District OTES 2.0 Manual 2023-2024

High-Quality Student Data Verification Form

Teacher Name:

Evaluator Name:

Content Area(s):

Grade Level(s):

List sources of High-Quality Student Data used to inform instruction. Value-added data must be used as one source if available.

1.

2.

The high-quality student data instrument used must be rigorously reviewed by locally determined experts in the field of education to meet all of the following criteria:

- Align to learning standards
- Measure what is intended to be measured
- Be attributable to a specific teacher for course(s) and grade level(s) taught
- Demonstrate evidence of student learning (achievement and/or growth)
- Follow protocols for administration and scoring
- Provide trustworthy results
- Not offend or be driven by bias

AND

The teacher must use the data generated from the high-quality student data instrument by:

- Critically reflecting upon and analyzing available data, using the information as part of an ongoing cycle of support for student learning
- Considering student learning needs and styles, identifying the strengths and weaknesses of an entire class as well as individual students
- Informing instruction, adapting instruction to meet student need based upon the information gained from the data analysis
- Measuring student learning (achievement and/or growth) and progress towards achieving state/local standards

Professional Growth Plan

The Professional Growth Plan helps the teacher identify areas of professional development that will enable the teacher to enhance practice. The teacher is accountable for implementing and completing the plan. The plan must align to any district and/or building improvement plan(s). The Professional Growth Plan is developed annually. It is to be reviewed regularly and updated as necessary based on collaborative conversations between the evaluator and the teacher.

The Professional Growth Plan should reflect the evidence available and focus on the most recent evaluation and observations. The Professional Growth Plan should be individualized to the needs of the teacher. The school or district should provide for professional development opportunities and support the teacher by providing resources (e.g., time, financial). The Professional Growth Plan must be clear and comprehensive. It is aligned to the most recent evaluation results and proposes a sequence of appropriate activities leading to progress toward the goals.

Sample Pre-Conference Questions to Guide a Coaching Conversation

The questions provided are intended to guide thinking and conversation; every question DOES NOT need to be answered and may not be relevant to every observation.

INSTRUCTIONAL PLANNING

FOCUS FOR LEARNING Minimum of 2

- What content will students know/understand? What skills will they demonstrate?
- How has high-quality student data been utilized to set developmentally appropriate goals for student learning?
- What connections does this lesson make to previous and future learning, to other disciplines, to real life and/or possible careers?
- How do the activities, assessments and resources align with student needs, school and district priorities, and Ohio's Learning Standards?

KNOWLEDGE OF STUDENTS Minimum of 2

- What should the evaluator know about the student population?
- How was it determined that this is a developmentally appropriate learning activity?
- How does this lesson connect to students' experiences and/or culture?

INSTRUCTION AND ASSESSMENT

LESSON DELIVERY Minimum of 3

- How will the goals for learning be communicated to students?
- What questioning techniques will be used to check for understanding and encourage higher-level thinking?
- What collaborative and whole class instructional strategies will be used to engage all students?
- How will feedback be used to support student learning?
- What opportunities for student choice about learning paths and/or ways to demonstrate learning will be offered?

CLASSROOM ENVIRONMENT Minimum of 2

- How do you demonstrate regard for student perspectives, experiences and culture?
- How do you ensure interactions are respectful and supportive?
- How are students involved in establishing and maintaining classroom routines and procedures?

ASSESSMENT OF STUDENT LEARNING Minimum of 3

- How will you check for student understanding during the lesson?
- What potential learning obstacles might students encounter?
- What different methods of assessment are used in this lesson?
- How will you use assessment data to inform your next steps?
- What evidence does high-quality student data provide about student learning?

PROFESSIONALISM

PROFESSIONAL RESPONSIBILITIES Minimum of 2

- Discuss ways you reflect on and analyze your teaching.
- How do you collaborate with colleagues to improve student learning and instructional practice?
- How do you promote two-way communication with students? With families?

Planning for the Post-Conference

Ohio Teacher Evaluation System 2.0

Post-Conference Planning

The goal for the conference leader is to cognitively coach the teacher through the use of reflective questions.

Considerations

Before deciding which reflective questions are best matched to the educator's performance and goals, consider the following:

- What focus area(s) might be/were identified after the Formal Holistic Observation? What evidence has been demonstrated to support growth in the focus area(s)?
- What are the teacher's goals on the Professional Growth Plan (PGP)? Do the measurable indicators identified on the PGP demonstrate progress on the plan?
- What does the teacher's high-quality student data (HQSD) demonstrate about instruction and student learning?
- How has the teacher provided evidence of *use* of the HQSD to impact student learning and teacher practice?
- What further supports might this teacher need to enhance practice and demonstrate growth?

Reflective Questions

The number and type of focus area(s) (strength and/or area of growth) are determined locally.

- Record 3 to 5 reflective questions aligned to the identified focus area(s) that would enhance a strength and/or support an area of growth.
 - 1.
 - 2.
 - 3.
 - 4.
 - 5.

