## Behind the Scenes

What an exciting time to be a Fayetteville Lion! The 2013-2014 school year has been labeled "The Year of Opportunity!" The 2012-2013 school year brought about a lot of change from new curriculum to new technology to ultimately a new cafetorium that opened just after this school year started. The school district hired several new staff members including Ms. Marburger and Coach Krebs from the previous December along with Mr. Kilpatrick, Ms. Okruhlik, Coach Dusek, Ms. Davidson and Mr. Statham over the summer.

The Fayetteville Education Foundation made a huge impact at FID over the last year. They awarded four different grants to staff in the amount of nearly \$32,000! The science department was able to get several new electronic measurement tools to help conduct experiments, Pre-K was granted money to purchase two touch screen computers, Mrs. Elam put together an amazing plan for a renovation of the courtyard that was also granted by the Foundation. Finally, the Foundation awarded the 80 Google Chromebooks for our high school students to utilize in their classes.

The addition of the Chromebooks placed FID as one of the few districts in the state that have implemented a one-to-one laptop to student initiative. I can't say that it didn't take a lot of hard work and planning from all of the staff to make this initiative happen. The "behind the scenes" preparation and training have been critical to keep the staff ahead of the game and trying new teaching and instructional techniques. I'm very proud of the way the students and staff have become trailblazers with the opportunities that have been implemented at FID. There is no reason that this school district should not be a leader in how we prepare our students for their future.

Fayetteville ISD continues to make leaps and bounds forward and we are continuing to make a name for ourselves statewide in academics and athletics. We want our students to be prepared for life after they walk across the stage and receive their diplomas. I feel that over the past few years we've helped move toward this goal. We have great students, great staff and a supportive school board that can see where we need to be.

# HIGH SCHOOL VOLLEYBALL

This year, the varsity team started their season with a bang winning 6 consecutive games. At the end of the season the varsity volleyball girls ended up being 4-6 in district with an overall season of 15-12.

Words cannot possibly describe exactly how proud I am of these girls. They went above and beyond any expectations that were had of them at the beginning of the year and I could not have asked for more. Although the season ended on a different note than we had hoped, the girls gave everything they had and left it all on the court, which to me gave us a perfect season. The five seniors we are losing will be missed and the underclassmen have big shoes to fill. I cannot thank the girls enough for giving me such a memorable first season as a head coach and I will cherish this season and its memories forever. Always remember, AMOH!

This year NHS did many activities around our school and for the community. As NHS members we show service, leadership, scholarship, and character. We worked with Mrs. Malota for the character traits respect and responsibility. We came together with Student Council to raise awareness and money for the American Heart Association. We also help the Student Council with recycling. We have also raised awareness for Diabetes by having a walk in May, and we have also collected soda tabs to raise money for the Ronald McDonald House Foundation. During the holidays, we served a Thanksgiving dinner at school, and during Christmas, we went caroling with the elementary students at community nursing homes, and made door covers for them as well. NHS also worked at the Christmas program put on by the elementary students.

A few NHS members have also volunteered at the Pine Cove Christian retreat camp in Columbus, Texas. We try our hardest to better the people in our school and in the community. All it takes is a matter of leadership.

## 20 YEARS FROM NOW...

our senior prophecy

It's the year 2034, and we have all gathered for our 20 year class reunion. Amanda and Brittany are the first to arrive. **Amanda** went on to be a food scientist, graduating from A&M. You could tell she still had her school pride when she walked in decked out in all A&M apparel with a flashy bow in her hair. **Brittany**, who became a very successful paleontologist who opened up her own museum of recently discovered dinosaur bones, was by her side.

**Karley** wasn't able to make it to the reunion, seeing as how she was a mother of three and going into labor with her fourth child. She did however go to school for teaching and became a kindergarten teacher at Fayetteville Elementary.

Fidel, Brandon, and Aaron (A.K.A. Bremer), all walk in together. **Fidel** came wearing a blue jumpsuit with oil stains covering him from head to toe. He owned his own mechanics shop where he built and prepared mopeds for competitive racing; which he sometimes participated in himself. Then there's **Brandon** wearing polka dot rainbow pants and honking his horn. He became a rodeo clown that everyone came to know and love. **Bremer**, the mean, lean running-machine went on to the 2016 summer Olympics and won a gold medal for being the fastest runner. Pursuing his love of track, he became a track coach for some of the most famous track stars today. **Haley**, followed Bremer to the 2016 Olympics as his personal sports trainer. Keeping him in tip top shape.

Logan and Ty, who we thought were inseparable both went their separate ways. **Logan** is now playing for his favorite MLB team, the Red Sox. With his love of hunting, **Ty** opened up his own guiding service, "Big Country," and gets to do what he loves everyday.

We all know **Jeri** had a love for helping out the elderly, and she had pursued a career in geriatrics.

After **Kylie** had decided to not become a foot model, she and **Katelin** both went into a neonatal nursing program and became very successful nurses.

McKenna and Julia, the fashionable ones of the class, could almost blind you with all the "bling" they were wearing. **Julia** graduated from her dream college, Tarlton, with a degree in business and opened up her own leather and craft boutique, which later on became famous world-wide. **McKenna** traveled the world selling and making jewelry for anyone and everyone.

As the night was coming to an end, miss photographer, **Erin**, gathered everyone to take one last group picture. She had landed her dream job of traveling with musicians and taking photographs of all her adventures.

Before she could snap the picture, Devon and Cody showed up yelling, "better late than never!" as they walked in. Cody, studying engineering, and Devon, studying marine biology, both attended the A&M University of Galveston. **Devon** travels from beach to beach all over the world and writes journal entries about her adventures in *National Geographic Magazine*. **Cody** studies marine engineering and builds off shore oil rigs making loads of money like he always said he would.

That's a wrap!
