# Baechtel Grove Middle School 2022-2023 School Accountability Report Card (Published During the 2023-2024 School Year) 

## General Information about the School Accountability Report Card (SARC)

SARC Overview

## DataQuest

## California School Dashboard

## Internet Access

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at https://www.cde.ca.gov/ta/ac/sa/.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at https://www.cde.ca.gov/fg/aa/lc/.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest is an online data tool located on the CDE DataQuest web page at https://dq.cde.ca.gov/dataquest/ that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

The California School Dashboard (Dashboard) https://www.caschooldashboard.org/ reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

## 2023-24 School Description and Mission Statement

Mission: Baechtel Grove Middle School is devoted to fostering a culture rooted in community, equity, and kindness; where high standards, purposeful learning, and inclusive classrooms promote the development of individuals into lifelong learners.

At Baechtel Grove we are dedicated to instructing students according to the California Common Core State Standards. Our English Language Arts/English Language Development (ELA/ELD) and Math curricula offer explicit guidance on the Math Common Core Standards, along with pertinent reading materials for Language Arts. Both programs incorporate an online instructional component aimed at bolstering student success. Through the implementation of Foss Science Units, students actively apply the Next Generation Science Standards (NGSS), engaging in real-world experiences that foster a profound comprehension of science. As a school, we emphasize student participation in the scientific method through Science Fair projects. The district adheres to the Gradual Release of Responsibility lesson model, also known as the Willits Instructional Model.

Baechtel Grove Middle School is unwavering in its commitment to fostering a secure and respectful learning and working environment. We adamantly oppose any conduct that jeopardizes the safety and well-being of students and staff or disrupts the teaching and learning process. To achieve this goal, we actively teach and support students in cultivating behaviors that contribute to a culture of safety, security, and tranquility. We have established school-wide expectations for students, detailed in our "Student/Parent Handbook" available on our website at https://www.willitsunified.com/o/baechtel.

## A. Conditions of Learning State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

The CDE published the first year of available teacher data for the 2020-21 SARC in June 2022, and the CDE published the second year of data for the 2021-22 SARC in June 2023. The EC Section 33126(b)(5) requires the most recent three years of teacher data to be requested in the SARC, as data is available. The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included in the template.

Note: The data in this table is based on Full-Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. ## School Facility Conditions and Planned Improvements

The school is maintained in good condition according to the Williams review document. The underlying problems display themselves mostly as symptoms on these inspections. Those underlying core problems are aging buildings, extensive deferred maintenance and basic systems failing. These problems are the results of a lack of available resources over many years. Cleanliness of our facilities has been a priority at Baechtel Grove during this year. Many creative solutions implemented by staff have kept aging systems operating. They take great pride in providing the best facilities possible within the limits of the resources the district has available. Student responsibility to this end is a significant part of the code-of-conduct. A custodial

crew of two maintains a regular cleaning and maintenance schedule throughout the school. Larger maintenance projects are handled on an as-needed basis by the district maintenance staff. The playground, play fields, and planting beds, and other vegetation are maintained by a half-time groundskeeper. The exterior of the buildings are painted during the summer. In 201011 the Willits community passed a bond measure to address four major areas of improvement to the school; modernize the library multimedia center, provide expanded music rehearsal space, improve student access and safety, playground improvements, provide visitor parking, and provide a photovoltaic system. Construction was completed in October of 2013. Pride graphics were added to the girls' bathroom in 2017-2018 by student and adult artists. The community did pass a bond measure in this 2020 election and has used the funding to bring major repair to the school site; complete window replacement to the cafeteria and main office building, and roofs in all buildings were replaced. More maintenance repairs are scheduled for the next two years.

## B. Pupil Outcomes

## State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

## Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. Smarter Balanced Summative Assessments and CAAs for ELA in grades three through eight and grade eleven.
2. Smarter Balanced Summative Assessments and CAAs for mathematics in grades three through eight and grade eleven.
3. California Science Test (CAST) and CAAs for Science in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

## College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

## Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

## 2022-23 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus
the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

## CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.
Science test results include the CAST and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. ## B. Pupil Outcomes

## State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

## 2022-23 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT during 2021-22 and 2022-23 school years, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

## C. Engagement

## State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

## 2023-24 Opportunities for Parental Involvement

Collaboration with families plays a pivotal role in fostering student success. The school consistently communicates with parents, providing ongoing updates on their child's progress. Various traditional avenues for parental involvement on campus are available, including assistance with special events, contribution to the Yearbook, participation as judges for student Science projects at the BGMS Science Fair, and involvement in College and Careers Week student workshops. Opportunities extend to joining the School Site Council, participating in clubs, and collaborating with staff on school improvement initiatives.
Teachers maintain close ties with parents through a range of communication channels, including phone calls, Zoom video calls, and formal virtual or in-person meetings such as 504's, SST's, IEP's, grade level group meetings, Parent Conferences, and informal discussions. The Aeries Parent Portal allows parents to access their students' assignments. Baechtel Grove ensures parents stay informed about involvement opportunities through Parent Newsletters, weekly automated calls, the school website live feed, and an SMS reporting system. Parental engagement is actively sought in determining LCAP funding, with the Principal, Assistant Principal, Counselor, and teachers serving as contact points for parent involvement.
This is the second year of the Parent Teacher Organization at Baechtel Grove. The organization convenes monthly on campus, dedicating its efforts to further enhancing the parent/school relationship and contributing to the continued growth of our school community.