Three Key Elements of the Instructional Post-Conference

Conducting the Post-Conference

1. Introduction/Greeting/Establish Length
 - Review Conference Process
 - General Impression Question: "How do you think the lesson went?"
2. Focus area(s)
 - Discuss identified focus area(s)
 - Ask self-reflection question/s
 - Provide evidence from notes
 - Share resources and supports
3. Present evidence and rating connected to the rubric.

Walkthroughs/Informal Observations: Overview and Resources

Ohio Teacher Evaluation System 2.0

Overview: Walkthroughs/Informal Observations:

Observations of teaching provide important evidence when assessing a teacher's performance and effectiveness. As an evaluator observes a teacher engaging students in learning, valuable evidence may be collected on multiple levels. While many of these interactions may take place in the classroom, a more formal instructional setting, it should be noted that evidence of teacher practice is visible in many settings. Some teacher behaviors are observable in the classroom while other evidence may be obtained from formal conferences, informal conversations, and evidence of practice, as well as input from colleagues, parents/guardians and students.

As part of the observation process, ongoing communication and collaboration between evaluator and teacher help foster a productive professional relationship that is supportive and enhances a teacher's professional growth and development.

A walkthrough/informal observation is a

- Tool to inform evaluation that provides the opportunity to gather evidence of instruction over a series of short classroom visits;
- Method to allow evaluators opportunity to gather additional evidence on identified focus area(s) to enhance teacher practice;
- Process for giving targeted evidence-based feedback to teachers; and
- Means for evaluators to visit classrooms more frequently and more purposefully.

As part of the teacher evaluation system, walkthroughs/informal observations should, whenever possible, be focused on gathering evidence related to the teacher's identified focus area(s). However, evaluators are not limited to only collecting evidence on the identified focus area(s). Evaluators must ensure they have sufficient evidence to provide a Final Holistic Rating at the end of the evaluation cycle.

Guidelines for Walkthroughs/Informal Observations

Informally Observe Teachers

Teachers who are fully evaluated will have a minimum of two walkthroughs. Walkthroughs are informal observations less than 30 minutes; these may be announced or unannounced.

Informally Observe Often

The evaluator's presence in the classroom should send a positive message to teachers. Conducting walkthroughs consistently and frequently can have a positive impact on teacher practice and student learning. Find time to observe teachers at varying times of the day because what occurs in the morning can be different from what occurs in the afternoon.

Focusing on Identified Areas for Support

Focus area(s) may be determined during the required conference following the first Formal Holistic Observation or during the previous year's Final Summative Conference. The focus may be area(s) of relative strength and/or area(s) for improvement. Determination of focus area(s) should mirror the level of autonomy used to develop Professional Growth Plans:

- Teachers rated Accomplished - Self-Directed by teacher
- Teachers rated Skilled – Jointly determined by teacher and evaluator
- Teachers rated Developing – Guided by evaluator

- Teachers rated Ineffective – Determined by evaluator

Evidence gathered during walkthroughs that occur after the Formal Holistic Observation should be focused on the teacher's identified area(s) for support when applicable. Evaluators are not limited to collecting evidence on the identified focus area(s). Evaluators must ensure they have sufficient evidence to provide a Final Holistic Rating at the end of the evaluation cycle.

Make Time to Follow Up

Follow-up communication to walkthroughs is a critical component. Follow-up will often be in writing, but the evaluator should extend to the teacher an invitation to discuss any comments provided face-to-face. The evaluator may also offer resources to support teachers in enhancing their practice. If possible, evaluators should follow up with the teacher on either the same day or the next day. To impact practice, teachers should receive feedback in a timely manner.

Teacher-Driven Observations

While it is recognized that evaluators have many demands on their time, encouraging teachers to identify instructional periods for the evaluator to observe can be a means for the evaluator to collect evidence related to the teacher's identified focus area(s).

Types of Data

Data collected as evidence of teacher practice may be quantitative, qualitative, or a combination of both. Quantitative data includes measures of values or counts expressed as numbers. For example, the evaluator could use a checklist to tally the types of questions asked (higher versus lower levels). The evaluator might also chart the number and types of assessments used. Qualitative data can include scripted notes detailing patterns of activities, feedback shared and events observed. In both cases, accuracy is essential to ensure the credibility of the process and the evaluator.

Walkthroughs/Informal Observations

Ohio Teacher Evaluation System 2.0

Walkthrough: General Form

Teacher Name:

Grade(s)/Subject Area(s):

