Cold Temperature Precautions

With the cold temperatures and below zero wind chill values, it's important to make sure students are prepared. Elementary students have to walk between the elementary and high school for lunch and breakfast; in addition to walking to and from their transportation to and from school. For this reason, it is very important children dress for the cold and have a coats, gloves and hats.

For those who ride the bus, please contact your driver if you plan to transport your child on Tuesday so we can adjust routes to reduce the time children are on the buses. Bus riders need to dress warm every day during the winter.

For high school students who drive, make sure you have emergency items in your vehicle in case you break down. Blankets, jumper cables, extra warm clothing are items helpful to have during the winter months. Have your phone charged so you can call for help if needed, keep your car fueled (Don't run on empty!), and check your tires.

On Tuesday morning, if your child walks to school, and you have no other way to transport your child to school, call the office and we will find a way to get your child to school.
