STUDENT SERVICES

GUIDANCE 397-6893 Ex. 211

The services of the Guidance and Counseling Department of the Exeter-West Greenwich School District are an integral part of the total educational program. The School Counseling Program has been developed to ensure that all students will acquire the competencies (knowledge, attitudes, and skills) needed in academic, career and personal/social development in order to be productive citizens of a complex, diverse and global society. Emphasis is on a cooperative approach with counselors, teachers, parents, students and community members working together to enhance the growth and development of the individual student.

The goals of the program are to help students:

- Understand the school environment
- Understand self and others
- Understand the effects of attitude and behavior
- Develop decision making and problem solving skills
- Develop interpersonal skills and communication skills
- Develop career awareness and educational goals
- Develop a sense of community

The primary delivery methods for implementation of the school-counseling program are described below:

Counseling

Individual Counseling – the guidance counselor conducts a personal and private interaction with a student in which they work together on a problem or topic of interest.

Small Group Counseling – The counselor works with a small group of students together which usually ranges in size from two to eight members. Group discussions may be relatively unstructured or may be based on structured learning activities.

Consultation

The counselor as a consultant primarily helps parents and teachers to become more effective working with others. Consultation helps parents and teachers think through problems and concerns, acquire more knowledge and skill, and become more objective and self-confident. Also included in this area is the interpretation of testing.

Coordination

Counselors serve as a liaison between teachers, parents, and support personnel, and community resources to facilitate successful student development

Case Management

Counselors provide the necessary monitoring of individual student's progress towards achieving success in academic, career, and personal/social areas.

Guidance Curriculum

Counselors developmentally and sequentially provide information, knowledge, and skills through academic, career, and personal/social development often delivered in group/classroom meeting. Counselors develop and present special guidance units, which give attention to particular developmental issues or areas of concern.

Program Evaluation and Development

Counselors continually assess the needs of their students, evaluate their programs, and make changes in the school counseling program to better meet the current, identified needs of students.

In addition to the department's initiatives referred to above, students, parents and staff are encouraged to initiate individual meetings with the counselor as needed.

NURSE/HEALTH OFFICE

(Please refer to Policy [8701](#))

The Health Office is located off the Junior High School entrance and is open from 8:15 a.m. to 2:00 p.m., and is closed for lunch from 10:25 a.m. to 10:55 a.m. and on Thursdays from 12:30 to 1:00 p.m. for Support Services. Students must obtain a pass from a teacher or an administrator to visit the health office. The certified nurse-teachers monitor and help maintain the health and safety of students and educate them on health issues. Only the nurse-teachers may administer medication.

Students are not to possess any medication – including over the counter medication.

All accidents, injuries, or illnesses must be reported. The school nurse will provide medical attention and will notify a parent or guardian if necessary. Screening for vision is done annually and referrals made in

accordance with RI State Law. Parents are asked to inform the nurse of any of their children's medical concerns, allergies, or medications.

SUBSTANCE ABUSE PREVENTION

Known as the "Task Force," the Substance Abuse Prevention Task Force is a volunteer organization concerned with promoting the general welfare of citizens of Exeter and West Greenwich by offering community-based prevention programs. The Student Assistance Office is located in a private office in the library.

TECHNOLOGY ACCESS AND USE

Knowledge and skills related to computer applications are essential parts of an education that prepares students for life after high school. In addition, computers provide access to tremendous amounts of information via the Internet. In order to take advantage of the opportunities presented by computer technology each student will be given a personal computer account including a password to access the system. Students are to remember and keep their password confidential because the office does not have a list. **(Please refer to Policy [8508](#))**

OBTAINING AND MAINTAINING ACCESS: In order to obtain and maintain access to the computer system each student must:

1. Complete the Acceptable Use form and have it signed by both the student and the parent/guardian.
2. Follow appropriate rules of conduct at all times at all computers.

LOSS OF ACCESS: Computer privileges may be revoked under any of, but not limited to the following circumstances. In addition, any of the following violations may result in further disciplinary action:

2. Accessing the computer system using another student or teacher password.
3. Altering another student's or teacher's files or programs without permission.
4. Installation of any software on home directories or file servers without permission.

Student Employment and Working Papers (Policy [8615](#))

Qualifications.

Any student who has no more than one failing grade and has a grade point average of 2.0 or more during the previous three marking periods shall qualify for a work permit.

Satisfactory School Attendance.

Any student who has been referred to and entered into the Truancy Court program due to excessive, unexcused absences during the previous three marking periods shall not qualify for a work permit. Students must also not be socially suspended to receive working papers.