2023-2024 OTES 2.0 Timeline for Observations

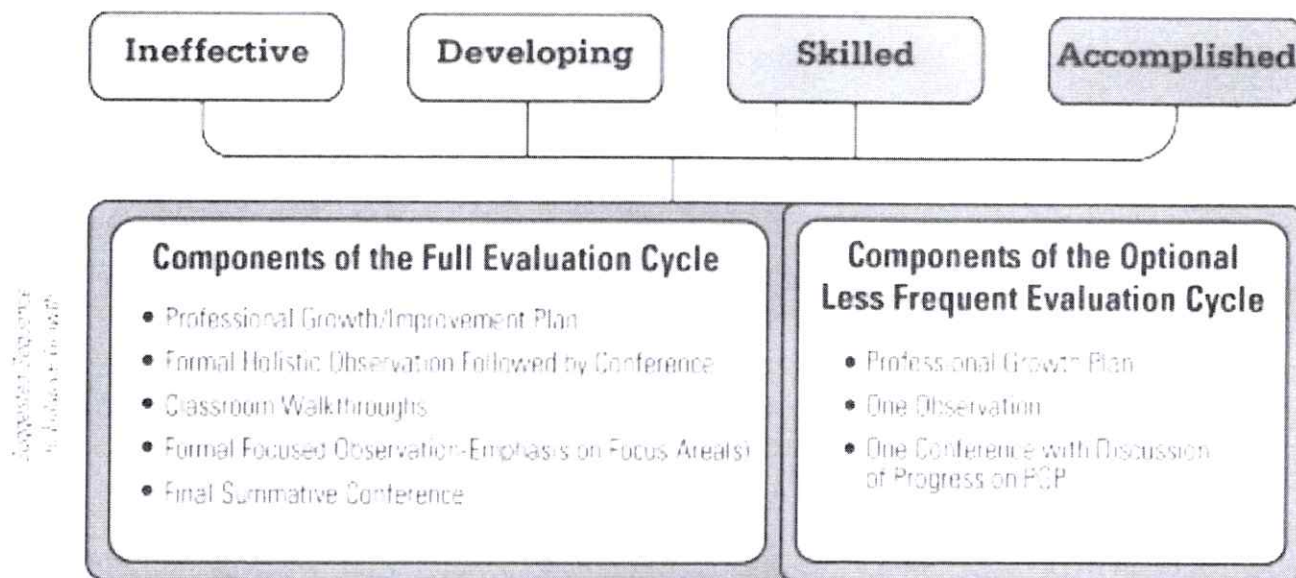

Week of Aug. 28	HQSD Verification Form
Due Sept. 8	Professional Growth Plan
Within a week of evaluation	Pre Conference if the teacher is on a full evaluation cycle
By Dec. 31	1st- Holistic Observation- announced (MIN. OF 30 MINUTES)
Within 10 days of the evaluation	Post Conference
By Dec. 31	1st- Formal Walkthrough
By March 31	2nd-Formal Focused Observation-unannounced (MIN. OF 30 MINUTES)
Within 10 days of the evaluation	Post Conference
By March 31	2nd-Formal Walkthrough
By May 1	3rd- Formal observation (if needed) (MIN. OF 30 MINUTES)
Within 10 days of the evaluation	Post Conference
Summative Rating Due	May 10
Written Notice of non renewal will be provided by ...	June 1

- Professional Growth Plans are due to building administrators by the Friday after Labor Day
 - PGP Meetings between building administrators and teachers must take place before the third Monday in October
- Full cycle -At least 2 formal observations and formal walkthroughs- 1 per semester
- One formal observation must have 24-hour notice
- First observation must be preceded by a pre-conference (if the teacher is on a full evaluation cycle)
- Teachers may request 1 postponement per year (if personal circumstances occur and if a delay would not result in an administrator missing a deadline) The teacher must get approval from the evaluator
- Post-conference within 10 days of observation
- Teachers earning "Accomplished" rating may be evaluated every 3 years
- Teachers earning "Skilled" rating may be evaluated every 2 years
- The Board may elect not to evaluate a teacher who was on leave from the School District for fifty percent (50%) or more of the school year.
- A teacher new to the District or any teacher on a limited contract who is under consideration for renewal/non renewal shall receive at least three (3) formal observations in addition to periodic (at least two (2) classroom walkthroughs unless the Superintendent waives the third observation.
- Non renewal- BOE act by May 21, 2024
 - Workshop May 7, 2024
 - Do 3rd eval in April.

Ohio Teacher Evaluation System (OTES 2.0) Framework*

The State Board of Education values the importance of promoting educator professional growth that leads to improved instructional performance and student learning. OTES 2.0 is a professional growth model and is intended to be used to continually assist educators in enhancing teacher performance. An effective professional growth model considers a teacher's instructional strengths, while supporting identified areas for improvement according to the profile of each educator. This process is to be collaborative, ongoing and supportive of the professional growth of the teacher.

Each teacher will be evaluated according to Ohio Revised Code and the *Ohio Teacher Evaluation Framework*, which is aligned with the *Ohio Standards for the Teaching Profession* adopted under state law. Using multiple factors set forth in the Framework, the teacher's Final Holistic Rating will be based upon a combination of informal and formal observations and supporting evidence using the *Teacher Performance Evaluation Rubric*.

Essential Components

Essential components of the full evaluation consist of a Professional Growth Plan or Improvement Plan, two required conferences, two formal observations of at least 30 minutes each and at least two classroom walkthroughs. See details below:

- One Formal Holistic Observation, followed by a conference;
- Walkthroughs – *with an emphasis on identified focus area(s) when applicable*;
- One Formal Focused Observation – *with an emphasis on identified focus area(s)*; and
- One Summative Conference.

Professional Growth and Improvement Plans

Either a Professional Growth Plan or an Improvement Plan will be developed annually. Each plan will be:

- Based upon the results of the evaluation; and
- Aligned to any existing school district or building improvement plan.

