OV HIGH SCHOOL COURSE FEES:

The **HIGH SCHOOL COURSE** fees will be billed separately from the registration fees **AFTER** the high school student schedule is confirmed and accurate. After September 1st the course fees may be paid on-line with ePay or you may wait until you receive your bill in the mail during the month of September.

Please see other side for details about specific high school course fees.

Attention High School Student Guardians

23-24 School Year Registration

In-person Registration will be held on August 3rd 9:00 am - 7:00 pm in each school building. Online registration will be open July 20 - Aug 11, 2023 for returning students. The ePay portal can be accessed to pay basic registration fees. This will include general fees that include, extra-curricular teams, behind the wheel and high school band uniform cleaning fees. High School courses that require extra lab or college fees, such as science, art and Lake Land College dual credit classes, will be billed separately in the month of September. The reason for this change in billing is because very often high school students make changes to their schedules the first week of school, which can affect the fees collected. We are hoping that this will eliminate account discrepancies. Details about payment plans and due dates will be in the September mailing.

Sincerely,

Matt Shoaff – Principal
