Superintendent of Schools**

July 18, 2025

Dear Staff and Parents/Legal Guardians:

The Carle Place Union Free School District is committed to protecting the health and well-being of our students, teachers and staff. In compliance with the New York State Department of Health (NYS DOH) regulation titled *Lead Testing in School Drinking Water* (10 NYCRR Subpart 67-4), we recently performed an updated inventory of all water outlets in the school district and another round of sampling of all applicable water outlets. As you may be aware, these water outlets were previously tested in 2016 and 2020.

Sampling of potable water outlets (water outlets used for cooking or drinking) was performed by our environmental consulting and testing firm.

In accordance with this regulation and our remediation plan, any outlets which revealed concentrations of lead above the New York State's action level of 5 parts per billion have been removed from service or otherwise restricted until a proper action and/or remediation is performed.

Details regarding this testing can be referenced on the district's website. As always, if you have any questions, comments or contacts, please contact the facilities department at 516-622-6424.

Sincerely,

Dr. Ted Cannone
Superintendent of Schools