The local board of education may elect to evaluate less frequently each teacher rated **Accomplished** on the teacher's most recent evaluation once every three years, provided the teacher submits a self-directed Professional Growth Plan** to the evaluator, and the evaluator determines the teacher is making progress on that plan. The Professional Growth Plan shall focus on the most recent evaluation and observations. Less frequent evaluations must include one observation and one conference. Teachers with ratings of **Accomplished** may choose their credentialed evaluator for the evaluation cycle.

The local board of education may evaluate less frequently each teacher rated **Skilled** on the teacher's most recent evaluation once every two years, provided the teacher and evaluator jointly develop a Professional Growth Plan** for the teacher, and the evaluator determines the teacher is making progress on that plan. The Professional Growth Plan shall focus on the most recent evaluation and observations. Less frequent evaluations must include one observation and one conference. Teachers with ratings of **Skilled** may have input on the selection of their credentialed evaluator for the evaluation cycle.

A teacher with a Final Holistic Rating of **Developing** will develop a Professional Growth Plan** that is guided by the assigned credentialed evaluator.

A teacher with a Final Holistic Rating of **Ineffective** will be placed on an Improvement Plan developed by the assigned credentialed evaluator.

High-Quality Student Data to Inform Instruction and Enhance Practice

Choosing and using high-quality student data (HQSD) to guide instructional decisions and meet student learning needs is key in making sound instructional decisions for students. The teacher evaluation will use at least two measures of district determined high-quality student data to **provide evidence of student learning attributable to the teacher** being evaluated. When applicable to the grade level or subject area taught by a teacher, HQSD shall include the value-added progress dimension and the teacher shall use at least one other measure of HQSD to demonstrate student learning. HQSD may be used as evidence in any component of the evaluation where applicable.

It is recognized there are many types of data that can be used to support student learning, and the data include much more than just test scores. *These types of data and their uses are important and should continue to be used to guide instruction and address the needs of the whole child but may not meet the definition of high-quality student data for the purpose of teacher evaluation.*

The high-quality student data instrument used must be rigorously reviewed by locally determined experts in the field of education to meet all of the following criteria:

- Align to learning standards
- Measure what is intended to be measured
- Be attributable to a specific teacher for course(s) and grade level(s) taught
- Demonstrate evidence of student learning (achievement and/or growth)
- Follow protocols for administration and scoring
- Provide trustworthy results
- Not offend or be driven by bias

AND the teacher must use the data generated from the high-quality student data instrument by:

- Critically reflecting upon and analyzing available data, using the information as part of an ongoing cycle of support for student learning
- Considering student learning needs and styles, identifying the strengths and weaknesses of an entire class, as

Informing instruction and adapting instruction to meet student need based upon the information gained from the data analysis

Measuring student learning (achievement and/or growth) and progress towards achieving state and local

EachChildOurFuture

Additional Requirements

Teachers must be provided with a written report of the results of their evaluation.

Additionally, at the local level, the board of education will include in its evaluation policy procedures for using the evaluation results for retention and promotion decisions and removal of poorly performing teachers. Seniority will not be the basis for teacher retention decisions, except when deciding between teachers who have comparable evaluations.

The local board of education will provide for the allocation of financial resources to support professional development for all teachers. The local board of education will also ensure that poorly performing teachers are provided with professional development to accelerate and continue teacher growth.

* The **Ohio Teacher Evaluation System 2.0 Framework** represents the required basic structure of the teacher evaluation system. For additional guidance, please see the **Ohio Teacher Evaluation System 2.0 Model**, which provides definitions of terms, detailed suggested implementation, and best practices for evaluating teachers in Ohio.

**Districts have discretion to place any teacher on an Improvement Plan at any time based on deficiencies in any individual component of the evaluation system. However, *the notice requirements for being placed on an Improvement Plan, the components of the plan and the implementation process for the plan* may be subject to the terms of a collective bargaining agreement.

Teacher Performance Evaluation Rubric

The **Teacher Performance Evaluation Rubric** is to be scored holistically. This means evaluators will assess which level provides the best *overall* description of the teacher. The rating process is to occur on completion of each 30-minute observation and post-conference. To determine the rating for each 30-minute observation, the evaluator is to consider evidence gathered during the pre-conference, observation, post-conference and classroom walkthroughs, if applicable. Note that when completing the performance rubric, evaluators are not expected to gather evidence on all *indicators* for each observation cycle. Likewise, teachers may, but are not required to, bring additional pieces of evidence to address all *indicators*. The professionalism section of the rubric may use evidence collected during the pre-conferences and post-conferences as well as information from the Professional Growth and/or Improvement Plan, if applicable.

