FERPA

Parents and students over the age of 18 are hereby notified of their rights pertaining to student educational records in the West Carrollton School District. Both parents have these rights under the Federal Family Education Rights and Privacy Act (FERPA) unless a court order prohibits these rights.

1. All student educational records may be reviewed and inspected.
2. Should parents or students believe any records are inaccurate, they may request an amendment to the records.
3. No personally identifiable records, other than those allowed by law, may be disclosed without prior consent. (See previous section regarding Directory Information).
4. Parents or students may file a complaint with the federal government if they believe the school district has not complied with the requirements of FERPA.

Directory Information

Under provisions of the Ohio Revised Code, the West Carrollton School District will make available, on request, "directory information."

Directory information is a student's name, address, date and place of birth, phone number, major field of study, participation in officially recognized activities and sports, height and weight if a member of an athletic team, dates of attendance, date of graduation, awards received or any other information which would not generally be considered harmful or an invasion of privacy if disclosed.

Directory information shall not be provided to any organization for profit-making purposes. Parents and adult students may refuse to allow the school district to disclose any or all directory information upon written notification to the district within 10 days after this notice has been made public.

General Notice in Regard to SB29

In accordance with Ohio Revised Code Section 3319.327, the district, either directly or through a technology provider, generally monitors the school-issued devices which include any hardware, software, devices, and accounts that a school district, acting independently or with a technology provider, provides to an individual student for that student's dedicated use. This monitoring is generally done in furtherance of educational purposes, including for instruction, technical support, or exam-proctoring. However, the district may also generally monitor where:

- permitted under a judicial warrant;
- the school district or technology provider is notified or becomes aware that the school-issued device is missing or stolen;
- the activity is necessary to prevent or respond to a threat to life or safety, and the access is limited to that purpose;
- the activity is necessary to comply with federal or state law; and/or the activity is necessary to participate in federal or state funding programs.

Monitoring may include the:

- location-tracking features of a school-issued device;
- audio or visual receiving, transmitting, or recording features of a school-issued device; *or*
- student interactions with a school-issued device, including, but not limited to, keystrokes and web-browsing activity.

In the event that one of the circumstances described above is triggered, the district will notify you within 72 hours of the access unless the notice itself would pose a threat to life or safety (in which case, it will be given within 72 hours after the threat has ceased).
