OCTOBER 11TH, 10-11 AM

Welcome to a new school year! The district's SEPAG chairs are hosting an informal meet and greet with families of FRSD who have students with special needs. The location is in the works; please reach out to sepag@frsd.us for details and to RSVP!

OCTOBER 21, 6:30-7:30 PM

Join us for an informative workshop led by a licensed Speech-Language Pathologist (SLP), where we'll explore the key components of typical/atypical development, the use of AAC communication devices, and how you can support your child's growth in this area. This session will focus on three core areas: communication devices, articulation, and receptive/expressive language.

DEC. 3, 12-1 PM VIRTUAL SESSION

This session is designed to help parents gain a deeper understanding of neurodiversity—the idea that differences in how our brains work, such as autism, ADHD, dyslexia, and others, are natural and valuable variations. Together, we'll explore how to recognize and support neurodivergent children, both at home and in partnership with schools. You'll leave with greater confidence, practical strategies, and a more compassionate lens for understanding your child's unique strengths and challenges.
*Zoom link will be provided in the RSVP link.

MARCH 4, 6:30-7:30 PM

Join us for an insightful and empowering workshop facilitated by a special educator, where we'll explore how trauma can impact your child's learning and behavior, and how you can apply trauma-informed practices to foster success at both home and school. This session will focus on understanding trauma's effects on children, creating supportive environments, and practical strategies for supporting emotional, social, and academic development.