ASSESSMENT OF STUDENT LEARNING (Standard 1: Students, Standard 3: Assessment) <i>Possible Sources of Evidence:</i> <i>pre-conference, formal observation, classroom walk-throughs/informal observations, assessments, student portfolios, post-conference</i>	Use of assessments Element 3.1 Element 3.2 Element 3.3 Element 3.4	<p>The teacher does not use varied assessments.</p> <p>The teacher fails to analyze data and makes little or no attempt to modify instruction to meet student needs.</p> <p>The teacher does not share evidence of student learning with students.</p>	<p>The teacher makes limited use of varied assessments.</p> <p>The teacher attempts to analyze data and modify instruction, though the modifications do not meet student needs.</p> <p>The teacher shares evidence of student learning with students.</p>	<p>The teacher selects, develops and uses multiple assessments, including routine use of various diagnostic, formative and summative assessments.</p> <p>The teacher analyzes patterns to measure targeted student learning, anticipate learning obstacles, modify instruction and differentiate to meet the needs of groups of students.</p> <p>The teacher shares evidence of student learning with parents and students to plan instruction to meet student needs.</p>	<p>The teacher intentionally and strategically selects, develops and uses multiple assessments, including routine use of various diagnostic, formative and summative assessments. The teacher offers differentiated assessment choices to meet the full range of student needs.</p> <p>The teacher analyzes data trends and patterns to measure targeted student learning, anticipate learning obstacles, modify instruction and differentiate to meet individual student needs.</p> <p>The teacher shares evidence of student learning with colleagues, parents and students to collaboratively plan instruction to meet individual student needs.</p>
	Evidence of student learning Element 1.3	<p>The teacher's assessment data demonstrates no evidence of growth and/or achievement over time for most students.</p>	<p>The teacher uses one source of high-quality student data to demonstrate clear evidence of appropriate growth and/or achievement over time for some students.</p>	<p>The teacher uses at least two sources of high-quality student data to demonstrate growth and/or achievement over time, showing clear evidence of expected growth and/or achievement for most students.</p>	<p>The teacher uses at least two sources of high-quality student data to demonstrate growth and/or achievement over time, showing clear evidence of above expected growth and/or achievement for most students.</p>

ORGANIZATIONAL AREA: PROFESSIONALISM					
Domains	Components	Ineffective	Developing	Skilled	Accomplished
PROFESSIONAL RESPONSIBILITIES (Standard 6: Collaboration and Communication, Standard 7: Professional Responsibility and Growth) <i>Possible Sources of Evidence:</i> <i>Professional Growth Plan or Improvement Plan, pre-conference, post-conference, artifacts, self-assessment, peer review</i>	Communication and collaboration with families Element 6.1 Element 6.2	The teacher does not communicate with students and families.	The teacher inconsistently or unsuccessfully uses communication and engagement strategies with students and families. These do not contribute adequately to student learning, well-being and development.	The teacher uses effective and appropriate communication and engagement strategies with students and families, resulting in partnerships that contribute to student learning, well-being and development.	The teacher uses multiple effective and appropriate communication and engagement strategies with individual students and families. These ongoing strategies promote two-way communication, active participation and partnerships that contribute to each student's learning, well-being and development.
	Communication and collaboration with colleagues Element 6.3	The teacher does not communicate and/or collaborate with colleagues.	The teacher inconsistently or unsuccessfully communicates and/or collaborates with colleagues, resulting in limited improvement of professional practice.	The teacher effectively communicates and collaborates with colleagues to examine instructional practice and analyze patterns in student work and student data to identify and implement targeted strategies for improving professional practice.	The teacher initiates effective communication and collaboration with colleagues outside the classroom, resulting in improvements in student learning, individual practice, school practice and/or the teaching profession.
	District policies and professional responsibilities Element 7.1	The teacher demonstrates a lack of understanding and regard for district policies, state and federal regulations, and the Licensure Code of Professional Conduct for Ohio Educators.	The teacher demonstrates minimal understanding of district policies, state and federal regulations, and the Licensure Code of Professional Conduct for Ohio Educators.	The teacher demonstrates understanding by following district policies, state and federal regulations, and the Licensure Code of Professional Conduct for Ohio Educators.	The teacher demonstrates understanding by following district policies, state and federal regulations, and the Licensure Code of Professional Conduct for Ohio Educators. The teacher exemplifies effective leadership characteristics beyond the classroom. The teacher helps shape policy at the school, district or state level.

ORGANIZATIONAL AREA: PROFESSIONALISM					
Domains	Components				
		Ineffective	Developing	Skilled	Accomplished
	Professional learning Element 7.2 Element 7.3	The teacher sets short-term and long-term professional goals but fails to monitor progress or take action to meet the goals.	The teacher sets and monitors short-term and long-term professional goals but fails to take appropriate action to meet the goals.	The teacher sets short-term and long-term professional goals and monitors progress in meeting them based on self-reflection and data analysis. The teacher takes appropriate action to meet the goals.	The teacher consistently pursues best practices and sets, monitors and reflects on progress toward meeting short-term and long-term professional goals based on data analysis to improve student learning. The teacher takes appropriate action to meet the goals. The teacher collaborates with colleagues and others to share best practices.

The ***Instructional Coach Performance Evaluation Rubric*** is intended to be scored holistically. This means that evaluators will assess which level provides the best overall description of the instructional coach. Evidence will be collected in a digital portfolio, which will be discussed at pre and post conferences. When completing the performance rubric, please note that evaluators are not expected to gather evidence on all indicators for each observation cycle. Likewise, instructional coaches should not be required to submit additional pieces of evidence to address all indicators. The professionalism section of the rubric may use evidence collected during the pre-observation and post conferences as well as information from the Professional Growth and/or Improvement Plan (if applicable).

