

Acceptable Use Agreement for Internet and Other Electronic Resources

Burlington School District recognizes the value of computer and other electronic resources to improve student learning and enhance the administration and operation of its schools. To this end, the Burlington School District encourages the responsible use of computers; computer networks, including the Internet; and other electronic resources in support of the mission and goals of the Burlington School District and its schools.

Because the Internet is an unregulated, worldwide vehicle for communication, information available to staff and students is impossible to control. Therefore, the Burlington School District adopts this agreement governing the use of electronic resources and the Internet in order to provide guidance to individuals and groups obtaining access to these resources on Burlington School District-owned equipment, through Burlington School District-affiliated organizations, or connecting their own personal devices to the District's network.
