do not constitute work or tasks for the purposes of this definition.

Under Missouri law, the term "service dog" is defined as a dog that is being or has been individually trained to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual, or other mental disability. Service dogs include but are not limited to: guide dogs, hearing dogs, medical alert or response dogs, mobility dogs, and mental health service dogs or psychiatric service dogs. Under Missouri law, "mental health service dog" or "psychiatric service dog" is defined as: a dog individually trained for its owner who is diagnosed with a psychiatric disability, medical condition or developmental disability recognized in the most recently published Diagnostic and Statistical Manual of Mental Disorders (DSM) to perform tasks that mitigate or assist with difficulties directly related to the owner's psychiatric disability, medical condition, or developmental disability." An emotional support dog, whose purpose is to provide comfort or companionship does not meet the definition of a service dog under Missouri or federal law.

The District will permit the use of a miniature horse as a service animal if: (1) the miniature horse has been individually trained to do work or perform tasks for the benefit of an individual with a disability.

In determining whether to permit the use of a miniature horse as a service animal, the District will consider: (1) the type, size and weight of the miniature horse and whether the facility can accommodate these features; (2) whether the handler has sufficient control of the miniature horse; (3) whether the miniature horse is housebroken; and (4) whether the miniature horse's presence compromises legitimate safety requirements that are necessary for the safe operation of the facility. All additional requirements outlined in this Policy which apply to service animals, shall apply to miniature horses.

If an individual with a disability requests to use a service animal in a District building, on District property, in a District vehicle or at a District function, the District will not ask about the nature or extent of the person's disability. However, the District may make the following inquiries to determine whether an animal qualifies as a service animal: (1) whether the animal is required because of a disability; and (2) what work or task the animal has been trained to perform. The District may not make these inquiries when it is readily apparent that an animal is trained to work or perform tasks for an individual with a disability.

The District will not require documentation, such as proof that the animal has been certified, trained, or licensed as a service animal.

Misrepresentation of Service Dogs

In accordance with Missouri law, a person knowingly misrepresenting a dog as a service dog for the purpose of receiving accommodations of the Americans with Disabilities Act will be guilty of a class C misdemeanor and shall be civilly liable for damages resulting from such misrepresentation.

1. Language Minority (LM) - students who come from a background where English is not the student's first language, or where the primary language of the home is not English or both.
2. Limited English Proficient (LEP) - Students whose English language skills are insufficient to lead to success in an English-only classroom.

The District will also take steps to ensure to the maximum extent practicable that the interests of ELL students are included in the development and implementation of District programs and services that are offered by the District to and for its student body.

School personnel enrolling ELL students are trained in the process of identifying, assessing and providing services to these students.

To ensure that parents/guardians are properly notified of the ELL program, all new and enrolling students are to be given the Student Home Language Survey (Form 6180). The form shall be completed and returned to the school. Students will be given the WIDA assessment, NWEA assessments, and DIBELS assessments.

Where the District has or may have in the future a low number of ELL students, the District may contract with a neighboring district for services until a qualified ELL teacher is employed. However, if the District serves twenty (20) or more ELL students, the District will employ a full-time certified ESOL teacher.

Challenged Materials

The Board has the ultimate responsibility for establishing the curriculum and for purchasing instructional and/or media materials to be used in the District. While the Board recognizes the right of students to free access to the many different types of books and instructional materials, the Board also recognizes the right of teachers and administrators to select books and other materials in accord with current trends in education and the established curriculum.

It is therefore the policy of the Board to require that books and other instructional materials shall be chosen for values of educational interest and the enlightenment of all students in the community. Instructional materials shall not be excluded on the basis of the writer's racial, nationalistic, political or religious views. Every effort will be made to provide materials that present all points of view concerning international, national and local problems and issues of our times. Books, or other instructional or media materials of sound factual authority, shall not be prescribed, nor removed from library shelves or classrooms on the basis of partisan or doctrinal approval or disapproval. The Board will strive to provide stimulating, effective materials that will be appropriate to the community's values and the students' abilities and maturity levels.