The following rubric was developed into organizational areas (I-III), domains (A-C), and components (1-3). Rating descriptor language within each of these organizational areas was adapted from either the Ohio Teacher Evaluation System 2.0 rubric, or with input from evidence-based instructional coaching models (i.e. Jim Knight and Elena Augilar).

The organization of the Instructional Coach Performance Evaluation Rubric is as follows:

- I. INSTRUCTIONAL PLANNING
 - A. Focus for Learning
 - 1. Use of High-Quality Student Data
 - 2. Connections to Prior and Future Student Learning
 - 3. Connections to State Standards and District Priorities
 - B. Knowledge of Students
 - 1. Planning Instruction for the Whole Child
- II. INSTRUCTION AND ASSESSMENT
 - A. Lesson Delivery
 - 1. Communication with Students
 - 2. Monitoring Student Understanding
 - 3. Student-Centered Learning
 - B. Classroom Environment
 - 1. Classroom Routines and Procedures
 - 2. Classroom Climate and Cultural Competency
 - C. Assessment of Student Learning
 - 1. Use of Assessments
 - 2. Evidence of Student Learning
- III. PROFESSIONALISM
 - A. Coaching Conversations
 - 1. Planning
 - 2. Questioning
 - 3. Listening
 - B. Professional Responsibilities
 - 1. Communication and Collaboration
 - 2. District Policies and Professional Responsibilities
 - 3. Professional Learning

The instructional coach also brainstorms and suggests strategies for communicating those connections to students - among lesson content, other disciplines and/or real-world experiences.</p> <p>The instructional coach offers lesson planning guidance based on evidence-based strategies and contributions from other</p>

					colleagues and professionals to help the teacher understand each students' prior knowledge while supporting the students' development.
	Connections to state standards and district priorities	Offers no support to teachers in connecting lesson plans to Ohio's learning standards, student needs, or school and district priorities.	Support classroom teachers in aligning lessons to Ohio's Learning Standards, but does not offer support for aligning with student needs or school and district priorities.	Support classroom teachers in incorporating activities, assessments, and resources, including available technology, that align with student needs, school and district priorities and Ohio's Learning Standards.	Support classroom teachers in incorporating activities, assessments, and resources, including available technology, that align with student needs, school and district priorities and Ohio's Learning Standards. The instructional coach participates in studying and evaluating advances in content and/or provides input on school and district curriculum.
KNOWLEDGE OF STUDENTS	Planning instruction for the whole child	The instructional coach offers no support to teachers in guiding instructional plans that reflect connections to students' experiences, culture, development characteristics or student background.	The instructional coach offers minimal help in guiding teachers' instructional plan to reflect connections to students' experiences, culture, development characteristics or student background.	The instructional coach helps to guide the teacher's instructional plan to reflect connections to students' experiences, culture and development characteristics. These may include prior learning, abilities, strengths, needs, talents, backgrounds, skills, language proficiency and interests.	The instructional coach consistently helps to guide the teacher's instructional plan to reflect connections to students' experiences, culture and development characteristics. These may include prior learning, abilities, strengths, needs, talents, backgrounds, skills, language proficiency and interests. The instructional coach provides input to the teacher from school professionals and outside resources.

ORGANIZATIONAL AREA: INSTRUCTION AND ASSESSMENT					
Domains	Components	Ineffective	Developing	Skilled	Accomplished
LESSON DELIVERY	Communication with Students	<p>The instructional coach's communication with teachers is limited and no modeling of instruction is provided for teachers.</p> <p>The instructional coach does not demonstrate pedagogical knowledge and provide no strategies.</p> <p>The instructional coach does not give feedback to teachers.</p>	<p>The instructional coach is inconsistent in communicating appropriate, needs-based, differentiated, measurable coaching goals, and modeling instruction of students lacks differentiated learning goals.</p> <p>The instructional coach demonstrates some pedagogical knowledge using limited content specific language and strategies.</p> <p>Feedback to teachers is general, occasional or limited and may not always support teacher growth.</p>	<p>The instructional coach is consistent and effective in communicating appropriate, needs-based, differentiated, measurable coaching goals, and modeling of exemplary instruction of students.</p> <p>The instructional coach consistently demonstrates pedagogical knowledge by using content-specific, pedagogically appropriate language and offers strategies that will engage students.</p> <p>The instructional coaches' communication strategies and questioning techniques encourage teacher reflection and ownership of instructional practices.</p> <p>The instructional coach gives teachers substantive, specific, and timely feedback to support their growth and progress towards individual goals.</p>	<p>The instructional coach is consistent and effective in communicating appropriate, needs-based, differentiated, measurable coaching goals, and modeling of exemplary instruction of students with multiple exposures.</p> <p>The instructional coach consistently demonstrates pedagogical knowledge by using content-specific, pedagogically appropriate language and offers strategies that will engage students in higher-level and creative thinking, stimulating student-to-student interactions.</p> <p>The instructional coaches' communication strategies and questioning techniques encourage teacher reflection and ownership of instructional practices, acting as a catalyst for peer modeling and discussion.</p> <p>The instructional coach gives teachers substantive, specific, and timely feedback to support their growth and progress towards individual goals.</p> <p>The instructional coach</p>