EXTRACURRICULAR ACTIVITIES

When a student participates in extracurricular activities the student is held to the same standard of behavior as expected during the school day. Such activities include, but are not limited to, clubs, dances, field trips, athletic events, and practices, etc.

If a student is socially suspended, out-of-school suspended, or expelled he/she may not attend, practice, or participate in extracurricular activities. Any disciplinary action such as detention or extended day that a student faces has priority over extracurricular activities.

A student who behaves inappropriately during an extracurricular activity will face disciplinary action. Depending on the circumstances, the student may be banned from all extra-curricular activities as both a participant and as a spectator for up to one calendar year.

PARTICIPATION IN EXTRACURRICULAR ACTIVITIES, INCLUDING ATHLETICS (Please refer to Policy [8607 in the Appendix](#))

Extra-curricular activities provide space, outside of the structured academic process, where students can readily realize self-appreciation for their accomplishments. Participating individually or as a team member teaches social skills, builds student confidence and motivates enthusiasm for achieving academic success. Team sports greatly raise morale in school. For these obvious benefits, the Exeter-West Greenwich School committee regards participation in extracurricular activities as an essential element of education.

Policy Proclamation

The school committee proclaims that eligibility to participate in extracurricular activities, including athletics, shall be administered by school principals in accordance with the standards herein. The standards shall also appear in student handbooks. For Athletic eligibility, these shall be in addition to the District Athletic Handbook, and the applicable requirements of the Rhode Island Interscholastic League or the Junior High School Principal's League, as appropriate.

Scope of Policy

This policy sets forth the academic eligibility standards that students must achieve to participate in Senior High School (SHS) extracurricular activities including athletics, and the attendance and department standards required for Junior High School (JHS) students to participate in extracurricular activities and the additional academic eligibility standards that JHS students must achieve to participate in athletics. The policy also provides the opportunity to regain eligibility for students who have fallen below standards. Student participation in co-curricular activities is not subject to eligibility requirements.

ACADEMIC ELIGIBILITY STANDARDS-Senior High School Students

The academic eligibility of students shall be determined by the grades received at each previous marking period. For SHS students, the effective marking periods shall be first quarter, first semester, third quarter and final grades. The final grades shall be used to determine first quarter eligibility in the subsequent school year. To maintain eligibility, students must have:

1. No more than one failing grade in the previous marking period.
2. An average of 70.0 or above in the previous marking period.

Students with more than one failing grade or an average below 70.0 in any previous marking period, shall be suspended from extracurricular activities, including athletics, until the academic standards, 1 and 2 above are achieved in a subsequent marking period of the current school year; provided however, students who have performed below standards in a marking period may regain eligibility by successful participation in one of the academic probation programs set forth in section III of this policy.

ACADEMIC PROBATION: Administrative Academic Probation Program

A three-week Administrative academic probationary period will be available to SHS students who have a grade point average of 65 to 69 and who have no more than one failing grade in a quarterly marking period.

Probation will be available to each student only **one time** per school year. The terms of probation are listed below:

- Students will be excluded from extracurricular activities, including athletics,
- Students, working with an administrator will formalize a plan to elevate the deficient grades,
- Students will submit weekly progress reports to an administrator.
- Students' academic eligibility will be restored, at the end of the three-week probation provided the administrator is satisfied that the deficient grades have been raised to an average of 70 or higher.

The probationary period available to students whose academic deficiencies occur in the Final Grade Column of the Second Semester marking period of the school year shall be the first three weeks of the subsequent school year. Academic eligibility for these students will be restored, at the end of the probationary period provided the administrator is satisfied with the proficiency of their schoolwork (average grade of 70.).

APPEAL PROCESS: Every eligible student shall be afforded equal opportunity to participate in extracurricular activities and the athletic program. Students who feel that they have been unfairly denied eligibility to participate may appeal. Appeals for denial of academic eligibility must begin with the principal, then the superintendent, and school committee. The appeal procedure for athletic disciplinary suspension is set forth in the District Athletic Handbook.

ATHLETIC STANDARDS: (athletics only)

Athletic standards are set forth in the District Athletic Handbook. These standards require that all students who participate in athletic practices or contests shall have their own health insurance, and shall also purchase the District Student Accident Insurance Plan. In addition, a physical examination shall be required before beginning each year of participation in athletics.

