The LEA Superintendent or his/her authorized representative assures or certifies the following:

- The LEA receiving GEER funds will provide equitable services to students and teachers in non-public schools located within the LEA in the same manner as provided under Section 1117 of the ESEA as determined through timely and meaningful consultation with representatives of non-public schools.
- The LEA will ensure that a public agency will maintain control of funds for the services and assistance provided to a non-public school under the GEER fund.
- The LEA will ensure that a public agency will have title to materials, equipment, and property purchased with GEER funds.
- The LEA will ensure that services to a non-public school with GEER funds will be provided by a public agency directly, or through contract with, another public or private entity.

Provide a brief explanation answering the following questions:

1) Were services from private schools accepted or refused in your LEA? Yes, Birmingham City Schools (BCS) did have private schools to select yes with the intent to participate in services.
2) If services were accepted by private schools, who accepted and what allocation did they receive? Birmingham City Schools has 23 participating private schools. Their allocations were calculated based on the proportional share for private schools. Each private school allocation received is listed on the school's Equitable Services Plan. This plan has been signed by the private school official and the BCS Director of Federal Programs.
3) When did private schools in your LEA receive timely and meaningful consultation? Each participating private school has been assigned a district support person to assist during this process. Consultation was held via zoom on August 18, 2020, October 9, and various times individually since. Private schools continue to receive support from their assigned district support person.
4) What services will each private school receive and when will the services be implemented? Each private school will receive services based on what was listed in their equitable services plan. Each plan has been reviewed and discussed. The expenditures included bus Wi-Fi, instructional materials, instructional software, on-line books, on-line subscriptions, supplemental reading materials, before and after school tutoring. The implementation of these services are listed in the Equitable Services Plan and range from school year 2020-2021 until the 2021-2022 school year.
5) How will GEER funds be used to improve remote learning services and support technical capacity and access at private schools within your LEA? After reviewing the Equitable Services Plans, the private schools have selected various ways to improve remote learning services such as purchasing bus Wi-Fi to ensure those students who are unable to have access to the Internet are afforded the opportunity. In addition, private schools have been strategic with the ordering of instructional software, ancillary curriculum materials, e-books, on-line subscriptions to educational magazines, and professional development all designed to enhance the teacher's ability to connect with students remotely. Additionally, some private schools will be providing before and/or after school tutoring remotely in an effort to close the achievement gaps for students who are most vulnerable due to COVID-19.
6) If a private school administrative set-aside is being taken by the LEA, what is the allocation and how will it be used? Birmingham City Schools will take a 4% administrative cost which totals $6,796.09 and apply it towards office supplies and materials to be utilized throughout the duration of the grant.