					facilitates opportunities for teachers to engage in self-assessment, encouraging teacher-to-teacher feedback and reflection among teacher-based teams.
	Monitoring student understanding	The instructional coach does not offer support to teachers on strategies for monitoring student understanding.	The instructional coach offers suggestions for strategies to monitor student understanding but does not follow up on suggestions by working with the teacher on implementation of suggested strategies.	The instructional coach consistently works with the teacher to identify strategies for monitoring student understanding.	The instructional coach anticipates teacher needs and consistently works with the teacher to identify strategies for monitoring student understanding.
	Student-centered learning	The instructional coach offers little to no support for teachers with strategies for increasing student-directed learning.	The instructional coach offers strategy suggestions without modeling or collaboration with the teacher.	The instructional coach collaborates with teachers to teach and model evidence-based strategies, plan lesson pacing and delivery.	The instructional coach collaborates with teachers to teach and model evidence-based strategies, plan lesson pacing, differentiate for accessibility and rigor, plan gradual release of responsibility and lesson delivery.
CLASSROOM ENVIRONMENT	Classroom routines and procedures	<p>The instructional coach offers few or no strategy suggestions on classroom routines and procedures.</p> <p>No routines for meeting with teachers have been established.</p>	<p>The instructional coach offers strategy suggestions to teachers but does not follow up on implementing developmentally appropriate routines, procedures and transitions that effectively maximize instructional time.</p> <p>Routines for meeting with teachers are inconsistent.</p>	<p>The instructional coach works with teachers to choose and implement developmentally appropriate routines, procedures and transitions that effectively maximize instructional time.</p> <p>The instructional coach has established routines and systems in place to meet with teachers and model classroom strategies.</p>	<p>The instructional coach works with teachers to collaborate with students on choosing and establishing consistent routines, procedures and transitions that effectively maximize instructional time.</p> <p>The instructional coach's established routines and systems for meeting with teachers are consistently utilized, demonstrated by</p>

					teachers initiating coaching cycles and having ownership over their professional growth.
	<i>Classroom climate and cultural competency</i>	<p>There is no evidence of rapport and expectations for respectful, supportive and caring interactions with and among teachers, students and the instructional coach.</p> <p>There is no demonstration of regard for individual perspectives, experiences and cultures.</p> <p>The instructional coach does not address teacher needs relating to classroom climate.</p>	<p>There is some evidence of rapport and expectations for respectful, supportive and caring interactions with and among teachers, students and the instructional coach.</p> <p>There is inconsistent demonstration of regard for individual perspectives, experiences and cultures.</p> <p>The instructional coach is aware of teacher needs relating to classroom climate but does not address them effectively.</p>	<p>There is consistent evidence of rapport and expectations for respectful, supportive and caring interactions with and among teachers, students and the instructional coach.</p> <p>There is demonstration of regard for individual perspectives, experiences and cultures. The instructional coach creates a positive climate of openness, respect and care among teacher and classroom interactions.</p> <p>The instructional coach responds effectively to teacher needs relating to classroom climate.</p>	<p>The instructional coach intentionally creates a work environment that shows consistent evidence of rapport and expectations for respectful, supportive, and caring interactions with and among teachers and students.</p> <p>There is demonstration of regard for individual perspectives, experiences and cultures. The instructional coach creates a positive climate of openness, respect and care.</p> <p>The instructional coach seeks and is receptive to the thoughts and opinions of individual teachers, anticipating and responding effectively to teacher needs relating to classroom climate.</p>
ASSESSMENT OF STUDENT LEARNING	<i>Use of assessments</i>	<p>The instructional coach does not work with teachers in selecting valid assessments.</p> <p>The instructional coach demonstrates little to no understanding of how to analyze data patterns in</p>	<p>The instructional coach occasionally works with the teacher in selecting valid assessments.</p> <p>The instructional coach offers little modeling for teachers on how to analyze data patterns in measures</p>	<p>The instructional coach works with the teacher in selecting, developing and utilizing a variety of valid assessments.</p> <p>The instructional coach models for teachers how to analyze data patterns in</p>	<p>The instructional coach works with the teacher in strategically selecting, developing and utilizing a variety of differentiated valid assessments.</p> <p>The instructional coach models for teachers how to</p>

Local Decision Points for Districts Regarding the Ohio Teacher Evaluation System 2.0

The questions in this document were formulated by ODE.
Answers to the questions are district decisions.