SCHOOL BEHAVIOR POLICIES

DISCIPLINE STATEMENT

Exeter-West Greenwich High School has a population of approximately 460 students. The purpose of the student discipline policy is to establish and maintain a school climate in which learning for those 460 students can take place. Students in high school need to learn not only academic skills, but social skills as well. Students are expected to exhibit appropriate social skills by respecting the rights of fellow students, respecting teachers, administrators, and staff, and by displaying manners that are socially acceptable.

Sometimes a student's behavior interferes with the education of other students. Disrespect, disorderly conduct, vandalism, violence, and other inappropriate behaviors on the part of a few students can lead to an unhealthy educational climate for many students. The student discipline policy is intended to minimize those inappropriate behaviors in order to ensure a healthy educational climate for the majority of students.

In general, our society often requires that individuals are where they are supposed to be when they are supposed to be there, and doing what they are supposed to do. One of the functions of the high school is to develop these skills in our students so that they may be successful in society after graduation. In order to develop those skills in our students the discipline policy addresses such behaviors as tardiness, cutting class, attendance, and truancy.

By the time our students leave high school, many of them will have reached the age of adulthood. The decisions that they make may have far-reaching effects on their lives. The discipline policy is intended to develop in our students the ability to make mature, responsible decisions about their behavior so that they may be successful and productive participants in our society.

The entire community helps in the implementation of proper school behavior as follows:

- The family, which traditionally has the responsibility for the discipline of its members in and out of school.
- Students, who have the responsibility to respect the rights of their fellow students, to pursue their education without disturbance or interference, and who also have the responsibility to follow school rules.
- The school, which has the responsibility to offer a meaningful curriculum, to present relevant subject matter, and to teach students not only to make a living but how to live.
- Enforcement and social agencies, which have the responsibility to work with those students who perform acts of violence or vandalism.

All other spaces are on a "First come first served" basis for seniors. Parking a vehicle on Exeter-West Greenwich school grounds is a **Privilege**. Seniors have first access to parking in the Senior Lot.

Juniors and underclassmen will park behind the building on the senior high side of campus, with the rear entrance to the courtyard demarking the transition to the junior side of campus.

Students may not park on the junior high side of campus, as those spaces are reserved for junior high faculty. Students are cautioned to lock cars and take valuables with them whenever they leave the vehicle. The school is not responsible for loss or damage to vehicles or their contents while on school property.

1. **ELIGIBILITY:** Students must follow school rules - **especially attendance rules** - in order to be eligible to park in the school's parking lots. Administration makes all decisions regarding parking privileges.

CONDUCT LEADING TO DISCIPLINARY CONSEQUENCES

Students have the right to a quality education that will provide them with essential knowledge and skills necessary for them to succeed in their chosen path after graduation. In order to gain knowledge and skills students need to be in the appropriate place at the appropriate time, and the classroom environment needs to be free of disruptive behavior. The following actions will lead to detention, extended day, social suspension, out-of-school suspension, and/or other consequences depending on the situation.

Repeated infractions will result in more substantial consequences. These are not the only unacceptable behaviors.

1. Arriving late to class without an acceptable pass
2. Disrespectful behavior towards any staff member
3. Lying or being untruthful to a staff member
4. Unauthorized wandering including wandering the corridors, leaving the building (or courtyard during lunch) without permission

TEACHER DETENTION

It may sometimes become necessary for teachers to assign after-school detention to promote discipline, and to maintain an atmosphere in the classroom in which learning can take place. Teacher detention is assigned in response to inappropriate behavior by a student. If a student wants to avoid teacher detention, it is recommended that the student avoid behaviors that lead to detention.

- a. **SCHEDULING:** When a student is assigned teacher detention, the teacher will determine the date and time of the detention. Students will be given at least a 24-hour notice so that they will have time to make arrangements. Students are required to serve the detention on the date confirmed by the teacher/parent/student. It is the responsibility of the student to remember and plan to serve the detention.
- b. **APPEAL OF SCHEDULING:** If a student feels that there are acceptable reasons why s/he cannot serve on the specified date, the student may appeal to an administrator. If the administrator accepts the appeal, the administrator may trade the teacher detention for an office detention on another day. If the administrator rejects the appeal, the student will be required to serve the teacher detention on the day specified by the teacher.
- c. **FAILURE TO SERVE:** Failure to stay for teacher detention will result in the student being assigned an office detention.
- d. **ABSENCE:** If a student is absent on the day of the assigned detention, the student will be required to serve the detention on the day that the student returns to school.

OFFICE DETENTION

Office detention will be assigned in response to various behaviors listed in the Discipline section of the handbook. It may sometimes become necessary to assign office detention to promote discipline, and to maintain a safe and respectful environment within the school. If a student wants to avoid office detention, it is recommended that the student avoid behaviors that lead to detention.

