Kids will design a unique pattern, building patience, focus, and creativity along the way.

#### Play with Papermaking

Squish, knead, and create! Kids will have tactile fun while making their own handmade paper using natural materials. Perfect for curious creators who love to get their hands messy and try something new!

Why buy it when you can make your own? Join us for a week of high-end DIY jewelry making where we explore the same techniques used by your favorite accessory brands.
