Individual Health Care Plan (IHCP) for Allergies, Asthma, Diabetes and/or Seizures CONFIDENTIAL You indicated on the school's annual health record that your child had an allergy, asthma, diabetes and/or seizures. This plan will identify your student's medical needs and precautions to be taken in emergency. Individual Health Care Plan (IHCP) for (student)______ Allergen(s)/Asthma/Diabetes/Seizures: GOAL: Prevent allergic reactions, asthma attacks, diabetic crisis and/or seizures from occurring and ensure student's safety at school. PROBLEM: (Describe type of reaction: i.e., risk for anaphylaxis, hives, asthma attack, diabetic crisis, type of seizure) **PRECATIONS TO BE TAKEN:** See Below Parent/Guardian Questionnaire N/A Yes 1. My child will have medication(s) available at school for their allergy/asthma/diabetes/seizures. List medication used at home and/or at school specific to above: 2. My child's EpiPen(s), Inhaler, Insulin, Seizure Meds will be kept: a. In the nurse's office..... b. In my child's possession..... c. In both the nurse's office and in my child's possession..... 3. If my child is responsible for their own medication it will be kept with my child at all times.

Parent/Guardian Responsibilities

- Inform teachers <u>and</u> nurse of my child's allergies/asthma/diabetes/seizures prior to the beginning of the school year or as soon as possible after a diagnosis.
- Complete and return the Emergency Action Plan (Allergy Action Plan, Asthma Action Plan, Seizure Action Plan and/or Insulin Road Map) to nurse.
- Provide the school with up-to-date medications as needed.

Parent/Guardian Initials

Parent/Guardian Responsibilities (continued)

- Periodically teach and review with my child the following:
 - To recognize the first symptoms of an allergic/anaphylactic/diabetic/seizure.
 - To communicate as soon as they feel a reaction is starting.
 - To carry their own EpiPen/inhaler/insulin when appropriate (class, lunch, field trips, sports).
- Will notify extracurricular/club advisors of participating students health condition.
- If student takes a bus and/or attends after school activities, will notify bus driver/staff member/coach of condition and emergency meds. Will provide them with Emergency Action Plan. Will inform them to call 911 if a properly trained person is not there to administer medication.

Student Responsibilities

- Recognize the first symptoms of an allergic/anaphylactic reaction, asthma attack, blood sugar crisis, seizure.
- Know where their emergency meds are kept.
- Inform an adult as soon as accidental exposure or symptoms appear.
- Carry own emergency meds when and if appropriate.
- If food allergy, will wash hands before and after eating and avoid sharing or trading snacks/lunch.

School Nurse Responsibilities

- Educate all staff that interacts with students about allergy, asthma, diabetic and seizure signs and symptoms.
- Educate staff on steps required to implement the Emergency Action Plan. Review emergency procedures with teacher(s) prior to field trips as needed.
- Develop a plan for access to emergency medication when developing plans for fire drills, lockdowns, etc.
- Keep a copy of the student's Emergency Action Plan and IHCP in nurse's office as well as provide to teachers a flag on Infinite Campus to notify them.
- Provide annual training to staff on proper use of emergency meds.

Teacher Responsibilities

- Monitor Infinite Campus Health Conditions to be aware of which students have medical needs and follow the instructions/accommodations listed.
- Will encourage students to wash their hands upon arrival to school and before and after lunch.
- A student with a suspected allergic reaction, asthma attack, diabetic crisis, or seizure will be accompanied to the health office or the nurse will be called to the location.
- List students who have an Emergency Action Plan and/or IHCP in the classroom sub folder with instructions to send to nurse if needed.
- Inform parents of the student in advance of any in-class/in-school events where food or allergens will be present.
- Notify parents when food or products are used for class projects or science experiments and develop plans to prevent exposure.
- Plan for the following on field trips:
 - Review Health Conditions and instructions/accommodations before the field trip.
 - Notify school nurse of field trip with list of students attending minimum of 24 hours before trip.
 - Carry a cell phone to call nurse/911 if needed.
- Follow District procedures for medication administration and emergency situation management including contacting of 911 if necessary.

Principal Responsibilities

- Provide walkie-talkies/cell phones to playground and PE staff.
- Delegate proper cleaning of the lunchroom and designated food areas to prevent allergen exposure.