Instructional or media materials used in the District's educational program consist of various types of print and nonprint materials. Despite the care taken to select those materials deemed to be educationally useful, occasional objections to the selection of instructional materials may be made by the public. Independent Educational Evaluation Policy for Disabled Students under the IDEA

The parent or legal guardian of a student with a disability pursuant to the Individuals with Disabilities Education Act (“IDEA”) or of a student suspected of having an IDEA disability has the right to obtain an independent evaluation subject to the provisions of this policy. The parent or legal guardian has the right to an independent educational evaluation at public expense if they disagree with an evaluation or any component of an evaluation obtained or conducted by the District. The parent or legal guardian may request one independent educational evaluation in response to each evaluation completed by the District. If the parent request for an independent evaluation comes one year or more from the date of the completion of the District’s evaluation, the District may seek to complete a reevaluation prior to paying for an independent educational evaluation.

Definitions:

1. An *independent educational evaluation* (IEE) means an evaluation conducted by a qualified examiner who is not employed by the District. An independent educational evaluation must meet the educational evaluation criteria used by the District when it initiates an evaluation to the extent those criteria are consistent with the parent’s right to an IEE.

2. *Public expense* means that the District either pays for the full cost of the evaluation or ensures that the evaluation is otherwise provided at no cost to the parent. The District may, therefore, use whatever State, local, Federal or private sources of financial support are available to pay for the costs of an independent educational evaluation.

A parent is not required to notify the District prior to obtaining an IEE. However, if the parent or legal guardian requests an independent educational at public expense, the District will request that the parent provide a reason why he or she objects to the District’s evaluation. In making that request, the District may not unreasonably delay either providing the requested independent educational evaluation at public expense or initiating a due process hearing to defend the District’s evaluation.

If a parent requests an independent educational evaluation at public expense, the District will, without unnecessary delay:

- (1) Provide the parent or legal guardian with a copy of this policy and the District’s IEE procedures; and
- (2) Provide the parent with information about where an IEE may be obtained within the parameters of this policy and the District’s procedures; and

(3) (a) ensure that an independent educational evaluation is provided at public expense; or (b) initiate a due process hearing to show that the District's evaluation is appropriate or that the IEE obtained by the parent did not meet District criteria.

If the District initiates a hearing and the final decision supports the appropriateness of the District's evaluation, the parent still has the right to an independent educational evaluation, but not at public expense.

If a parent or legal guardian obtains an IEE at private expense and presents that IEE to the District, the results of that evaluation must be considered by the District in any decision regarding the provision of a free appropriate public education to the student. In addition, any IEE obtained by the parents at private expense may be presented as evidence at a due process hearing regarding that student.

Occupational education shall encompass career awareness, career exploration and career preparation to include vocational training opportunities, either within the local high school(s) and/or local area vocational and technical schools.

District vocational programs shall meet all state and federal guidelines and requirements, including the formation and utilization of advisory councils in all areas.

Libraries, Media and Technology Services

School Libraries

The Board believes that it is the responsibility of the District's library/media centers to provide materials which reflect the ideals and beliefs of religious, social, political, historical and ethnic groups, and their contributions to American and world cultures. Materials will be selected which are related to and support the District's curriculum. Selection of and access to library/media materials will be based upon the contribution to the education program and the age appropriateness of the materials.

Intellectual Access

The library/media program serves as a point of access to information and ideas for students as they acquire critical thinking and problem-solving skills. Students and educators served by the library/media program should have access to resources and services free of constraints resulting from artificial barriers. Artificial barriers should not prevent students from accessing and using resources except as defined by District policies and regulations, including but not limited to selection, acquisition and Internet usage policies and regulations.

Confidentiality

The District recognizes the need for confidentiality of school library records. Therefore, no person will release any library record of any student, faculty or other library user to any third party except as provided by law.

Such training will include Internet, cell phones, text messages, chat rooms, email and instant messaging programs. (See also Policy 6116 – State Mandated Curriculum – Human Sexuality).

D. Inappropriate Network Usage

To the extent practical, steps shall be taken to promote the safety and security of users of the District's online computer network when using electronic mail, chat rooms, instant messaging, and other forms of direct electronic communications. Evaluation Services

Evaluation of Instructional Programs

The Board of Education believes that maximizing the quality of District services and administrative decision-making requires the regular evaluation of all District programs. Evaluations may identify the success of District programs in meeting their objectives. Utilization of program evaluation should result in the improvement of District programs and will provide data for Board and staff decision-making. The Superintendent is directed to develop procedures for program evaluation and reporting.

