

Promotion, Retention and Acceleration of Students

A fixed set of criteria shall not be used to determine promotion from one grade or level to another, except at the senior high level. In general, the well being of the individual student and the well being of the group shall be the determining factors.

Retention shall be used sparingly. When considering retention of a student, the teacher shall confer with the student's parents well before the end of the school year. The teacher may recommend retention when it is clear that the student will profit.

The principal shall review each individual case and confer with parents before approving retention.

Senior High

All courses will receive 1/2 unit of credit per semester. If a student passes one semester of a class and fails one semester, he or she will receive 1/2 credit for the semester passed. In a required course, if a student fails one semester, that semester only must be taken over.
