

**Greg Scott Memorial Natural Resources Scholarship
Administered by Chequamegon Bird Club, LTD**

Eligibility:

- Student should be a graduating senior with a 3.0 or above grade point average.
- Student must be planning to pursue a degree in natural resources, conservation, wildlife, or environmental protection.

Requirements:

- Completion of the Application Form.
- Student should include with this application one letter of recommendation from a teacher or community leader who can verify the applicant's dedication to natural resources, conservation, wildlife, and environmental protection
- Scholarship funds will be awarded after the CBC committee receives proof of the passing completion of a natural resources associated class at the post secondary level. Scholarship must be claimed within three years of the awarded year.
- This application must be returned to the high school Guidance Office by April 8.

The Scholarship Committee of the Chequamegon Bird Club, Ltd will review applications and choose one recipient who will receive a \$500.00 certificate. At the completion of the required college course, the student should send verification of passing grade to:

What has motivated you to want to go in this direction and what are your undergraduate educational plans? (Specific area of concentration intended, and specialization within the major)

Activities and Awards

List club memberships and school related activities that reflect your interest in natural resources, conservation, wildlife, and environmental protection.

List leadership positions you have held in high school:

List any community service involvement that is related to natural resources, conservation, wildlife, and environmental protection.

List any awards received for school or community involvement:

Essay Question:

On a separate sheet, please write a brief typewritten answer to the following essay question:

There are many issues that today's naturalists struggle to resolve. A few are species extinctions, fossil fuel use, global warming, and overpopulation. These are unfortunately just a few examples of what sometimes seem to be a never-ending list of both local and global breakdowns that need fixing. Many naturalists place their highest priority on one specific problem.

1. If you had to choose one thing that you could strive to change during your collegiate and professional careers, what would it be?
2. Why is this particular issue so important to you and why should it be important to others?
3. What do you visualize yourself doing in 10 years?

Certification

In submitting this application, I certify that the information provided is complete and accurate to the best of my knowledge. If requested, I agree to provide proof of information I have given on this form. Falsification of information may result in termination of any scholarship granted. After the scholarship is awarded, this application becomes the property of the Chequamegon Bird Club, Ltd.