Test Security

All standardized testing materials shall be stored, distributed and collected according to procedures that insure the security and authorized access to test booklets. The Superintendent shall designate a District test coordinator who will direct the administration and security procedures for each testing site.

Teacher Responsibilities for Test Administration

Prior to the administration of any District or State standardized test, the principal/designee will review with the teachers the testing guidelines that they and the students are to follow. The principal/designee shall distribute this policy and any other testing guidelines to all teachers, require them to sign and return one copy and keep a copy for their files.

The guidelines listed below are examples; others may be provided by the principal/designee.

1. Teachers are not to review the test questions or content prior to its being given to the students.
2. Teachers are not to give any assistance to the students during the administration of the test.
3. Teachers are to review only the purpose of the test, the directions, the time restraints and what the students are to do upon completion of the test.

Violation of these and other administrative testing guidelines by the teacher may result in disciplinary action against the teacher, up to and including termination.

Statewide Assessments

All students will participate in statewide assessments or alternate assessments as determined by a student's IEP team. The administration will annually develop an assessment schedule for the current school year. The testing schedule will list the assessment instrument to be administered and the grade level of students that will be administered each test or assessment instrument. This policy and the assessment schedule will be given to each student as well as their parent/guardian at the beginning of each school year. In addition, a copy of this policy and the assessment schedule will be available to the public in the District office during normal business hours.

Assignment of Grades

Student performance is assessed on a continual basis throughout the school year. This evaluation assesses student growth in expression of ideas, communication, achievement of educational goals, and personal growth, and development. Grades will be assigned based upon student ability, achievement, effort, and cooperation.

A disabled student's IEP team or Section 504 team may determine that his/her academic requirements, including but not limited to the requirements for achieving a specific letter or numerical grade, may be modified or altered. Under these circumstances, the IEP team or Section 504 team shall determine whether the student shall be included in the computation of class rank. Students who are not included in the class rank shall still receive a cumulative grade point average (G.P.A.) and shall be eligible for the honor roll.

If a non-disabled student is receiving homebound instruction, the principal, counselor and/or classroom teacher(s) for such course(s), in conjunction with the homebound teacher, shall determine whether the student shall be included in the computation of class rank, depending on the degree of modification or alteration to the curriculum the homebound student requires. Homebound students who are not included in the class ranking shall still receive a cumulative G.P.A. and shall be eligible for the honor roll.

Instruction for Adults

The administration will assess the needs of the community for post school programs. Where community needs are identified and where funds are available, the Board will consider initiation of specific adult education programs. In cooperation with the Department of Elementary and Secondary Education, the District will seek community assistance in raising the level of community awareness of its English language services when the District provides Adult Basic Education programs.

Office Methods and Data Management

E-mail Records and Electronically Stored Information

Any e-mails that constitute a record under District Policy and Regulation 6531 or otherwise should be retained for the benefit of the District and therefore must be saved for an extended period of time to exceed one month shall either be 1) printed and physically filed in such a way that it will be easily retrievable or 2) saved directly to a file on one of the District servers from which it will be easily retrievable. The District will regularly delete unnecessary e-mails on the District's computer system, typically, on the first school day of each month during the school year.

Until the District's e-mail system can be equipped with such capabilities, all District e-mail account holders shall regularly update their e-mail account by either saving necessary and pertinent e-mails to a District approved storage device, printing them and filing them appropriately, or deleting unnecessary e-mails from their account. This process shall become a permanent and regular occurrence if the automatic deletion process is not implemented into the District's e-mail system

Office Methods and Data Management

Records Retention/ Destruction

It is the policy of this District to effectively maintain and manage its records, including those in electronic format, and to ensure the preservation of certain records as required by both state and federal law, including the Missouri Records Retention Law and Local Record Retention Schedule for Public School Districts as provided by the Missouri Secretary of State.

For purposes of this Records Retention/ Destruction Policy, the term “record” is defined as any document, including in electronic format, which was made or received pursuant to law or in connection with the transaction of official business.

