

Inclement Weather Plan for Students 23-24

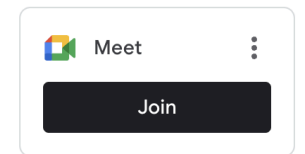

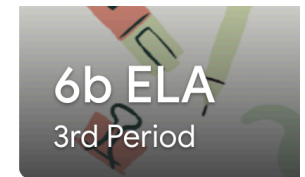

Due to today's weather, you will have eLearning. Core classes (Math, ELA, SS, Science) require live virtual attendance through Google Meets, while PE and Specials virtual attendance is optional while you work on their posted lesson.

- You will follow your daily schedule with shorter class periods, except for Anchor. 5th & 6th Graders will have 9th period after 6th period though. Please follow the times closely, as they differ from Google Meet's class times. The schedules listed below are correct for most students, but if unsure, please check your schedule in Skyward. Virtual attendance for classes in **red** is required. Your PE and Specials classes will post asynchronous work for you to complete during their class times, and your teachers will be available through Google Meet if you need help.
- You will not have a planned Viking Time, but this is a great time to do homework, use iReady / IXL, or do anything else that is educational.
- We will use Go Guardian to help you get where you need to go.
- If you have any trouble getting on, please use Go Guardian or call our office at [630.279.6160](tel:630.279.6160).

You will access Google Meets to show your live class by clicking the link for each of your core classes in Google Classroom. Do not forget that the times are different. If you enter early, you will not be able to get in, as the teacher has to open up the Meet first. Please wait and try again. This "Meet link" is located directly under the name of the class.

*8th Graders in band/orchestra may have a slightly different schedule for PE/Specials, just like they do in person. They should review Skyward if there is any confusion.

- *If you have classes with Mrs. Jordan and/or Ms. Cummane, you will go to those classes normally, and your schedule may not match the ones posted below. Refer to Skyward for your actual schedule.
