HARVEST OF THE MONTH WATERMELON

- Like the pepper, tomato, and pumpkin, watermelon is **a fruit**, botanically. It is the fruit of a vine originally from southern Africa.
- Watermelon is a member of the cucurbitaceae plant family of gourds, related to the cucumber, squash, and pumpkin, so it is also **a vegetable**!
- Watermelons are about **92% water**!
- They can come in many different colors like white, yellow, green and orange.

FUN FACTS ABOUT SCHOOL FOOD

- Meals are offered at no cost to students in Clarke County again this year because of USDA's Community Eligibility Provision. This option will allow us to fund our school meals program without bothering parents about their family's income and maximize our reimbursement for meals served to students.
- Students must select complete meals for the meal to be free. The minimum requirement for a complete lunch meal is an entrée and one fruit OR vegetable side. If you come to the cashier with just an entrée and milk, they will politely ask you to go back and pick a fruit OR vegetable.
- Students can purchase single items, but they must have cash on hand or money on their meal account since there is no charging at high school.
- USDA only reimburses our program for meals served to students, so adults do need to pay for their meals in order to cover the cost of the food and labor that made the meal. However, meals at high school are still the best deal in town!
- Adult breakfast is \$2.50; adult lunch is \$4.50.
