

Relations with the Armed Forces Interservice Recruiting Committee

A letter from the high school principal will be distributed to all junior, (juniors and seniors the first year) students whose names appear on the enrollment file for the last school day in September asking them to complete and return the attached non-release form if they do not want their name and address released to the Interservice Recruiting Committee. The letter will indicate to the students and their parents or guardians that the names and addresses of all junior students will be released unless the non-release form has been completed and returned to the school office within ten (10) school days following distribution of the letter. Jurisdiction for the decision to release or not release the name

and address of a student, if there is a difference of opinion between the parent/guardian and the student, will reside with the student if the student is 18 years old.

The high school will forward copies of the non-release forms to the central office on a date designated by the Superintendent of Schools. The high school office will insure that the names of all students who submitted a non-release form are removed from the students membership list for the school prior to the list being released to the Interservice Recruiting Committee. The cost of providing this information to the Interservice Recruiting Committee, including all costs of distributing letters to junior students and compiling the students membership list, will be borne by the committee. No action will be taken in any year to notify students or compile membership lists unless the Interservice Recruiting Committee has agreed, in advance, to bear such costs.

ADOPTED: October 20, 1993

REVISION DATE: March 19, 1997
