December 2023-January 2024

OWENS' OUTREACH FROM THE DESK OF KRISTINA OWENS

SINKING FUND RENEWAL

Thank you, local voters, for your continued support of Burr Oak Community Schools! The passage of the sinking fund renewal will allow the Board of Education's facilities and finance committees to prioritize, plan, and implement projects with much needed updates to our aged facilities. We are fortunate to be in a community that supports public education and will continue to work everyday to provide our students with challenging learning experiences while supporting the whole child.

STUDENT ASSESSMENTS

We are quickly approaching the end of the second quarter and first semester. This means subject specific exams in December, and NWEA assessments to measure student progress in January when we return from the holiday break. Parents/Guardians, please check your students' grades now, and at least weekly using the ParentVue app. If you wait for report cards to give them feedback, they could already be behind and end up in credit recovery courses over the summer break.

STUDENT HANDBOOKS

The policy committee has worked diligently to review and create a new student handbook over the last few months. This handbook also serves as an athletic handbook. It is our hope that by streamlining the two handbooks into one, with the same expectations, it will be more clear for students and parents. You can find the handbook online or request a hard copy from the main office.

ATHLETICS

Bobcat fans, please be reminded that good sportsmanship is mandatory for those attending competitions. Unsportsmanlike conduct by parents/spectators will result in being removed from all athletic contests for the entire school year. This includes both home and away games. Be supportive with positive comments only towards referees, players, and parents from both teams.

Classroom News

Mrs. Lemley GSRP

November went by so fast. We learned how to recognize our classmates' names, and practiced learning our letters. December will be a very busy 3 weeks before we go for holiday break. We will be making decorations for Christmas and practicing our songs for the holiday concert. We will be talking about the weather and the change of the season to winter. We will continue to work on rhyming, patterns, numbers, letters and expressing our emotions. Mrs. Ditmer and Mrs. Lemley wishes everyone a safe and Wonderful Holiday Season!!

When we return to school we will continue to work on rhyming, patterns, numbers, letters, expressing our feelings, and writing. We will talk about the winter weather and activities. We will review our school routine and rules.

Mrs. Lutz Kindergarten

It is crazy to think that we are already almost halfway through the year! Kindergarten has been busy learning so many new things. We recently began learning about money and how to tell time, which has been super fun! The students love to create stores where they can use their fake money to purchase things in the classroom. They also love telling time and knowing when our next event will happen on the schedule. We are continuing to work on letter sounds and blending sounds which is helping them become better readers each and every day. We have also just finished up a unit on climate zones in which the students were able to pack pretend suitcases and act as if they were traveling to different climate zones. They packed weather appropriate clothing depending on where they were traveling. Four of the kindergarteners Miles, Roman, Spencer and Makiyah, will be participating in a robotics event this month which is super exciting! Mrs. Sutton has been working with them once a week and they are really enjoying it. I can't wait to see all that the students learn in the second half of the year!

Mrs. Yockey First Grade

First Grade is enjoying the changing seasons because it means the holidays are near! We have continued to work on our reading skills with different types of literature such as informational, realistic fiction, and fiction. They are working hard on stretching new words using chunks of blended letters and digraphs. They also are getting really good at writing a complete sentence with no errors and will be working on adding more sentences to their answers when given a topic. We finished the "Our Community" unit in social studies and learned all about the history behind the first Thanksgiving. They are now looking forward to learning about the Christmas holiday and traditions around the world and how they compare to their traditions at home. They also have been working daily on their Christmas program songs and are getting really good at them! I hope you all get a chance to join us for the program and see all of their hard work in action! Last but not least, the class and I would like to wish all of you and yours the very best holiday season and hope for only great things for everyone in the coming new year!

Mr. Hunt Second Grade

First grade has been learning about place value in math. They have been using base ten blocks to represent two digit numbers. In science they have been learning about sound and light waves. They learned how sound waves are made and how they travel to our ears. They learned about how light travels as well. I also like to add radio waves into this unit, which are items like cell phones, remote controls, rc cars, etc...

Second grade has been working on two digit addition and subtraction. Borrowing when subtracting was a new concept for them, but as a whole they did very well. In science they have been continuing to learn about matter. They have done a few fun experiments like making oobleck (goop), building houses that have to stand up against a hair dryer and making a device to catch an egg.

Mr. Hernandez Third Grade

We have been very busy preparing for our Christmas concert. The Third Grade class is doing a great job learning their songs for the program. They are excited to be able to perform for their family and friends. We all look forward to you joining us on Wednesday, December 20th in the High School Gymnasium.

My students are working very hard towards learning their division as well as researching and writing historical fiction stories.