Evaluation Services**Screening for Dyslexia**

Dyslexia is a disorder that is neurological in origin, characterized by difficulties with accurate and fluent word recognition and poor spelling and decoding abilities that typically result from a deficit on the phonological component of language, often unexpected in relation to other cognitive abilities and the provision of effective classroom instruction, and of which secondary consequences may include problems in reading, comprehension and reduced reading experience that can impede growth of vocabulary and background knowledge.

In order to close the gap between struggling readers and their “normally” developing peers, the District will:

1. Identify students at risk for dyslexia or reading failure.
2. Form small groups for instruction and intervention.
3. Plan instruction and intervention.
4. Goal setting for individual student achievement.
5. Set criteria for intervention exit.

Screening

Each student, kindergarten through third grade, will annually be screened for dyslexia within the first thirty (30) days of the school year. In order to monitor progress or lack of progress, benchmark assessments will also be completed for K-3 students in the middle and at the end of each school year.

The dyslexia screening protocol set forth in this policy will also be administered to the following students:

1. K-3 Missouri transfer students who have not been previously screened.
2. K-3 out-of-state transfer students who do not have documentation of previous screening.

3. Students in grades 4 and above with a record of potential dyslexia related issues as determined by the classroom teacher or as requested by the student's parent/guardian.

The following groups are exempt from dyslexia screening:

1. Students with an existing diagnosis of dyslexia.
2. Students with a sensory impairment (visual/auditory).
3. Students with severe intellectual disabilities.
4. Students who are English Learners where screening administration and/or interpretation are not available. However, English Learners may be screened for dyslexia-related risk factors through screening in the student's native language, where feasible.

Screening Components

There is no one test that encompasses all recommended skills. The District will utilize screening tools that are both reliable and valid. However, universal screening is not sufficient to identify students with dyslexia. Universal screening can reveal specific weaknesses that are consistent with dyslexia. Monitoring a student's response to high quality reading instruction may be the best way to identify students with severe dyslexia.

The District will identify the appropriate staff to complete student screenings. These staff members may include: classroom teachers, reading interventionists, Title I teachers, reading specialists, or coaches or any combination of these individuals.

Supports and Accommodations

Once identified, students with dyslexia will be provided with the supports and accommodations tailored to meet the individual student's needs. These accommodations will derive from the following supports and accommodations.

1. General classroom instruction modifications.
2. Instructional environment.
3. Technology

4. Social/Emotional
5. Design of Classroom Assignments
6. Test and Exams.

The District will consider the specific supports and accommodations set forth in DESE's "Serving Students at Risk for Dyslexia: Guidance to LEAs."

Practicing Teacher Assistance Problems

Practicing teachers will receive two hours of in-service training during the 2018-19 school year regarding dyslexia and related disorders. Teachers employed by the District in subsequent years, who have not received this training in another district will be provided the same training by video or by in-person training.

Such in-service training should include:

1. Introduction to dyslexia and dyslexia simulation;
2. Key areas of literacy and reading intervention;
3. Screening/progress monitoring, data-based decision-making, fidelity and classroom supports.
4. Training for secondary-level staff will be tailored to the unique needs of secondary students.

Educational Specifications

To ensure that all new and remodeled facilities are designed to best implement the educational program of the School District, the Superintendent will provide for the development of detailed educational specifications to apply to the design and construction of new or remodeled buildings. The preparation of educational specifications will serve the following purposes.

1. Clarify and consolidate the thinking of the staff, administration, Board and community on the needs, desires and objectives of educational programs to be conducted within the proposed new or remodeled building.
2. Organize important information in a manner that can be easily and clearly interpreted by an architect.

When educational specifications are prepared, an introductory section will be devoted to a brief description of the community, enrollment trends, and the educational philosophy of the District. Educational specifications are detailed descriptions of the following items:

1. Activities that will take place in the building.
2. Organization of instruction and curriculum to be housed in the building.
3. Specific architectural characteristics desired.
4. Facilities needed, equipment required and space relationship to other facility elements.
5. Pertinent budget and other governing factors.

