- Update the drainage on the football field
- Install watering systems on the football and soccer fields
- Grade and resurface football and soccer fields with improved natural grass
- Envisioneering/Woodshop/CAD Area Renovation & Expansion

A MESSAGE FROM THE BOARD OF EDUCATION

Dear Community Members,

As part of the District's ongoing commitment to preserve and enhance the community assets at Portville Central School, the Board of Education has initiated a Capital Project for improvements to Portville Central School's Main Building, and facilities. The proposed project has no anticipated local tax increase. The proposed project will be considered by District residents in a vote on **May 21, 2024**.

As part of the work that was done to prioritize the work to be performed during this capital project, the Board of Education explored the possibility of installing artificial turf. It was decided at this time the best path forward financially and for the health and wellness of our students that committing to having exceptional natural grass was the best path forward.

The Board of Education, along with School Administration, have worked together to assure the priorities of this project have struck a balance between the continued enhancement of student programming and the needs of taxpayers.

Sincerely,
The Board of Education
Portville Central School