I have been passing out Pizza Hut book-its to students who have reached their reading goals for the month. Keep on reading! Students have also been earning certificates for mastering levels in Xtra math. There are many favorite things that the Third Grade class enjoy during Christmas time. For Isaac, he likes to go sledding, while Harper, Madisyn and Willard enjoy decorating the Christmas tree. Landon likes to have snowball fights, Liam enjoys opening presents, Cassidy and Chance love to decorate Christmas cookies, and Lexi loves to wish her family a Merry Christmas. Aliya and Jameson like to go on vacation with their families. Karen, Rylynn, Jaxzon, Esmeralda, Ryker, Ashton, Nathen and Mr. Hernandez all love spending time with their families.

We are looking forward to a busy month of December with lots of learning. Have a safe and happy holiday!

Merry Christmas from the Burr Oak Third Grade class!

Mr. Johnson Fourth Grade

As the holiday season approaches, I wanted to take a moment to extend warm wishes to you and your family. The end of the year brings with it a time for celebration, reflection, and togetherness, and it's been a pleasure to be part of your child's educational journey during this special time.

We've had an incredible year filled with growth, learning, and cherished moments. Your children have demonstrated remarkable dedication, creativity, and resilience in their studies. Their progress and achievements have been truly inspiring. Moreover, I am immensely grateful for your continuous support and trust. Together, we strive to create an environment where your child can flourish academically, socially, and emotionally.

May this holiday season be filled with laughter, love, and joy for you and your family. Wishing you a Merry Christmas and a prosperous New Year!

Classroom News

Mr. Bucklin K-12 Physical Education

The school year is flying by as usual, and everything in P.E. is going very well. Walking Wednesday is in full swing. As a school we have logged over 400 miles walked or ran. In weight training, students are getting stronger and more confident in the lifts. Being consistent in the weight room is the most important thing when it comes to gaining strength, and that's what is happening for our Bobcat program. I am looking forward to the second half of the year and the accomplishments we achieve.

Mr. Sutton MS/HS History

The 9th grade U.S. History class is learning about the Great Depression and the New Deal. Next, students will be studying the United States involvement in World War II.

The 7th grade social studies class is finishing up the study of Asia. Students are learning about the different governments and economies found in Asia. Next, students will begin studying the characteristics of early peoples and the first civilizations.

The 10th grade World History/Geography class is studying different cultures and civilizations from around the world including Japan, India, China, and Europe. Next, students will learn about more contemporary world history as we start units on the World Wars.

The Economics class is learning about different economic systems, economic indicators, and different ways countries measure their economic success. Students will finish the semester by studying the importance of trade on an economy.

Mrs. Summey M.S. Science

The school year is flying by! Parents please remember to check student grades in ParentVue. Students are not using the time wisely to stay caught up on their work.

Sixth grade Science is learning about Weather and Climate. I hope they understand why the forecast is not always correct! They will learn why different places in Michigan get different amounts of snow.

Fifth grade Math is learning how to multiply and divide decimals and fractions. Practice those multiplication facts!! It makes math much easier!

Sixth grade Geography is learning about maps and how to read them. They have also learned about latitude and longitude and how to find places on the map using it.

Seventh grade Science is working on the rock cycle. Learning about how rocks form and why it is called a cycle. Students have brought in some very interesting rocks for us to observe!

Have a very Merry Christmas and a Happy New Year!! Make memories with family and friends.

Mrs. Rifenburgh MS Math

Middle School Arts and Crafts The second 6 weeks were spent with the other half of the 8th Grade. Many of the students in that class did not have arts and crafts last year so they enjoyed the change in topics. They finished their class making lanterns as did the other 8th grade class.

The 5th grade has now started the class and are an enthusiastic group of students. They started the class making placemats for the feast. With the holidays coming up, they will have a variety of crafts and art they can do.

8th Grade Math 8th grade students are finishing the Pythagorean Theorem and the distance formula. Next we will begin the study of slope and I think they may be even able to mesh some art in with the concepts.

7th Grade Math 7th grade students have been working with statistics and finding the Mean Absolute Deviation. They seem to have a pretty good understanding of what it is, but don't really like all the work it takes to find it. I can't blame them. We will then be moving on to percentages as this is a perfect time to work on sales and find all their Christmas wishes for the best price.

8th Grade Social Studies We are well into the study of the Constitution and the Bill of Rights. My hope is all students will have a good understanding of how the Constitution is the framework for all the laws and rights that we have as Americans have. **High School Health** We are concluding a unit on Hazardous Substances including tobacco and alcohol. We'll be covering drugs and making good social decisions before the class ends at Christmas Break.

Middle School Robotics

Middle School Robotics attended their first competition on Nov. 11 at Battle Creek Lakeview. We didn't perform that well, but we gained a lot of experience and have plans to redesign and improve its capabilities. Our next competition is Dec. 2 in Coloma. With the improvements, we are hoping for a better outcome. Wish us luck!

Wishing you all good blessings for the upcoming season.