The persons involved in developing educational specifications should include: the Board, which adopts policies, approves final specifications, employs the architect and provides the budget; the Superintendent, who provides administrative leadership, interpretation and evaluation; principals, staff members, students and patrons, who utilize the facilities; and the architect, who develops architectural plans for the facility.

Consultants may be used in the development of educational specifications when deemed necessary by the Superintendent and the Board.

Procurement of Architects, Engineers, and Land Surveyors

The School District may need to engage the services of an architect, engineer, or land surveyor when capital improvement or other District needs arise. The District recognizes that hiring architects, engineers, or land surveyors who have performed acceptable work for the District in the past promotes continuity, efficiency, and quality. The District also recognizes that a construction contractor retained by the District may wish to work with a particular architect, engineer, or land surveyor with whom it has a solid working relationship. The District will observe the procedures as outlined in Regulation 7120 when selecting architectural, engineering, or land surveying services.

Under this policy, the terms architect, land surveyor, and professional include, but are not limited to, any individual, firm, partnership, corporation or other entity providing architectural, engineering, or land surveying services.

Construction Manager Selection

The Board of Education may desire to engage the services of a construction manager when planning, designing, improving, altering, repairing, or constructing a building or structure. The District recognizes the need to enter into contracts with qualified construction managers at a price the District considers to be fair and reasonable. Selection of Construction Manager At Risk

Among several construction methods available to the District is the Construction Manager at Risk method. This method will only be considered for projects when the cost is in excess of three million dollars. As opposed to the traditional construction manager method, a “construction manager at risk” assumes the risk for the construction project at a contracted price. In essence, under this method, the construction manager serves as a general contractor and as a consultant to the District regarding all phases of construction during and after the design of the project. If the cost of project exceeds the contract price, the construction manager at risk is responsible for the excess cost. Conversely, where the actual project cost is less than the contract price, the construction manager at risk receives the difference.

The District will evaluate each construction project to determine which construction method will be used.

Facilities Construction

Construction Contracts, Bidding and Awards

All facilities construction projects that exceed an expenditure of \$15,000 shall be advertised once a week for two consecutive weeks in a newspaper of general circulation located in the city or county in which the District is located. In addition to the city or county newspaper, the District may also advertise in business, trade or minority newspapers. Competitive bids shall be solicited according to state law only after the plans and specifications have been approved by the Board of Education. In order to protect the Board, each bidder will be required to submit, with his bid, a bidder's bond in an amount determined by the estimated cost of the project.

The construction contract shall be awarded to the best bidder whose bid is in accordance with the Board approved plans and specifications and has provided the required security. The Board reserves the right to waive any informalities in, or reject any or all bids or any part of any bid. No bid for the construction, alteration, or repair of any building shall be accepted if it does not conform to the Board approved plans and specifications. Notwithstanding Board policies and regulations providing for construction manager and design build methods, the District may elect to proceed with the traditional method set out in this policy.

Whenever two or more proposals or bids of equal amount are the lowest proposals submitted by reasonable bidders pursuant to the advertisement of bids, the Board of Education may award the contract to any one of the bidders as determined by exercise of discretion.

The contractor shall receive monthly payments for the work completed, less a percentage to be determined to ensure completion. The contractor will be required to submit a performance bond and a material and labor bond to the satisfaction of the Board. The final payment shall be made only after acceptance of the project by the Board of Education and completion of the items to be corrected. Lien waivers shall be provided by the contractor and his subcontractors and suppliers.

All pay requests by the contractor shall be approved by the architect prior to submission to the Board of Education for payment.

Facilities Construction

Construction Cooperative Projects with Municipalities

The Board of Education may enter into an agreement with the County in which the District is located, or with a city, town, or village, wholly or partially, for specific construction projects. Such projects may include acquisition, construction, improvement, extension, repair, remodeling, renovation and financing of sites, buildings, facilities, furnishings and equipment for use of the school district for educational purposes.

Such agreements may provide for the present or future acquisition of an ownership interest in such facilities by the District by means of lease, lease purchase, option to purchase or similar arrangements. In addition, the agreement may provide for a joint venture with the municipal authority to share the costs of acquisition, construction, repair, maintenance and operation of such facilities.

The District may wholly own such facilities or may acquire a partial interest along with an eligible municipal entity with which the agreement was executed.
