

Steve Lock Memorial Agricultural or Vocational Technology Scholarship

This scholarship is given in memory of Steve Lock who supported the idea of students with specific interest in vocational/technical and/or agricultural education, receiving financial assistance with post high school education. Steve was himself a graduate of a two-year vocational/technical education as were two of his sons. It was his belief that students interested in this area should also be able to receive financial assistance without the pressure of a high GPA or involvement in many clubs, activities etc., but instead a strong interest and motivation to improve job ready skills following high school. There are not enough mechanics, agricultural techs, welders, plumbers, electricians, LPN's, etc. in our community and elsewhere. He wanted to encourage students to go into these fields.

Applicants for this scholarship must have a strong interest in this type of profession!

Name: _____ **Address:** _____

Area(s) of Interest (example: farming, mechanical, technician etc.) _____

Do you have a school you want to attend and what is it? _____

Second Choice _____

Length of Program (circle): 1 year 2 years 4 years Other _____