Classroom News

Mr. Royer Wood Working/Outdoor Rec.

The study of the human species is always fascinating and so is the history of our world. Fifth grade Social Studies has completed the introduction to WWI and why it happened. Though some information was a bit shocking, it really happened and we all need to learn from it. New digital technologies made the black and white images come to life.

Wood Shop is preparing their first project and glad to be done with mechanical drawing! This is where creativity and personal enjoyment begins. Working with your hands can be very rewarding. It is special to see students develop their sense of pride during these activities.

Have a great Christmas and good luck to our student deer hunters! Be safe.

Mr. Herrmann MS/HS Math

Can you believe that the holidays are here already? Wow! All of my classes are moving at a good pace to meet the content expectations. Algebra 2 is working with quadratic functions, Algebra 1 with equations and graphs, and Geometry is working with quadrilaterals. The 6th grade is still learning about functions and what they are. My senior math class is continuing to work through a personal finance curriculum and learn to save for their futures and manage their money.

As always, my students know that my door (and email) is always open for questions and help and I hope that they continue to take advantage of this. Please feel free to email me if you want to say hi or speak with me about any concerns you may have regarding a student's progress, and thank you to all the parents who have contacted me with questions and concerns.

Mrs. Skidmore MS/HS English

Halfway through the year! I hope everyone is enjoying their holidays!

Sophomores have finished *Romeo and Juliet* and have moved onto *Of Mice and Men*.

Freshmen finished up *The Glass Castle* and moved onto reading their independent books.

Eighth grade worked hard on *The Tattooist of Auschwitz* and moved onto a poetry unit.

Seventh Grade has been finishing up with *The Boy in the Striped Pajamas*.

Fifth grade is finishing up reading their independent reading books for the year and will be moving on to, *How to Train your Dragon*.

English interventions has had fifth graders who have worked on things like, grammar, reading comprehension, and handwriting. We have made it halfway through this year somehow! Our Halloween coloring contest winner was Hanna Perry. Congrats! I will be announcing the Thanksgiving and Christmas coloring contest winner, along with the fall spelling bee winner, soon!

Mrs. Sutton MS/HS Science

Life Science - Students have been learning about greenhouse gases and their effects. We will be looking at different ways to help our environment. Students will be doing an upcycling project later in this unit.

Physical Science - We are learning about Bohr models and Lewis dot structures. This will lead to different types of chemical bonding.

Earth Science - Students are learning about rocks and minerals. We will continue doing a few hands-on activities in this unit.

8th grade - We have started our magnetic fields Amplify unit. We are using some hands-on models to help with this unit. Students use workbooks/handouts along with learn.amplify.com to learn important science concepts.

Exploratory Science - Students are building marble mazes! These will be used for our elementary students.

Mr. Ultz History of Food

History of foods 8th grade

In December the students will be making Christmas cookies and treats. In January students will be trying to improve their skills in making family style dishes.

U.S. History 8B

In late December the students will be taking a final exam on all the material covered in 1st semester. In January students will study the history of United States through 1840. Outstanding students are: Hanna P., Peyton R., Chance R., Brayden M., and Linda U.

Drama class

The class will be evaluating their successful fall play and then start choosing the next play. The next play will be March 15th and 16th. Practice will start in January.

Athletic News

From Athletic Director Ryan VanDosen

Just a friendly reminder that we are still on probation for the rest of the school year and all eyes will be on us at all sporting events both home and away. "One man practicing sportsmanship is far better than 100 teaching it."

Please be sure to stay updated with the latest scores, and upcoming games by following Burr Oak Athletics on FACEBOOK and INSTAGRAM.

If you have any questions regarding athletics at Burr Oak Community Schools please reach out to Ryan VanDosen through email at rvandosen@burroakcs.org or by calling the school at 269-489-2213 ext. 209

Please come show your support for Burr Oak Athletics!
Go Bobcats!

The Purpose of NHS is to: create excitement for academia; stimulate a desire for citizen service; build leadership skills, and develop character in students. To join NHS, students must exhibit exemplary performance in four categories: scholarship, service, leadership, and character. Students maintain a 3.5 GPA or more. We are proud to celebrate our 1st year and 2nd year members. Congratulations NHS members and families. Keep up the remarkable work!

Hernandez Highlights

Congratulations to the Varsity Volleyball players for earning MIVCA's Academic All-State Honors. (Team GPA: 3.71) We are proud of these young ladies.

Amy Ledyard, Braylyn Hernandez, Cristal Hernandez, Addison Eldridge, Sarah Hirschy, Saryia Cornejo, Brooklynn Root and Makaila Whittington.

Mr. Ultz

This was the 25th year of our school Thanksgiving feast prepared and served by Mr. Ultz and Living Skills students. We appreciate all of your hard work and dedication.

Thank You!