Performance Components

- Will the district require completion of the self-assessment? (This remains private to the teacher.) **A: Yes**
- Are pre-conferences required? If so, are there any guidelines? **A: Yes. The pre conference is required for the first observation of those teachers on a full evaluation cycle.**
- Are observations announced or unannounced? **A: 1st observation is announced, 2nd observation is unannounced.**
- Is feedback required on each walkthrough/informal observation? If yes, what will this look like? **A: The evaluator will provide feedback through the evaluation form in Ohio ES.**
- In addition to the conference following the Formal Holistic Observation and the Final Summative Conference, are other conferences required? **A: Yes, teachers who are on-cycle will have a post conference after their formal focused observation.**

Evaluation Cycle

- How many focus areas will teachers have?
 - **A: minimum of one**
- Will the district evaluate teachers having earned an Accomplished or Skilled rating less frequently? **Yes**
 - For the one required observation, what type of observation will that be? **Formal Observation**
 - For the one required conference, what type of conference will that be? **Post Conference**
 - How will it be determined if progress is made on the PGP? **A: Qualitative or quantitative measurable indicators included in the plan will demonstrate progress toward the goal(s).**
- Will the district allow teachers rated Accomplished to select their evaluator and teachers rated Skilled to provide input on their evaluator?
 - **A: Yes**
- Will the district choose to not evaluate a teacher who has been board approved for retirement by December 1?
 - **A: Yes**
- Will the district choose to not evaluate a teacher participating for the first time in the Resident Educator Summative Assessment (RESA)? **A: No**
- How will the district determine if a teacher is on board-approved leave for more than 50% of the school year?
 - Will that teacher be evaluated? **A: The Board may elect not to evaluate a teacher who was on leave from the School District for fifty percent (50%) or more of the school year.**
- For the teacher on a limited or extended limited contract under consideration for non-renewal, the district is required to conduct at least three formal observations.

- **A: A teacher new to the District or any teacher on a limited contract who is under consideration for renewal/non renewal shall receive at least three (3) formal observations in addition to periodic (at least two (2)) classroom walkthroughs unless the Superintendent waives the third observation.**
- How will this be communicated and implemented? **Policy 3220 and the OTES Handbook**

Professional Growth Plan (PGP)

- How many goals are teachers required to have on the PGP? **A: Minimum of one**
- What is the district timeline for development of the PGP? **A: PGPs are due the Friday after Labor Day.**
- How will it be determined that the PGP is aligned to any district and/or school improvement plan(s)? **A- Collaboration between the administration/teacher**

High-Quality Student Data (HQSD)

- How will the district make decisions around HQSD?
 - How will it be determined if an instrument meets the criteria for HQSD?
 - **A: The HSQD Committee will make recommendations to the superintendent.**
 - How will the evaluator determine if the teacher meets the criteria of using the data from the instrument?
 - **A: Evidence will be collected during formal/informal observations. Teachers can also bring evidence to conferences.**
 - How will the district define “experts in the field”? **A: The Board defines the term “expert” to include members of the District’s administrative team, credentialed evaluators, as well as Faculty representatives as selected by district administration in collaboration with AEA.**

Pre-Observation Conference Questionnaire

Name _____

Please give me a “bird’s eye view” of what will be going on in the classroom.

1. What will the teacher/tutor/dean of students be doing?

2. What will the student/teacher/tutor be doing?

3. What unit/standard/session is this lesson coming from?
 - A. What teaching methods/strategies will you be using?
 - B. How will you evaluate the effectiveness of your lesson/session?

4. What do you want me to look for? e.g. student behavior/responses, formative assessment strategies, student engagement, etc.

Alliance City Schools Non-OTES Certificated/Licensed Staff Evaluation Procedures

The Evaluation Procedures for teachers not evaluated under the Ohio Teacher Evaluation System (OTES 2.0) will be used as a means to improve and maintain a high quality of work and make a record of employee performance. It is also a means of commending effective employees as well as designating areas where improvement is needed.

The evaluation documentation to be maintained in the employee's file includes copies of all observation forms, evaluation forms, and collaborative intervention plans.

Track One Guidelines (Full Evaluation)

Certified staff members with **five years of experience or less with Alliance City Schools**, teachers with more than five years of experience and with a final summative rating of developing, staff on a collaborative improvement plan, and teachers being considered for Continuing Contract will be observed 2 times and evaluated 1 time per year. All observations must be a minimum of 30 minutes in length.

✓ **The first observation shall occur on or before December 31st.**

1. Principal announces Observation #1 and sets a date for the Pre-observation Conference. (One formal classroom observation shall occur with at least 24 hours advance notice to the teacher.)
2. Classroom Observation #1 (before Dec.31)
3. Post Observation Conference #1

✓ **The second observation shall occur on or before March 31**

1. Classroom Observation #2
2. Post Observation Conference #2
5. Full Evaluation and contract recommendation (before May 10)

*All post-observation meetings shall occur within 10 days of the observation.

Track Two Guidelines (Less Frequent Evaluation Cycle)

Certified staff members with **more than five years of experience** with Alliance City Schools and a final summative rating of skilled or accomplished will follow Track Two Guidelines.

Staff with a final summative rating of skilled will follow Track 1 Guidelines every 2 years and staff with an accomplished final summative rating will follow Track 1 Guidelines every 3 years.

Additional classroom observations may be conducted at the discretion of the principal or request of the teacher. All observations must be a minimum of 30 minutes in length.

✓ **This observation shall occur on or before March 31**

1. Principal announces Observation #1
2. Principal completes Classroom Observation #1 (before Dec. 31)
3. Post Observation Conference
4. Full Evaluation Meeting (before May 10)

*All post-observation meetings shall occur within 10 days of the observation.