- a. **TIME:** Office detention runs from 1:40 to 2:40. Students will be required to be in the office detention room on time and for the entire duration of the detention. An administrator may allow a student to perform community service rather than staying in the room to reduce a student's time in detention.

- b. **SCHEDULING:** When a student is assigned office detention an administrator has the right to assign detention within the next two days that office detention is scheduled. Students will be given at least a 24-hour notice so that they will have time to make arrangements. Students are required to serve the detention on the date specified by the administrator. An administrator may grant an exception if a student presents evidence that the student has an urgent medical, legal, or family matter that conflicts with the detention. It is the responsibility of the student to remember and plan to serve the detention.
- c. **FAILURE TO SERVE:** Failure to stay for office detention may result in the student being assigned lunch detention and social suspension until the after school detention is served. If a student is removed from office detention due to failure to follow detention room rules, then the student may be assigned lunch detention and social suspension until the after school detention is served in its entirety.
- d. **LATE:** Students are REQUIRED to report to office detention ON TIME. If a student reports to office detention late, the student will only be allowed into detention at the discretion of an administrator, and the student must serve the ENTIRE time. (e.g. The student begins a one-hour detention at 2:00 PM, that student must serve until 3:00 PM and not 2:37 PM.)
- e. **ABSENCE:** If a student is absent on the day of the assigned detention, the student will be required to serve the office detention on the day that the student returns to school. If there is no office detention scheduled that day, the student will be required to serve on the next day that office detention is scheduled.
- **Administration reserves the right to use discretion regarding all of the above.**

Social Suspension

Social Suspension means exclusion from parking on school grounds and participation in any and all extra curricular activities. Examples may include but are not limited to: Athletics, dances, talent shows, clubs, and attendance at any events/shows etc.

- **Administration reserves the right to use discretion regarding all of the above.**

OUT-OF-SCHOOL SUSPENSION (Please refer to District [Policy 8506](#))

Out-of-school suspension means that the student is excluded from school privileges including classes and all extracurricular activities for the duration of the suspension. Out-of-school suspension will be assigned when a student's behavior is so inappropriate that it becomes necessary to indicate to that student that he or she is not welcome at the school for a specified amount of time. Some students may feel that out-of-school suspension is a vacation from school, however the lesson of out-of-school suspension is that in our society there are some behaviors that will result in an individual being excluded from a group. It is hoped that during the suspension the student will reflect on his or her behavior, and will choose to return after the suspension and behave as a cooperative and productive member of the school community.

Out-of-school suspension will be assigned by an administrator in accordance with district policy. The length of time may not exceed ten consecutive school days.

All students have the right to be accepted and respected as unique individuals. Students have the right to pursue their education in an environment that is both safe and clean. Behaviors that interfere with these rights will not be tolerated, and may result in suspension.

The following conduct on school property, school transportation, or at any school-sponsored activity on or off school property may be considered for suspension. Some of these offenses may warrant expulsion and/or prosecution, depending on the severity.

1. Repeated violation of school rules will result in more severe consequences.

2. Disruptive behavior.
3. Harassment or hazing as defined in Policy [8518](#).
4. Extortion, blackmail, inciting, threatening or intimidation of students or staff members.
5. Deliberate refusal to obey a directive from a member of the school staff.
6. Disrespectful behavior towards any staff member. This includes obscenity by use of language and/or gestures directed to a staff member.
7. Unauthorized possession, selling, or use of tobacco, alcohol, or illicit drugs; or, representing a substance as tobacco, alcohol or illicit drugs for possession, sale or use.

10. Striking or assaulting a student or staff member. This includes any type of physical contact with the intent of causing bodily harm. It also includes the throwing of objects at or towards other students or staff members.
11. Possession of a firearm, or transporting a firearm to school or a school event as defined in section 921 and title 18 of the US Code and RIGL 16-21-18 and RIGL 16-21-19.

EXPULSION

Expulsion means that the student is excluded from school privileges including classes and all extracurricular activities for more than ten days. The philosophy and purpose is similar to that of out-of-school suspension, however expulsion is intended to address more severe behaviors.

Expulsion will be assigned by the School Committee in accordance with district policy. The School Committee may expel a student from school if the committee finds that the student's conduct endangers persons or property, is seriously disruptive to the educational process, or is in violation of a School Committee policy.

- **Administration reserves the right to use discretion regarding all of the above.**
